Table 1: MS Risk Assessment of Supply Chains

Risk Identified	Colour	Score
Best Practice Performance - Supplier has really strong policies in place to avoid Modern Slavery and reports transparently on any non-compliance. Suppliers have demonstrated history of strong positive performance outcomes achieved. Improvement or a permanently non-compliant situation or the absence of negative impacts are not regarded as positive impacts.	+2	
Low Risk - Supplier has strong policies in place to avoid Modern Slavery and reports transparently on any non-compliance. Improvement or a permanently non-compliant situation or the absence of negative impacts are not regarded as positive impacts.	+1	
Medium Risk - Supplier has a satisfactory policy related to Modern Slavery. Suppliers are compliant to local laws and international ILO standards. Any identified Modern Slavery non-compliance has been identified and is being addressed and is considered to not change unless it does.	0	
High Risk - Supplier has committed to avoid Modern Slavery. The identified local law non-compliance has been addressed and is considered to not change unless it does. The policy is improving.	-1	
Undetermined Risk (Risk Indeterminable) - No or insufficient data to conclusively determine Modern Slavery.	-2

The **Global GreenTag MSD™ Modern Slavery Declaration** is the first Modern Slavery Declaration for products in the world; a supply-chain specific risk level based verification tool providing the world with:

- Risk Assessment outcomes that demonstrate the extent to which products are being manufactured ethically;
- Evidence and research showing that manufacturers and their suppliers have ensured to the best of their capability and with 100% transparency the health and wellbeing of workers and all people impacted in their supply chains;
- Assurance that a robust third party assessment has been undertaken and identifies Modern Slavery risks and how they are mitigated (or not).
- Plain language explanations of any recognised (or assumed) Modern Slavery in supply chains, which stakeholders can input into their own Modern Slavery Reporting Statements.
- Guidance for manufacturers on the levels of reliability attached to risk assessments undertaken e.g. based on onsite audits, remote audits or research based verification – so they can progressively work to improve areas of concern.
- An evaluation overview and reporting format that is easy to absorb and suitable for aggregating into company level reports for companies now obligated under Modern Slavery Legislation (such as UK, Australia and California - USA) to submit their own Modern Slavery Reporting Statements – especially companies with large procurement portfolios and mandatory legislative reporting requirements.
