SMEG

MADE IN ITALY

For more than 70 years Smeg has inspired a love of craftsmanship around the world. Smeg continually innovates its product portfolio with technology, style and function to embody individuality and self-expression in the kitchen.

Smeg is a family-owned Italian appliance manufacturer based in the culinary and engineering hub of Guastalla, Emilia Romagna in Northern Italy. For more than 70 years, Smeg has inspired a love of craftsmanship around the world to create a brand that is synonymous with continuous innovation and timeless style.

entertainer, Smeg's diverse collection embodies individuality and enables self-expression in the kitchen. From ovens, cooktops, dishwashers and refrigerators to wine cellars, kettles, toasters and more, Smeg seamlessly pairs powerful performance with architectural design to be the most desired appliance brand.

Through its collaborations with world-leading architects and designers, Smeg's product portfolio services the entire kitchen, including major and small appliances. Whether you're a passionate cook, master baker or avid

SMEG

A GLOBAL BRAND

For over 70 years now, Smeg appliances have been widely regarded as tasteful and elegant products which combine effortlessly to accentuate any development - thanks to Smeg's partnerships with world famous architects and an extensive distribution network around the world.

Smeg has 18 major subsidiaries worldwide in Australia, UK, France, Belgium, Netherlands, Germany, Sweden, Denmark, Poland, Spain, Portugal, Russia, Ukraine, Kazakhstan, South Africa, USA, Mozambique and Mexico. Also, overseas offices operating in Hong Kong and Saudi Arabia. Complimenting this is a large network of distribution partners all over

the world: Eastern Europe, Scandinavia, the Middle East, Mediterranean countries, North and South Africa, Asia, New Zealand, Canada, Central and Latin America forming an extensive sales network.

Smeg takes great pride in the emphasis it places on product quality, technological innovation and design; consequently becoming known all over the world as exemplifying "Made in Italy" excellence.

SMEG

AUSTRALIA

COMMERCIAL DIVISION

Smeg Australia has the most experienced commercial division in Australia, devoted to bringing Smeg's technology and style to residential developments of all sizes. Established in 1991, the division has a dedicated team in every state and territory servicing the development community with expertise forged over the decades specifically for the architect, developer and builder.

This experience brings the highest possible level of service. Smeg's credentials include warehousing across the country, high-volume logistics, on-time delivery, support on-site and the very best service division in the country. Smeg prides itself on developing long-term relationships with clients, so personal attention and support is provided at every step. Our dedicated commercial consultants are always available by phone to offer expert advice.

Over the years, Smeg has been part of the success of Australia's premium apartment residential developers and new home builders. Since the 1980s, Smeg has been consistently referred by name in development and project marketing campaigns as a mark of a quality residential development.

THE ULTIMATE KITCHEN SOLUTION

Smeg offers a wide range of commercial exclusive products designed to meet the needs of builders, architects and developers, all with Smeg's renowned innovation, superb engineering and architectural style.

Smeg is the only appliance brand to offer a choice of genuine design aesthetics. From Classic, celebrating 35 years of timeless, elegant design; 'less is more' Linea, embodying simplicity and sophistication; Victoria, embracing modern vintage style with technological innovation; Dolce Stil Novo, where passion meets precision; and Portofino, inspired by the rich colours and flavours of the Italian Riviera.

From ovens, cooktops, dishwashers and refrigerators to wine cellars and small appliances, Smeg seamlessly combines innovation, functionality and Italian design to offer a total kitchen solution and enhance the quality of everyday life.

ENVIRONMENTAL SUSTAINABILITY

For more than 70 years, Smeg has remained committed to continuously developing cutting-edge technology to ensure the most environmentally-friendly appliances. By striving to improve its products and reduce the impact of the manufacturing process on the environment, Smeg seeks to create a sustainable future.

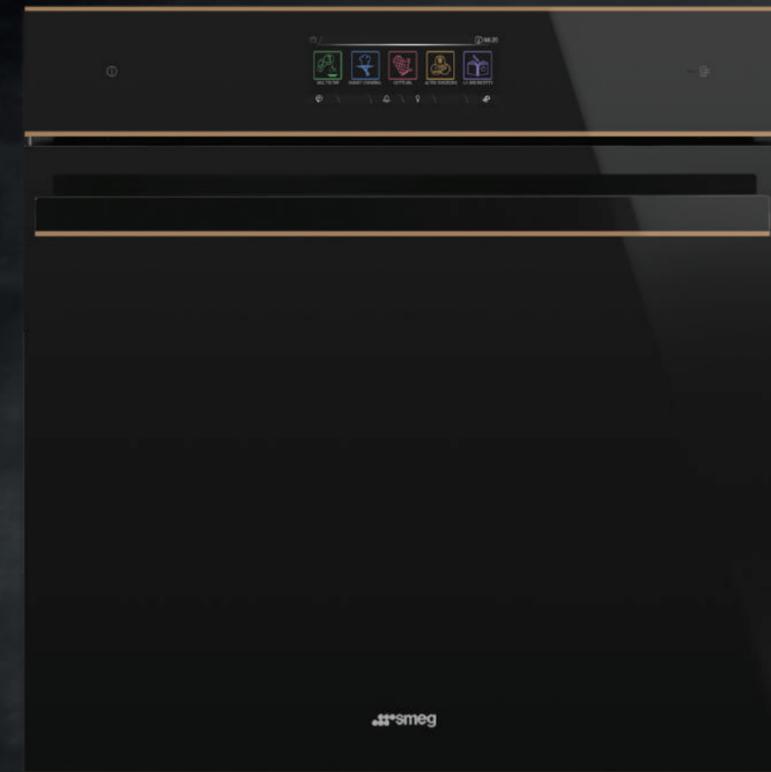

This commitment to the environment consists of a focus on the ecological aspects of designing and manufacturing domestic appliances. The objective is to ensure maximum performance and functionality whilst keeping energy consumption to a minimum.

The Smeg range of award-winning appliances offer a wealth of innovative environmentally friendly features designed to reduce the impact on the environment, and save money by significantly reducing the consumption of both power and water. In 2013, Smeg launched Australia's first 6 star (WELS) dishwasher; setting a new benchmark for water efficiency.

In 2021, Smeg's commitment to social and environment sustainability and green economy strategies have been rewarded in the ITQF (German Institute of Quality) survey, The Best 200 Green Stars of Italy sustainability ranking. Smeg achieved first position in the 'Durable Consumer Goods' category with a perfect score of 100.

DOLCE STIL NOVO BY SMEG

Precision meets passion in the modern kitchen with Smeg's architecturally designed Dolce Stil Novo collection. Delivering a best-in class cooking experience, the collection was created in collaboration with renowned Italian architect, Guido Canali with technological innovation and craftsmanship at its core. Effortlessly integrating Smeg's signature Italian flair with its renowned kitchen technology, achieving any culinary creation in style and with ease. A new expression of genius in both technology and design, Dolce Stil Novo delivers Smeg's most comprehensive range of appliances – each with design aesthetic in complete alignment with one another. The collection includes ovens; compacts including combi-steam, speed, blast chiller, wine cellar and coffee machine with complementary sommelier, vacuum, warming and storage drawers; and blade flame gas, induction and combi fuel cooktops.

MADE IN ITALY

smeg.com.au

Dolce Stil Novo is Smeg's most advanced technological range ever. With innovation and craftsmanship at its core, this striking collection unites elegant Italian design with world-first cooking technology.

LINEA BY SMEG

Smeg's Linea collection of architecturally designed appliances showcase beauty in simplicity. Inspired by the line, Linea heroes a modern aesthetic paired with artful craftsmanship, an aesthetic that is instantly recognisable and undeniably Smeg.

The collection features a diverse range of products including; ovens; compact ovens, coffee machines and wine cellars with complementary drawers; and gas, blade flame and induction cooktops. All fitted with a luxe mirror finish in two colourways – black and silver – the Linea collection pairs sleek design with Smeg's world-class technology.

MADE IN ITALY

smeg.com.au

DECEPTIVELY SIMPLE

Inspired by the first element of design – the line – the Linea built-in oven embodies genius in its simplicity, while retaining the expert cooking technology Smeg is famous for. In a sophisticated expression of black and silver, it's proof that beauty lies in simplicity.

PORTOFINO BY SMEG

Integrating the opulence of the Italian Riviera with the excellence of world-class kitchen technology, Smeg delivers the perfect cooking companion with its Portofino collection. Like its namesake, the collection is reminiscent of an Italian seaside town, exuding an effortless sense of sophistication and style. The refined yet robust design of Portofino will make a statement, while the Ligurian Harbour inspired palette will bring the Mediterranean into the heart of the home. More than just a visual statement, the Portofino prides itself on high performance that is undeniably Smeg.

MADE IN ITALY

smeg.com.au

BUILT EVEN BETTER THAN IT WAS BACK THEN

Inspired by the colours of the tiny Ligurian harbour, Smeg's Portofino appliances are light and vibrant, harmoniously combining the bright and distinctive Mediterranean hues with the raw strength of enamelled stainless steel.

VICTORIA BY SMEG

In a nod to both the past and present, Smeg has finessed the balance of 'Vintage Meets Hi-Tech' with its retro-inspired Victoria appliance collection. Appealing to fans of both contemporary design and vintage style the Victoria collection boasts a striking yet timeless aesthetic.

Offering the best of the old and the new, each Italian masterpiece houses the very latest in 21st century kitchen technology whilst also embodying the beautifully crafted vintage style. The Victoria collection showcases the best of modern-day technology while maintaining old-world charm, creating a range of appliances sought after for every kitchen.

CLASSIC BY SMEG

With an elusive and timeless 'Made in Italy' style, Smeg's Classic collection celebrates 35 years of collaboration and architectural design. As a champion of style and innovation, Smeg has stood the test of time with Classic and its genius, world-leading aesthetic.

With over 70 years' experience in engineering for the kitchen, the Classic offers a range of high-performance appliances including freestanding cookers, built-in ovens, compact ovens, coffee machines, cooktops, range hoods and fridges.

The Smeg Classic collection embraces the symbiotic relationship between old and new, with the ability to uplift the most traditional or contemporary kitchen. It's this ability to bridge the past and present that elevates the Classic, making it Smeg's most enduring collection to date.

MADE IN ITALY

smeg.com.au

WHEN DOES ORDINARY BECOME EXTRAORDINARY?

Smeg's Classic built-in oven was designed by world renowned architect Guido Canali over 35 years ago. And being both elegant and intuitive to use, we chose not to mess with it. The design has earned a place at the Museum of Modern Art in New York. So it's not just an oven – it's a design icon.

Warranty and Service

Every state has its own workshop, spare parts division, service division and warehouse operations. Smeg employs its own team of fully-trained technicians who are able to service products in all categories.

We also train our own apprentices to become fully-qualified technicians for the future.

A full manufacturer's warranty of two years commences from the date of first occupancy.

SMEG FOODSERVICE

Established in 1948 in Guastalla, northern Italy, Smeg has developed innovating world-first technologies for domestic appliances for over 70 years. By the early 1980s, Smeg's credentials for quality and innovation resulted in the launch of its Smeg Foodservice division - dedicated to developing robust commercial products for the professional catering sector.

In 2012, Smeg launched Foodservice into the Australian market building on over 30 years of manufacturing excellence in Europe. Designed and made in Italy, with market-leading features and innovative technology and backed by a best-in-class warranty, Smeg Foodservice appliances guarantee an ideal solution for perfect cooking and washing results, every time.

From the hospitality sector, to childcare centres, schools, aged care facilities and commercial offices, Smeg Foodservice can provide a solution tailored to your specific needs.

- Excellent baking uniformity across all trays due to dual fans with timed rotation reversal
- Humidification and grill function
- Electronic controls with 40 programs
- Up to 8.4kW (phase connection)
- 15A model available

HTY511DHAUS
Hood-Type Professional Dishwasher
With Shr - Steam Heat Recovery

- Self-exhausting passthrough - SEED certified with Smeg's innovative patented technology
- No steam emissions
- No need for extraction
- Drain pump and rinse pump
- Extended warranty 24 months parts and labour
- Dimensions 620mmW x 745mmD x 1530 - 2102mmH

UGA415M
Fully Insulated Underbench
Professional Glasswasher

- Shortest wash program 90 seconds
- Drain pump and rinse pump on board
- 15A plug
- Over 30% water exchange every cycle
- Extended 24 month parts and 12 month labour warranty
- Dimensions 400mmW x 400mmD x 855mmH (with legs)

UG405DMAUS
Underbench Professional
Glasswasher

- Shortest wash program 90 seconds
- Insulated double skin construction in AISI 304 stainless steel with counter-balanced door and spring-assisted hinges
- Drain pump and rinse pump
- 15A plug
- 24 month parts and labour warranty
- Dimensions 600mmW x 600mmD x 820mmH

SMALL DOMESTIC APPLIANCES

Smeg have added detail to its iconic styling and timeless design to create a stunning range of small domestic appliances, realised in collaboration with Italian architects Matteo Bazzicalupo and Raffaella Mangiarotti from Milan design studio deepdesign. The collection consists of toasters, kettles, stand mixers, blenders, juicers and coffee machines, all designed to optimise the cooking environment, adding an extra level to both the aesthetics and performance in the kitchen.

Incorporating the iconic shape of the 50's Retro Style large appliances, Smeg offers a collection of small appliances full of colour, curves and character. Each retro style appliance pays homage to the Golden Age of the fifties while showcasing Smeg's signature elegance and sophistication. These coveted appliances bring personality and vibrant colour to any space.

Style - always a standout feature of any Smeg appliance - goes hand in hand with a commitment to the latest technology and highest performance.
