

BOSCH

Invented for life

Washing Machine Range.

Save on time, water and energy with a range of advanced technologies across our Bosch models.

Why choose Bosch?

Quality comes from experience.

All Bosch products are manufactured to highest possible standards, using only premium quality materials. We undertake quality and endurance tests for our products under continuous usage conditioning. Not a single appliance leaves our factory until it has been proven to meet our high standards.

Sustainability.

Bosch products have been manufactured with the aim of minimising their impact on the environment. The signet stands for the resource-efficiency of our products – quite simply, for their 'Green Technology'.

Extensive Customer Service Network.

Our friendly Bosch Customer Care team is on-hand to provide competent, reliable assistance. Before or after purchase, the Bosch team will be happy to advise you on products, their use and special functions.

Reliability Guaranteed.

We offer a 2 year manufacturer warranty on all our appliances plus a 10 year warranty on our EcoSilence Drive motor in all our washing machines and washer dryers. The appliance must be registered with the warranty card or online at www.bosch-home.co.nz/mybosch

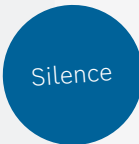

Why front load washing machine?

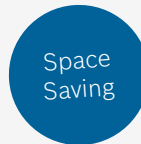

Front load washing machines are well known for using less water and detergent per load while providing better washing results.

Laundry is washed with a tumbling motion similar to washing by hand. This imposes less friction on clothes, minimising wear and tear.

Front load washing machines have a load sensor, counterweights and padding to ensure silent performance.

What's more, a front loader is the perfect solution for using space efficiently. It can double as a benchtop or a dryer can be stacked on top of it, saving precious floor space.

Advanced technologies from Bosch.

i-DOS*: The automatic self-dosing system.

The integrated automatic dosing system carefully determines the exact wash conditions and automatically dispenses the correct amount of liquid detergent to the very millilitre. Fill up once and wash up to 33 times[^]. No more over- or under-dosing, the Bosch i-DOS does everything exactly right.

[^]Based on Persil standard liquid detergent (1 litre) – average 30ml dose each load.

Allergy Plus* for hygienically clean laundry.

Our Series 6, 8 and HomeProfessional washing machines with Bosch Allergy Plus, wash with a 60°C program that ensures 99.99% of bacteria will be removed[#]. Particularly suited for items that need to be hygienically clean such as towels, bed sheets or pillow cases.

[#]99.99% bacterial reduction as tested by TÜV SÜD PSB Singapore on 16 Oct 2019 on 'AllergyPlus' wash program at 60°C for a recommended load of 4kg.

*Features vary depending on model. Please check individual product specifications.

Bosch Washing Machines.

All our washing machines and washer dryer offer a range of advanced technologies as standard and additional options across the ranges to suit your individual requirements. To help you choose the right Bosch laundry appliance we have divided them into the ranges below.

HomeProfessional: Best in class.

The pinnacle of the Bosch range, offering the upmost in style and garment care due to its advanced technologies such as the i-DOS automatic self-dosing and Anti-Stain systems. These are just two of the features along with its dynamic TFT display which will ensure you have the very best washing machine taking care of your laundry.

Series 8: The clever performer.

Whichever of our Series 8 range you choose for your laundry, you know that they will achieve perfect results with ease, thanks to their increased functionalities and the quality and reliability that comes from being German made.

Series 6: Versatile and user-friendly.

Our Series 6 range offer great value for money with no compromise on build quality. User-friendly, durable and extremely quiet, our Series 6 washing machines always get your laundry perfectly clean using the least amount of energy due to their Water and Energy Star ratings.

Series 4: The everyday performer.

All our Bosch washing machines feature the EcoSilence Drive motor with 10-year motor warranty and AntiVibration design, plus advanced features such as SpeedPerfect. When you're looking for reliability, better wash performance and a quiet motor even during the spin cycle, you can't look past the everyday performance the Series 4 will provide.

Washer Dryer: One multi-talented appliance.

Not only have we rolled two appliances into one, our Bosch washer dryer cleans flawlessly and dries perfectly when space is at a premium. Our washer dryer allows you to wash and dry up to 1kg of washing in only 60 minutes with efficient drying through condensation technology.

*Operating noise is washing and spinning.

Features and functions for everyday use.*

ActiveWater Plus technology: Advanced automatic load sensing system.

ActiveWater Plus uses a pressure and water flow sensor that measures the washing load, fabric water absorption and adjusts water intake to 256 precise levels for improved running costs and water savings.

VarioDrum: Offering the best in garment care.*

Unique waved surface of the drum designed for powerful and gentle treatment (steep structure for heavily soiled clothes and flat structure for delicate laundry).

VarioPerfect: Wash faster or more energy efficiently.

Choose between SpeedPerfect (reducing cleaning time by up to 65%) or EcoPerfect (saving energy by up to 20%) on selected programs.

EcoSilence Drive motor: Silent performance for peace of mind.

Bosch washing machines with EcoSilence Drive are equipped with an advanced, brushless motor that optimally reduces friction for better energy efficiency, durability and exceptionally quiet operation.

AntiVibration design: Greater stability, less vibration.

The design of the side walls provides greater stability and reduces vibration. The enhanced insulation also regulates noise levels, making Bosch washing machines very quiet even during the spin cycle.

Reload function: Add or remove items after the wash program has started.

Add laundry or remove items at almost any time during the wash cycle (if it is within safe water and temperature levels).

Quick Wash programs.

Short wash program of approximately 15 minutes for up to 2kg of lightly soiled washing (SuperQuick 15). Selected models have a 30 minute wash program for up to 3.5kg (SuperQuick 30).

AquaStop anti-flood protection.*

The AquaStop system provides 100% anti-flood protection# and is guaranteed for the entire service life of the appliance.

#Must be connected and switched on at the mains.

*Features vary depending on model. Please check individual product specifications.
