HOW IT WORKS...

Streamline your quote requests with Quicksew

1

Go to our website www.quicksew.com.au, select "Commercial" and browse our extensive range of products from the dropdown menu.

2

Make your selection, choose a quantity and select "Add to quote" You can then add other products to your quote as required.

3

Simply select the "View eQuotes" button at the top of the page, fill in your details along with any other relevant information and click "Send Your Request" It is that simple!

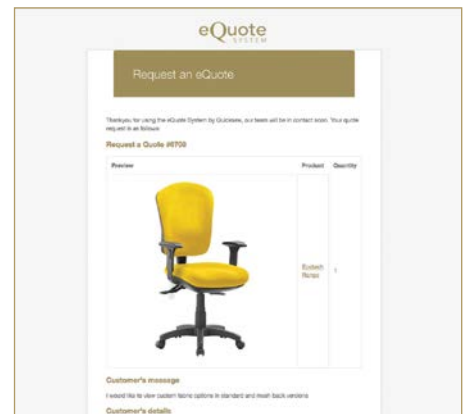

You will receive a confirmation email with the quote details and our team will be in touch to discuss options and pricing.

Company Profile

From concept, through to design and completion, Quicksew provides high quality, beautiful, functional furniture and soft furnishings for your project, on time and within budget.

About Quicksew

Quicksew was established in 1977 by the White family as a soft furnishings manufacturer and has since developed into a nationwide concept, design and installation specialist of furniture and soft furnishings for a range of industry sectors including:

- Health and Aged Care:
- Commercial and Building:
- Educational; and
- Hospitality sectors.

In the 40 years of trading, we have gained industry knowledge and experience that we share with key decision makers and industry stakeholders through personal consultations, trade shows and exhibitions.

Our dedicated Sales & Marketing Team and Operations Team offer professional and informative concepts, design solutions, manufacture, and delivery from single item products to complete design and fit-out of furniture, window treatments, fittings and soft furnishings for new builds, renovations and refurbishments. We work within the customer's time and budget constraints to deliver products and service of the highest quality and excellence.

Our focus on providing excellent service is driven by our commitment to working with new and existing customers to help them create beautiful and functional spaces to enhance the experience of the individuals who use them.

Location and Service Area.

With the Quicksew head office and factory located in Bathurst in the Central West of NSW, our service provision extends to Queensland, NSW, ACT, Victoria and beyond. Our Sales Team will travel anywhere in Australia to introduce our business and work with customers. We arrange personal visits to ensure that we gain the best possible background knowledge to create a design concept that is unique. We do not just supply, deliver and install products, we help our customers make appropriate and practical choices. Our service is customised to meet individual needs and requirements using the latest design trends, textiles and products to create beautiful functional environments that are safe, aesthetically pleasing and financially viable.

Mission Statement

"To maintain our position as a leading manufacturer of curtains, blinds and soft furnishings, concept creator and supplier by continually enhancing and updating our product range and level of service to provide customers with unique and functional spaces."

To help us achieve our mission statement, we aim to:

- Provide the latest product information and technology
- Create schemes that are aesthetically pleasing yet functional that work within the customer's budget
- Manufacture curtains, blinds and soft furnishings of exceptional quality and finish
- Support Australian made furniture manufacturers as a priority
- Source and supply only the finest quality furniture that is durable, stylish and comfortable using resilient fabrics of the latest design
- Work within an Integrated Management System framework as a commitment to the International Standards for Quality Management ISO 9001:2015; Environmental Management ISO 14001:2015; and AS/NZS 4801:2001 Australian/New Zealand Occupational Health & Safety.

Continual research to find new suppliers and the latest advancements in products ensures that Quicksew is a leading supplier of furniture and soft furnishings. Constant contact with suppliers keeps us up to date with any advancements in product technology, performance and manufacturing.

Consultation, Supply and Installation Process

Quicksew is committed to building great relationships and offering personal attention to new and existing customers. The following procedure outlines the Quicksew process from initial customer contact to delivery and installation of product.

Step 1. Initial contact

Customers can contact Quicksew in person by visiting our Head Office Showroom in Bathurst or by telephone, email or via our website - www.quicksew.com.au. Our sales and marketing team actively seek out new and existing customers through email, telephone and personal contact.

Step 2. Introduction to Quicksew services and site consultation

A Quicksew representative arranges an appointment to meet with the prospective client to introduce our products and services utilising our catalogue, product samples and website. They will engage in discussion about site specifications, budget and any initial customer design ideas. We listen to the customer's requirements and needs so that we may supply the best product options that are fit for purpose.

Step 3. Sharing of information - Site plans, schedules and timeframe

Information is shared in person, online, via telephone, video conferencing and through emails. The customer will be asked for all available information about the site including plans/drawings, schedules/design brief or specifications and the timeframe for works completion.

Step 4. Estimating & quoting - quantifying & preliminary pricing

Based on the design brief, our estimating staff quantify products and fabrics and work out a preliminary quote that best reflects the customer's needs within budget. This is taken back to the customer for discussion and approval.

Step 5. Design concept & colour boards

Our design team put together colour and design concepts that reflect the look & feel that the customer is trying to achieve. Fabrics and products are showcased on colour boards as a visual representation of the initial quote. During the presentation, we seek feedback from the customer and offer alternatives and solutions before a decision is made.

Step 6. Final quote & customer commitment – Letter of Intent/Purchase Order

Once the final colour, fabric and product selections have been made, the final quote is sent to the customer for approval and supply timeframes discussed again. The customer then accepts the quote and commits to the sale.

Step 7. Handover to production

Upon receipt of either a letter of intent or purchase order, the quote is handed over to the Operations Department where it is entered as a sale and a deposit invoice raised and sent to the customer. The Operations Manager will contact the customer to arrange a final check measure. The project timeframe, site access and currency of plans will be discussed with the customer at this point.

Step 8. Ordering & manufacturing

Once the deposit has been received, the quoted products are ordered and manufactured. The customer will be notified if there are any supply issues regarding fabrics or product and if necessary, an alternative product offered. During the manufacturing and receipt of goods, all products are inspected for quality assurance to make sure they meet specifications. Furniture is stored at Quicksew's freight facility until all items on the quote are complete and ready for delivery.

Step 9. Delivery & installation

The Operations Manager will contact the site to arrange a suitable and convenient time for installation of window treatments and the delivery of furniture. Please note that the extent of furniture placement is dependent upon the initial agreement during consultation and acceptance of the quote terms and conditions.

Core Competencies & Organisational Achievements

To ensure ongoing quality of service and products, Quicksew implements an Integrated Management System and has achieved Best Practice certification for compliance with the three major International Standards for quality, safety and the environment.

ISO 9001:2015 – Quality Management System

ISO 4801:2001 – OH&S Management System

ISO 14001:2015 – Environmental Management System

Statements of Certification for each Standard included herein.

ISO Standards

The International Organisation for Standardisation (ISO) is an international standard-setting body composed of representatives from various national standards organisation. ISO International Standards ensure that products and services are safe, reliable and of good quality. For business, they are strategic tools that reduce cost by minimising waste and errors and increasing productivity.

By doing this, we have made a commitment that our company adheres to the requirements of the standards and takes into account

- the Quality Assurance and Management of business operations;
- the Environmental Aspects of the business to ensure we minimise or eliminate potential environmental impacts whilst maximising improvement and efficiency in the workplace; and
- the WHS hazards of the business to ensure we minimise or eliminate potential workplace injury and illness whilst maximising improvement and efficiency in the workplace.

NSW Government Accredited Supplier

Quicksew is an approved supplier for NSW Government institutions and facilities through their NSWBuy Portal.

Personnel Profile

<p>Jonathan White Managing Director</p> <p>Margaret White Executive Secretary</p>	<p>Present owner and operator, Jonathan White has been Managing Director since 2000 when he bought the business from his brother. He and his wife Margaret, have built the business from a small manufacturer for the domestic and commercial market, to a leading manufacturer and supplier of curtains, blinds, furniture and accessories for hospitals, aged care facilities, schools, large scale commercial projects and hotel/motels.</p> <p>It is Jonathan's understanding of, and expertise in the industry that has driven the growth of the business.</p>

Organisation Chart

Products & Services

Quicksew has a proven reputation for the provision of versatile window furnishings, soft furnishings and furniture for hospitals, health and aged care facilities, commercial premises, educational facilities, hotel/motels, serviced apartments and resorts.

Quicksew Manufactured Products

Quicksew manufactures products of the highest quality using an extensive variety of innovative and stylish fabrics to suit any budget or application, and includes the following range of products:

Curtains – curtains, stage curtains, pelmets, swags and tails, bedscreens and shower curtains

Blinds – chain drive or motorised roller blinds, Roman blinds and hand drawn vertical blinds

Soft furnishings – bedthrows, bed runners, valances, indoor and outdoor cushions

Our great rapport with fabric manufacturers and suppliers ensures that we have access to the latest technological developments available, such as:

- acoustic management,
- thermal performance,
- infection control; and
- digital printing technology

Outsourced Products

We also offer an extensive range of window treatments and soft furnishings through sourcing and supplying products from other leading industry manufacturers and wholesale suppliers, which include

- Curtain tracks – including standard window track, S – Wave systems, stage tracks and motorised tracks
- Hospital tracks – including quick release and anti-ligature systems, IV tracks and shower tracks
- Venetian blinds – both timber and PVC
- Panel glides
- Shutters & awnings
- Bed Linen and manchester – including bedspreads either quilted or non-quilted, quilt inserts, sheets, pillows, pillowcases, blankets, mattress protectors and shower curtains
- Accessories such as lamps and lighting, mirrors, artworks and ornaments

Quicksew is a preferred supplier for the following manufacturers of window covering systems:

- Verosol – roller blinds, roman blinds, venetian blinds, and pleated blinds
- Vertilux – roller blinds
- Helioscreen – roller blinds and outdoor awnings

Furniture

We source exceptional quality indoor and outdoor furniture and work closely with Australian manufacturers to provide furniture that is fit-for-purpose, stylish and comfortable. We can adapt existing designs to meet special needs. Our range includes -

- Medical & bariatric products
- Bedroom sets including matching head & footrest, bedside tables, chest of drawers and mattresses
- Beds – standard or specialist beds and accessories
- Lounges, chairs, ottomans, dining settings, occasional tables and furniture
- Office furniture, task chairs & beam seating
- Outdoor chairs and tables

Services Offered

Our services include:

- Consultation with customers and industry stakeholders regarding the choice of colour palette and design concept presentation of design concepts to stakeholders and key personnel.
- Assistance with fabric and furniture selection that is fit for purpose, resilient, low maintenance, easy to clean, compliant with fire, health and safety regulations and environmentally conscious.
- Manufacturing of curtains, blinds and soft furnishings; purchasing of specialist indoor and outdoor furniture and products; and coordination of product delivery, project installation and fit-out.

HOSPITALS / HEALTH

Project: Royal North Shore Hospital
Client: Thiess

“

Quicksew secured the contract for the supply of all blinds, tracking and bedscreens for the project as a result of not only a competitive tender, but also a most thorough and professional attention to detail and presentation of their tender package.

..... Quicksew's advice and willingness to assist the Project Interior Designers regarding fabric selection and design of the bedscreens including development of numerous prototypes was invaluable.”

Carinne Watson
Health Facility Planner, THIESS PTY LTD

Quicksew has a proven reputation for the provision of soft furnishings and furniture for hospitals and health care facilities including complete fit outs and refurbishments, supplying resilient, low maintenance products that are fit for purpose, fully launderable, comply with fire regulations and create an attractive, tranquil and practical environment for staff and patient care.

Quicksew would like to be placed on your register for future projects or refurbishments. With our industry knowledge we would be most happy to price any requirements you have for your project.

Roller Blinds

With an extensive range of fabric and colour choices, roller blinds offer you a versatile solution for your window furnishing requirements. Available in blockout, light filtering, sunscreen or a combination of both – one for day, one for night. With chain drive, linked, twin, spring assist and motorisation, roller blinds offer an affordable, practical and versatile window covering solution.

Options:

Twin Systems

Chain Drive

Motorised

Remote control

Easy Link System

Automate Blind

Blackout System

Parts & Accessories

Vertical Blinds

With an affordable price tag, privacy and light are easily controlled. The slats stack neatly open allowing maximum viewing capacity. Vertical Blinds are available in a range of slat sizes and come with the option of centre open or side bunch.

Venetian Blinds

Venetian Blinds are available in cedar, basswood, timber look or aluminium with a range of slat sizes and colours. Offering practical light regulation and privacy control they can be fully raised or the blade angle adjusted to suit.

Panel Glides

Designed as a modern alternative to vertical blinds, panels move through multiple tracking channels with the use of a smooth operating wand that eliminates the need for chains and safety devices and enhances the sleek elegance of this simplistic blind. They can be opened to the left, right or centre making them the ideal covering for sliding doors and large windows. When open the panels stack neatly back behind each other. Fabric can be matched with roller or roman blinds to create a consistent decor throughout.

Roman Blinds

Roman Blinds combine the simplicity of blinds with the warmth of soft furnishing fabrics. A perfect stand alone blind, or together with curtains in the same or contrasting fabric. Roman Blinds have a classic and timeless look and are available in both blind fabrics and curtain fabrics.

Pleated Blinds

Pleated Blinds combine the soft appeal of a curtain with the versatility and simplicity of a blind. Pleated Blinds almost disappear when raised and minimal light gaps help to reduce glare. Available as a twin blind they are practical for day and night use. Select a sheer fabric to enjoy the view as well as a blockout fabric for privacy at night. Available in many colours, pleated blinds can become a striking feature lifting the mood and character of any room.

Pleated Blinds present the most versatile solution for unusual shaped windows from triangles to circles, skylights and conservatories no situation is too challenging.

TRACKING & BEDSCREENS

Tracking

Quicksew supply and install quality Tracking for commercial applications. Our range features options to suit for both style and practicality.

Quicksew Series 50

The track is slim and compact yet strong and reliable. Now with the Easy Clip brackets and covers.

Usage: Suitable for both S-Fold and conventional Hand Drawn light to medium weight curtains in both domestic and commercial applications.

Dimensions: 16mm x 15mm

Bending: Can be bent at 100mm radius or continuous curve

Control: Hand operation

Colour: available in White, Platinum and Black.

Quicksew Series 50 S-Wave

Usage: Commercial & Domestic Tracking – for S-Wave & conventional curtains

Dimensions: 16mm x 16mm

Bending: 150mm radius bends & continuous curves

Control: Hand operation only

Colour: White, Platinum or Black.

Construction: Extruded aluminium, powder coated & electrophoresis

Brackets: Easy-clip, Ceiling & Face fix for single & double

Quicksew Series 70 Recess Track - Standard or S-Wave

Recess Track is designed for top fixing directly into the Gyprock ceiling lining, with the edge of the Gyprock sitting on the flange of the track, so the curtain appears to fall directly out of the ceiling.

- Pre-drilled every 150mm for ease of fixing through the track.
- Small overall dimension so not visible within the room, but strong enough to handle medium to heavy curtains.
- Suitable for both conventional and S-Wave curtains.
- Bent to a tight radius of 150mm.
- Track length 6m can be butted together for longer installations.
- Suitable for Clear Wave Tape only.

Bending: Can be bent at 150mm radius

Quicksew Series 97 Fixed & Moving Rail Hospital Track

Series 97 hospital tracking is available as either a fixed or moveable rail system. Curtain loading cartridges and an intravenous drip carrier system makes the Series 97 hospital tracking system a very versatile system ideal for public and private hospitals, nursing homes, clinics, and doctors surgeries. Made from aluminium extrusion. Thick walled construction, complemented with solid bracketing and fixing attachments makes Series 97 hospital tracking a strong system which will give years of trouble free service.

Dimensions: 20 x 36mm

Colour: Available in clear anodized and white powdercoated finishes.

Quicksew Series 98 Mini Hospital Tracking

Dimensions: 20mm x 25mm

Colour: Available in clear anodized and white powdercoated finishes.

HOSPITAL TRACKING ACCESSORIES

Wattle Bed

The Wattle Bed is an optimal bed solution for nursing care environments. Designed around principles of comfort and safety, the bed has many additional features including the benefits of a high/low function that reduces the risk of falls and minimises the needs of restraints. The Wattle Bed is a stylish, practical and long-term solution which offers safety, stability and longevity for the client.

Features

- Electric high/low functions
- Electric backrest and kneebend
- Vertical lift action
- Central locking castors
- In built 200mm length extension
- Battery back up
- Removable head and foot boards
- 125mm braking castors
- Minimum height 310mm
- Maximum height 755mm
- Safe working load 180kg

EN9000 Endless Bed

The EN9000 series bed is the first ever universal bed that suits low care, high care and bariatric care. Plus, this innovative three-in-one bed has a low height of 100mm and no towers! From care of frail elderly or dementia patients, through to acute and bariatric settings, the patent pending Australian made EN9000 Endless Bed has you covered. One bed, endless possibilities!

Unique dual Safe Working Load of 200kg or 300kg

Universal solution for Low, High & Bariatric care

Low height of 100 and high height of 725mm

Chair position at the push of a button

Floor Beds

With a Super Low Height of 110mm & easy folding for transport - (Fits through narrow doorways) the Floor Bed provides great support and versatility.

- Auto-retractable Backrest for reduced pressure on Lumbar region.
- Electronic push button controls for ease of operation, includes Auto Contour.
- Trendelenburg & reverse Trendelenburg 16 degrees.
- Functions enable Recliner position for comfort.
- Back & Knee section actuators with Safety Spline.
- Stainless Steel & Nylon glide surfaces for smooth operation.
- Large 125mm castors for reduced rolling resistance.
- Quiet operation - No Chains.
- Addresses OH&S risks.
- Smooth Powder Coated surfaces for Infection Control & ease of cleaning.
- 200kg Safe Working Load.
- Optional SHP & I.V. Pole Sockets.
- Designed to AS/NZS 3200.2.38 1997
- Australian Made & Owned

Over Bed Tables

Lightweight mobile table with adjustable height
Suitable to use over the bed or chair. Ideal to use while eating and for other household activities.

- Spring loaded mechanism is quick and easy to operate, making it ideal for multiple clients, and multiple activity use
- Soft raised lip edge helps prevent items from slipping off table top
- Wide base for greater stability
- U shape base enables the table to be positioned closer to the chair and the user
- Fitted with four swivel castors, two of which are locking
- Disassembles for storage and transportation
- Powder coated steel frame

Mattresses

Features

- Size: 1960 x 880 x 150mm
- Adaptive cubic system that contours to the body shape
- Provides pressure reduction and patient comfort
- Side zone reinforcement
- Mattress does not require turning
- Ultrasonically welded seams
- 2 way stretch cover
- Waterproof cover
- Fire retardant cover
- Maximum user weight 170kg
- Custom sizes are available
- Medium Risk Pressure Care Rating

Microfibre Quilt

Microfibre fill quilt with 220 Thread Count Micro –Loft Cover. 350 gsm fill.

Sizes:

Single	140 x 210cm
King Single	160 x 210cm
Queen	210 x 210cm
King	240 x 210cm.

Quilted Mattress Protector with Corner Straps

100% Microfibre Fabric Cover. Minimal shrinkage involved which will keep your protector in shape on the Mattress.

Sizes:

Single	90 x 190cm
Double	137 x 190cm
Queen	152 x 203cm
King	182 x 203cm
King Single	104 x 203cm

Fitted Quilted Mattress Protector

100% Microfibre Fabric Cover. Minimal shrinkage involved which will keep your protector in shape on the Mattress.

Sizes:

Single	90 x 190cm
Double	137 x 190cm
Queen	152 x 203cm
King	182 x 203cm
King Single	104 x 203cm

Quilted Pillow Protectors

100 gsm , Microfibre Fabric Cover with Zip Closure

Sizes:

Standard	46 x 72cm
King Size	52 x 92cm

Non Woven Pillow Protectors

With Zip Closure - Pack of 2

Sizes:

Standard	46 x 72cm
King Size	52 x 92cm

Fire Retardant 100% Polyester Blanket - Single

Fire retardant tested to meet AS2755.1-1985
340gsm. Dries quicker than traditional Celloweave Blankets
Can be used as a Bed Covering / Counterpane or Blanket
Colour: Mushroom

Sizes:
180 x 230cm

Polar Fleece 100% Polyester Blankets

Our Polar Fleece Blankets are Pill Resistant, Quick Drying and are Hemmed on all four sides. They are available in Colours of Beige and Charcoal.

Sizes:
Single 190 x 250cm
Queen 245 x 250cm
King 275 x 250cm

Cello weave 100% White Cotton Hospital Blanket Single

100% Cotton Cello weave Blanket
Hemmed two sides and Selvedge two sides.

Sizes:
180 x 230cm

Waffle Weave 100% Cotton Blankets—Single

Ideal as a Bedcovering / Counterpane or Blanket.
Hemmed four sides
Available in White, Latte or Charcoal

Sizes:
Single / King Single 195 x 260cm

Microfibre Cover Box End Quilt

250gsm polyester fill, with a gorgeous microfiber fabric cover.
20x20cm cassette stitched, with a 35cm wall, and binding edge.
Available in White, Mushroom & Grey

Sizes:
Single 95 x 196 x 45cm
Queen 154 x 205 x 45cm
King 184 x 205 x 35cm

Fire Retardant Waterproof Polyurethane Pillow

Sick of the old style noisy vinyl waterproof pillow? Try our Waterproof Pillow. Covered with Polyurethane Fabric, it is less noisy and can aid in a much more comfortable sleep than the traditional vinyl / plastic waterproof pillow. Wipe down with mild detergent only. Pillow has stitched seams to help with breathability. The pillow meets the Flammability requirements of EN ISO 12952-1:2010

Waterproof MVP Pillow with Heat Sealed Seams

The Waterproof MVP Pillow is covered with quality Carflex Fabric, it is Moisture Vapour Permeable and 2 Way Stretch. Pillow has heat sealed seams and an Adjustable Sealed Valve. Wipe down with mild detergent only.

Sizes: 45 x 70cm

Micro-Loft Fill—Luxury Feel Pillows

Our Luxury Micro-Loft Pillows are made of 80% 0.9 denier & 20% 0.3 denier fill and has double piped edging on the cover.

Sizes:

Fill: 800gm 45 x 70cm
Fill: 1000gm 45 x 70cm
Fill: 1550gm 50 x 90cm

Elasticised Polyester Fill Pillow Range

Our polyester fill pillow range is made from a polyester siliconised hollow fibre fill and has piped edging around the cover.

Sizes:

Fill: 500gm 45 x 70cm
Fill: 600gm 45 x 70cm
Fill: 700gm 45 x 70cm
Fill: 850gm 65 x 65cm

Budget Pillow with Spun Bonded Cover

For the budget conscious we have a 500gsm polyester siliconised hollow fibre fill with a non-woven cover. Standard edge stitching.

Sizes:

Fill: 500gm 45 x 70cm

Pearl Carded Cotton

500gsm Bath Towel Collection - White

Face Washer	33 x 35cm	Weight: 56gms
Hand Towel	41 x 66cm	Weight: 130gms

ACOUSTIC

Natural light, oversized windows, high ceilings, glass boxes, open plan spaces are all aesthetically pleasing design choices loved by modern architects and interior designers. However, these beautiful spaces often present acoustic challenges, as noise reverberates, echoes and amplifies off these hard surfaces.

Noise can be unwanted sound and we are besieged with accidental and unpleasant sounds on a daily basis. Considering this, sound that is not managed, is interfering with complex task performance, speech intelligibility, behaviour, and is a potential stress inducer. This is therefore contradicting the experiences we want people to have, whether it be in the work place, relaxing in a hotel, recovering in hospital or enjoying your later years in an aged care facility.

With the aim to tackle the reflected sound within these commercial space, Quicksew offer a variety of solutions, for a harmonious balance of acoustics and aesthetics. Our Acoustic Art & Pin plus our transparent, opaque and light reduction draperies all have impressive NRC (noise reduction coefficient) ratings and are flame retardant to Australian/New Zealand standards. Our transparent range of Hush Acoustics Sheer Drapery are suitable for any space where the sound of the room, as well as lighting design are the focus.

Our Light Reduction / Opaque Acoustic Drapery Fabric is available as a plain option or printed with the iconic Quicksew print range on offer. The designs and colour choices are endless and would suit any interior space.

Quicksew Acoustic Art and Pin are additional innovative noise reduction systems that are complemented by the Quicksew print range, plus an extensive Image Library to choose from. Our Acoustic Art and Pin withstands the test of ISO/AS standards and the acoustic fill medium made from recycled PET plastic.

Light Reduction / Opaque Drapery Fabric

Our range of Light Reduction / Opaque Drapery Fabric offers an array of print designs and plain colour options to satisfy the most exacting demands in aesthetics and functionality.

These fabrics offer the look and feel of soft drape, whilst their technology offers functionality as both light reduction and acoustic control, delivering an outstanding Noise Reduction Coefficient between 0.58 and 0.71.

These fabrics are printable in any of our iconic print collections or can be used as stand alone additions, adding neutral, discreet undertones to your interior space.

Sheer Drapery Fabric

You'll hardly believe the difference a lightweight acoustic sheer will make to the reverberation and echo within office areas, conference rooms, restaurants, hotel lobbies and multi-functional halls.

Our Hush Sheer Drapery Fabric; Soundcheck, Wavelength and Frequency absorb sound and improve understandability. They are semi-transparent, flame retardant (Trevira CS), wide width, durable and have noise reduction coefficient results between 0.58 and 0.62 – a combination previously unavailable for modern architecture.

Soundcheck, Wavelength and Frequency are woven with a ribbon shaped Trevira CS yarn. This modified polyester yarn filament is the key to their sound absorption, managing the flow of sound waves passing through at a particular rate. As sound passes through the fabric repeatedly, it bounces off a reflective surface changing the tone, becoming muffled.

This results in the sound losing some of its energy and therefore reduces sound levels. Soundcheck comes in five colourways – White, Sand, Pumice, Stone and Charcoal.

Frequency and Wavelength come in two colourways each – White and Pumice.

Sheer Drapery Fabric in Frequency Pumice and White (top), Wavelength Pumice and Soundcheck Charcoal (bottom)

Name	Soundcheck	Frequency	Wavelength

Installation Instructions	For optimum acoustic benefit, we recommend the curtain track be positioned 15 to 20cm from the window or wall, with a minimum 2:1 fullness ratio using a S-Fold style of heading.		
Fabric Care	Mat 6. Warm Wash. DO NOT TUMBLE DRY. Drip dry in shade. Do not bleach. Cool iron. Dry clean  30. Possible shrinkage 3%. Important: Do not wash or dry with any other articles.		

Acoustic Results – Sound Absorption Rates

To quantify our fabrics as commercial acoustic solutions, each is tested and awarded an NRC (Noise Reduction Coefficient) rating. The NRC relates to the absorption effectiveness of the material, and is calculated by averaging how absorptive a material is at 4 different frequencies: 250hz, 500hz, 1000hz and 2000hz. Taking this average number, it is then applied to the NRC scale of 0 to 1. A perfectly sound absorptive material achieves a 1, whereas a 0 indicates no absorption.

With the fabric positioned approximately 15 to 20cm from the window or wall, researchers found that it could absorb up to five times as much sound as a typical lightweight fabric. At low frequencies, around 200hz, it absorbed no more than about a fifth of the incidental sound energy. However, at frequencies of about 500hz (human ears have a maximum sensitivity between about 3000-4000hz), the fabric absorbed about three quarters of the incidental sound energy.

Artworks

Quicksew Acoustic Art delivers an effective, affordable and adjustable acoustic solution – perfect for any area where noise negatively effects the soundscape - while adding a visual dimension to the space.

Acoustic Pin offers the same acoustic and aesthetic benefits as Acoustic Art, with the added benefit of a slimmer profile – perfect for work space pin boards.

Both Acoustic Art and Acoustic Pin are supplied, fully assembled and ready to hang – just like normal art/pin boards. We understand that every space is unique, therefore our custom design options allow for an almost unlimited choice of design and colour, or you may choose to use your own images.

What are the benefits of Acoustic Art and Pin?

All Acoustic Art and Acoustic Pin systems are designed to securely hold fabric without the use of adhesives, nails, tacks or tape. This allows you to recycle the framework while changing the fabric 'skin' if it is damaged or a change of decoration is required. The system allows for the precise matching of both patterns and repeat at all seam locations if using multiple panels.

How does it work?

Each panel is constructed with a robust PVC tracking system that contains an acoustic polyester infill, which is the sound absorber. The sound waves pass through the outer skin of fabric, through to the infill where the sound energy is absorbed. Each of our panels are faced with Corfu, a flame retardant fabric that has a modified weave, allowing air to freely pass through it. This fabric passes the acoustic 'blow test' successfully whilst maintaining printed colour beautifully.

Sizes Available	Available in a range of standard sizes or can be customised. All Acoustic Art is made to order.	Available in a range of standard sizes or can be customised. All Acoustic Pin is made to order.
Care Instructions	Gently vacuum regularly with appropriate attachment. If the Art/Pin is subject to spillage, it should be blotted up immediately. Keep blotting until spillage is removed. Warm soapy water or upholstery shampoo can be used for any marks or stains. Pre-test all solutions of a hidden area. Always rinse with clean water and blot dry to finish. If in any doubt, contact a cleaning specialist.	

Special note regarding Polyester Acoustic Infill

- Non toxic, non allergenic and non irritant.
- No chemicals or resin binders are used in manufacture.
- It's odourless and contains no harmful volatile organic compounds (VOC).
- No waste is generated in manufacture.
- No water or ozone-depleting gases are used in manufacture.
- No chlorides are present in the product.
- Suitable for use in Green Star™ projects.

Fire Testing

- NCC Specification C1 .10-4 Fire Hazard Properties.
- ISO 9705 Fire Test - Full scale room test for surface products.
- Group Number: Group 1
- Smoke Growth rate: Less than 100
- NCC Classification: Group 1

Acoustic Results – Sound Absorption Rates

Similar to our Hush Acoustics range, the acoustic fabric and acoustic infill are awarded an NRC (Noise Reduction Coefficient) rating. The NRC relates to the absorption effectiveness of the material, and is calculated by averaging how absorptive a material is at different frequencies. The average is applied to the NRC scale of 0 to 1. A number 1 result is perfectly absorptive material, whereas a 0 indicates no absorption.

SM France Table Tops

SM France's "lamine-molded" table tops for the hospitality and catering industry, are made of wood, glues and papers. The technique of molding and lamination by hot pressing gives the product qualities unmatched to date, especially in terms of weather resistance.

Recognised for its design and creation, SM France is considered the "leader of the table top". You will find SM France products in a large number of restaurant and café terraces around the world.

Available in a select range of sizes and finishes, these tops are durable, weatherproof, inexpensive and attractive.

FEATURES

- Brand: SM France
- 5 year structural warranty
- Stocked in 8 finishes (as shown): Black, White, Arizona, Boston, Marble, Rustic Kansas, Stratos & Wenge
- Available Sizes (mm): 600R, 700R, 800R, 600x600SQ, 700x700SQ, 800x800SQ, 1200x800RCT
- Edge Profile and Thickness: 25mm
- Made in France
- Moulded table top with a jointless, high impact and wear resistant surface also resistant to heat & burns from cigarettes. Hygienic & easy to clean
- Suitable for indoor & outdoor commercial use

Sizes and Shapes available

Top Size mm	 600 Dia	 700 Dia	 800 Dia
Weight (Kg)	4.3	5.7	6.9
Edge Profile (mm)	25	25	25
Core (mm)	17	17	16

Top Size (mm)	 600x600	 700x700	 800x800	 1200x800
Weight (Kg)	5.7	8.4	11	15.5
Edge Profile (mm)	35	35	35	35
Core (mm)	17	19	19	19

Note: It is advisable to select light finishes for use in direct sunlight conditions. Dark colours used in direct sunlight can heat up, become hot and fade over time. The core material can expand and result in warping at the edges. The manufacturer does not accept this as a warranty claim.

Bistro Table Tops

- 5 year structural warranty
- Stocked in Marble & Sienna with Brass Edge
- Available Sizes (mm): 600R & 700R
- Edge Profile and Thickness: 25mm
- Made in France
- Moulded table top with a jointless, high impact and wear resistant surface also resistant to heat & burns from cigarettes. Hygienic & easy to clean
- Suitable for indoor & outdoor commercial use

Gentas Table Tops **GENTAŞ**

These table tops are manufactured in Turkey by Gentas, using the renowned resin moulding process. Available in a select range of sizes and finishes, these tops are durable, weatherproof, inexpensive and attractive.

The foundation of each Gentas table top is a mix of quality hardwoods and softwoods, kiln-dried and blended with synthetic resins as well as anti-rot and anti-moisture agents. This mixture is compressed at 140°C under high pressure before the hardwearing and decorative layers are applied and inseparably moulded together.

This method produces high quality table tops which are seamless, hygienic, functional and suitable for indoor or outdoor use.

FEATURES

- Suitable for indoor and outdoor commercial use
- 2 year indoor structural warranty
- 1 year outdoor structural warranty
- Surface: High impact joint less laminate surface resistant to wear, heat & burns from cigarettes. Hygienic & easy to clean
- Foundation: Mix of quality hardwoods and softwoods, kiln-dried and blended with synthetic resins as well as anti-rot and anti-moisture agents
- Available Sizes: 340R, 600R, 700R, 800R, 600x600SQ, 700x700SQ, 800x800SQ, 1400x800RCT
- Indent size: 1200x800RCT

Core (mm)	20.5	20.5	20.5	21

Note: It is advisable to select light finishes for use in direct sunlight conditions. Dark colours used in direct sunlight can heat up, become hot and fade over time. The core material can expand and result in warping at the edges. The manufacturer does not accept this as a warranty claim.

Compact Laminate Duratop 2 YEAR WARRANTY

Born out of innovation, excellent materials and cutting-edge technology, the Compact Laminate Duratop offers great value for commercial venues. Its durable construction and sleek 12mm profile makes it a perfect table top for both indoor and outdoor applications.

Offered in Black, Rustic Block Wood, Shesman, Wenge and White, the Compact Laminate Duratop is constructed with layers of Kraft paper, dipped in resin and dried. These layers are then sandwiched between laminated top and bottom sheets, compressed and baked. A process called polymerisation melds them all together creating a solid-core panel that is an extra tough durable laminate.

Each colour is available in a range of different sizes in square, rectangle and round. The underside of each top has grooves that have been routed to be used as predrilling holes. This makes installation of Compact Laminate Duratops with most table bases simple and easy.

Stocked in:

- Black
- Rustic Block Wood
- Shesman
- Wenge
- White
- Afyon Marble
- Copperfield

Available Sizes: 600R, 690R, 800R, 600SQ, 690SQ, 800SQ, 600x800RCT & 1390x800RCT

Sizes and Shapes available

			
Top Size mm	600 Dia	690 Dia	800 Dia
Weight (Kg)	4.7	6.5	9
Edge Profile / Core (mm)	12	12	12

			
Top Size (mm)	600x600	690x690	800x800
Weight (Kg)	6.5	8.5	11

Warranty period for chairs, lounges and tables

Weight rating for individual chairs, lounges and tables*

Fully imported Chairs, lounges, tables, parts and components.

The Performance criteria adopted for certification by Furntech is based on Australian standards, e.g. Level 6 - Severe commercial and heavy industrial.*

**Weight limits are self-rated by Style Ergonomic Australia. AFRDI approved chairs are normally rated to 110kg.*

Furntech is an independent not-for-profit technical organisation providing standards, testing product certification and research for buyers and sellers of furniture.

AFRDI 142
Certification

AFRDI rating for multi shift use and 160kg weight limit.

BIFMA is a third-party certification program that provides manufacturers with valuable feedback for evaluating the environmental, human, and social impacts of their furniture products for manufacturing, facility, and organisation.
