HOW TO AVOID A KITCHEN RENOVATION NIGHTMARE:

Trap 1 Spending too much

Kitchen companies will pump up the price if they know you won't question it. Always ask for an itemized quote.

Trap 2 Spending too little

Unskilled, unlicensed, and uninsured contractors will under-cut other quotes to win the job. When the job goes bad, they suddenly disappear!

Trap 3 The surprise bills

The new kitchen comes in just under your budget! Perfect, right? No. Later they say "Oh, you need this too"... blowing way past your budget.

Trap 4 The hard seller

Using high-pressure tactics to manipulate you into making a decision on the spot. Ugh!

Trap 5 Doing it yourself

There's every chance something will go wrong, which could cost you even more money to fix.

AJB Kitchens did our new bathroom. They did a fabulous job. PK was so polite, knowledgeable, pleasant and easy to work with. The tradesmen who worked on the job all were uniformly prompt, reliable, friendly, highly skilled and responsive to queries and phone calls. They also cleaned up at the end of each day. There was one very, very tiny concern and it was dealt with promptly and completely rectified. I can highly recommend AJB kitchens. Looking forward to getting the kitchen done by this great company in the future!
