

BOSCH

Invented for life

Dryer Range.

Optimal drying results made
easy with Bosch dryers.

Why choose Bosch?

Quality comes from experience.

All Bosch products are manufactured to highest possible standards, using only premium quality materials. We undertake quality and endurance tests for our products under continuous usage conditioning. Not a single appliance leaves our factory until it has been proven to meet our high standards.

Sustainability.

Bosch products have been manufactured with the aim of minimising their impact on the environment. The signet stands for the resource-efficiency of our products – quite simply, for their 'Green Technology'.

Extensive Customer Service Network.

Our friendly Bosch Customer Care team is on-hand to provide competent, reliable assistance. Before or after purchase, the Bosch team will be happy to advise you on products, their use and special functions.

Reliability Guaranteed.

We offer a 2 year manufacturer warranty on all our appliances. The appliance must be registered with the warranty card or online at www.bosch-home.co.nz/mybosch

Why should you use a dryer?

Having a dryer at home provides great benefits when it comes to having your laundry done.

Save precious time and effort.

With a dryer, you can dry multiple laundry loads in a day and store them immediately in the closet.

Quick dry, no matter the weather.

With a dryer, you can eliminate the need to rely on good weather and speed up the drying process for crisp, fresh smelling laundry.

Fuss-free ironing.

The Iron Dry option* in selected Bosch dryers helps to retain some moisture in your clothes for optimum ironing results. The Cupboard Dry and Extra Dry options* will also significantly reduce the amount of creases on your clothes through frequent tumbling.

Dry larger items with ease.

A dryer with the Quilt/Duvet program* can get your curtains and upholstery to dry quickly, while the Towels program* will ensure stockpile of fluffy towels are readily available for use.

Have your winter wear smelling fresh in no time at all.

Washing winter wear can be a troublesome affair as it takes a significant amount of time to wash and dry winter coats. With a dryer, winter clothes in particular can be dried quickly – use the Wool program* for laundry with wool fabrics, and the Down program* for all your down coats.

Space is no longer a constraint.

Dryers are compact and can be tidily stored in a corner of your kitchen, bathroom or laundry while providing optimum drying performance with the added convenience to stack on top of your front load washing machine anchored with a stacking kit. Plus our Bosch heat pump and condenser dryers don't need to be vented to direct hot air to the outside.

*Features vary depending on model. Please check individual product specifications.

Heat Pump Dryers

HomeProfessional WTY877W0AU

Performance

9kg capacity
8 Star Energy rating (150kWh per annum)
62dB operating noise

Bosch Dryers.

All our dryers and washer dryer offer a range of advanced technologies as standard and additional options across the ranges to suit your individual requirements. To help you choose the right Bosch laundry appliance we have divided them into the ranges below.

Heat Pump Dryer: The most economical choice.

Bosch heat pump dryers are amongst the most economical dryers on the market. The air used for drying is heated by the heat pump and the existing heat is reused efficiently during the entire drying process. Not only are our heat pump dryers gentle on clothes, thanks to our patented SelfCleaning Condenser, our Bosch heat pump dryers stay efficient during the entire working life of the machine.

Condenser Dryer: No need for a hole in the wall.

Condenser dryers don't need to be vented to direct hot air to the outside, which makes them the perfect choice for rentals. Gentle on clothes, the moisture extracted from the washing is pumped to the drain, so you don't even need to empty the water container after using the dryer.

Washer Dryer: One multi-talented appliance.

Not only have we rolled two appliances into one, our Bosch washer dryer cleans flawlessly and dries perfectly when space is at a premium. Our washer dryer allows you to wash and dry up to 1kg of washing in only 60 minutes with efficient drying through condensation technology.

Condenser Dryer

Washer Dryer

Series 6 WTR85T00AU

Performance

Safety

AquaSecure anti-flood protection
Child lock

Dimensions (HxWxD)

845mm x 600mm x 590mm
(632mm with door frame)

*Operating noise is washing and spinning.

Great features, drying options and programs for all your needs.*

AntiVibration design: Greater stability, less vibration.

The design of the side walls provides greater stability and reduces vibration. The enhanced insulation also regulates noise levels, making Bosch dryers very quiet.

SelfCleaning Condenser.*

The patented SelfCleaning Condenser saves you the chore of manual cleaning. It cleans itself automatically multiple times during the drying process. It also ensures the dryer performs economically with optimal energy efficiency.

SensitiveDrying System.

A textile-friendly drum design and SoftFlow paddles ensure soft and fluffy laundry. In addition, the large capacity drum (depending on model) protects laundry and reduces creasing.

AutoDry.*

Intelligent sensors monitor the temperature and residual moisture content throughout the drying process to ensure your garments are dried precisely to the desired setting without over or under heating. This ensures garments are treated with maximum care.

SuperQuick 40.

The SuperQuick 40 minutes program is designed so washing can be dried quickly – maximum 2kg load. Specifically for synthetic fabrics, cotton and blended fabrics.

Easy-Iron option.*

The reduced ironing feature with two setting options helps reduce creasing and extends the anti-creasing phase once the program has ended.

Fine Adjust option.*

Dryness level of your laundry can be adjusted in three levels (e.g. Cupboard Dry).

Sportswear program.

A gentle drying program developed to handle performance and sports fabrics with micro-fibre technology that complements the Sportswear washing program in selected Bosch washing machines.

*Features vary depending on model. Please check individual product specifications.
