ROBERTSON BATHWARE

BORN FROM A MIX OF GLOBAL EXPERIENCE AND LOCAL KNOWLEDGE

Two generations have grown the Robertson brand over its 35-year history. It is still proudly New Zealand and family owned by Max and Debbie Robertson, who founded Robertson Bathware in 1987. They've been joined over the years by son James, Sales Manager and daughter Kirsten, who has an eye for product design.

Since its earliest years, the company has followed a set of rigorous guidelines: always make the most of our team, both internationally and here in New Zealand; be innovative; create and supply products that are beautiful to look at, and simple and effective to operate; and constantly develop technology and sustainable solutions to guarantee the quality of the products, services and consulting we provide.

We develop our products for the New Zealand market, but we search every corner of the world for inspiration and ways to improve and build on the product line. It might be the latest design trends from the Cersaie trade show in Bologna, Italy; the technical innovations found at ISH Germany; or the Kiwi ingenuity and superior craftsmanship we employ here on our own doorstep. It's all brought to the table to deliver a promise of breath taking design and guaranteed quality, backed by industry-leading service and support to help realise the perfect design.

American Standard

Every day American Standard's goal is to find more ways to improve life in and around the bathroom and kitchen, sometimes in obvious ways, other times in more subtle ways. They examine everything and are willing to challenge everything. No matter how good their products are today, they know they can always be better tomorrow.

Not just "their standard," but "the standard" for living healthily, responsibly and beautifully everywhere. It's "the standard" they have set and reset since 1875. It is "the standard" that is reflected in every product they make and represented in their highest ambition and deepest commitment to their employees, partners, trade professionals and customers worldwide.

American Standard raise the standard by making technologies and designs accessible.

ELEMENTI®

Bathroom elements of both innovative and visual beauty.

Anyone who loves beautiful design and recognises the importance of quality will fall in love with Elementi.

Born from decades of experience and shaped by the latest international design trends, the Elementi brand creates bathroom elements with both innovative functionality and visual beauty.

Harmony is at the heart of any successful design, a delicate balance where every element works towards a seamless whole. The same balance led us to Elementi. The range of bathroom solutions our dedicated design team develop are all designed to complement each other and create a satisfying aesthetic balance and harmonious bathing experience.

Whatever your lifestyle, whatever your taste, you'll find the perfect collection for your bathroom within the Elementi range.

victoria ⊕ albert®

The ultimate statement in quality and style and a global brand with a worldwide reputation for creating beautiful, inspirational baths made from Quarrycast®, a volcanic limestone material that is the naturally desirable stone-rich alternative to both cast iron and acrylic. Formed in 1996 with a passion for luxury bathing, Victoria + Albert Baths have been creating iconic pieces for over 20 years.

the.artceram

ArtCeram has achieved both Italian and worldwide success as an iconic company that produces fresh, ambitious and original products developed by celebrated Italian designers.

HIDRA CERAMICA

A leading producer of Italian sanitaryware Hidra Ceramica is yet another example of why the Italians are recognized as being worldwide trendsetters and leaders in imaginative and iconic design.

PARISI

Parisi's vision has always been to create and curate a harmonious blend of design and quality, as well as a positive contribution to living well. Parisi's Italian supplier partners are world leaders in design, innovation and manufacturing.

NOBILIS

Technology and quality, the strengths behind the Nobili brand from the 1950s to the present day. They are the foundations through which they strive to produce landmark products dedicated to the bathroom and kitchen, combining environmentally-friendly, cutting-edge technology with Italian style.

BAGNODESIGN LONDON

BagnoDesign, the London-based home of unique bathroom solutions, manufactures affordable yet luxurious product ranges that are the perfect accompaniment to any bathroom space from contemporary to traditional and everything in between.

ZUCCHETTI. KOS

Italian brand Zucchetti is often referred to as the Lamborghini of bathroom fixtures. Over eighty years of experience and a commitment to constant innovation enables Zucchetti to continue to create iconic contemporary brassware collections, collaborating with industry notable designers such as Matteo Thun, Antonio Rodriguez, and Ludovica+Roberto Palomba resulting in many award winning design concepts.

SAMUEL HEATH

Established in 1820, British manufacturer Samuel Heath combines exquisite materials with traditional crafting techniques to create understated style and refinement synonymous with contemporary British design.

FRESH, AMBITIOUS AND BEAUTIFUL

Characterized by solid and minimalist lines, Kiub reflects the fresh, ambitious and beautiful Italian design and craftsmanship now synonymous with the Hidra Ceramica brand.

BARE™

COLOURED CONCRETE FOR EVERY BATHROOM STYLE

Elementi BARE concrete basins combine warm pastel colours with the natural harsh elements of concrete to create a focal point in any bathroom. Each piece is handcrafted and distinctively designed to embrace the natural properties of concrete. Custom colours are available upon request with a four week manufacturing time.

ONE OF A KIND

Subtle variations in colour, shade and texture are to be expected. These should be viewed as unique characteristics that add a natural touch to your concrete product. Discolouration and natural pitting can occur over time.

CONCRETE FEATURES

MANUFACTURED IN NEW ZEALAND

Elementi concrete basins and furniture are manufactured in New Zealand, using high quality materials combined with superior craftsmanship to produce innovative and beautiful bathroom furniture of the highest standard that will last for years to come.

HAND CRAFTED

Each concrete piece is hand crafted locally with a mixture of many different raw ingredients. Subtle variations in colour, shade and texture are to be expected. These should be viewed as unique characteristics that add a natural touch to your concrete product. Discolouration and natural pitting can occur over time.

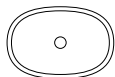

UNIQUE CONCRETE

Engineered Cementitious Composites (ECC) is a unique type of concrete which is known for its tensile strain-hardening behaviour and tensile ductility contrasting making it a significant improvement from ordinary concrete and glass fibre reinforced concrete (GFRG).

**FEATURES****A QUALITY FINISH INSIDE AND OUT**

This stylish bathroom vanity comes with an elegant tongue and groove textured cabinet in both matt white and matt black with an internal natural veneer finish. An undercounter ceramic basin is enveloped by a natural marble bench top.

ONE OF A KIND NATURAL STONE

Marble is a natural material, so each vanity basin is one of a kind. Being a product of nature, Marble is prone to variations in colour, shade, texture, density, scratches and chips. It is these characteristics that actually add to the beauty and charm of the material.

SUPERIOR CRAFTSMANSHIP

High quality materials combined with fine New Zealand craftsmanship, crisp, cutting-edge design and a practical functionality to produce furniture that is not only beautiful but built to last.

FEATURES

MANUFACTURED IN NZ

Elementi furniture is manufactured in New Zealand, using high quality materials combined with superior craftsmanship to produce innovative and beautiful bathroom furniture of the highest standard that will last for years to come.

MANUFACTURED
IN NEW ZEALAND

A SIZE TO SUIT EVERY SPACE

As well as various styles and finishes, Elementi has a wide range of sizes in wall or floor configurations to suit your large or small space. More compact cabinets perfect for the guest bathroom through to his and hers double bowl cabinets, we have the solution to fit.

MULTIPLE
SIZES AVAILABLE

QUALITY DRAWER/DOOR SYSTEMS

Elementi vanities incorporate quality drawer and door systems from renown brands including Hettich, Hafele and Titus, that are also backed by Lifetime Warranties for your peace of mind.*

Extra deep 176mm drawers complete with full-extension drawer sliders (not applicable for Verona), mean you can easily access all contents, even right at the back of the drawer.

MOISTURE RESISTANT CABINETS

Elementi vanities are made from a fine moisture resistant board designed to last and withstand the moisture and humidity within the bathroom environment. A ventilation gap is also incorporated to reduce the risk of moisture build-up, as well as an extra thick 16mm cabinet back for extra strength (not applicable for Verona or Novara). Finally a protective edge tape is also applied for improved cabinet edge durability.

MOISTURE
RESISTANT
BOARD

CABINET FINISHES

BESTWOOD

Incorporating the latest trends with a sophisticated range of colours and wood grains, Bestwood delivers a tough, scratch-resistant surface for a modern look that won't streak or craze.

METELCA

Creating the look and feel of natural wood, Seasoned Oak features a strong textured finish.

VANITY PACKERS

A 16mm vanity packer is available in all our ELEMENTI finishes as an additional extra designed to fit the gap beside the vanity and the wall when installed against a corner.

CODE: 84899 + FINISH

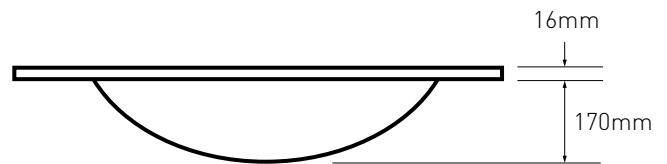

VANITY TOP OPTIONS

CURVED VITREOUS CHINA

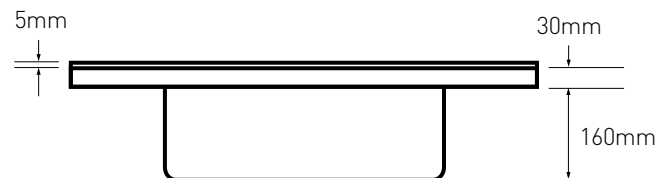

A distinctive curved bowl profile results in a deep and generous basin. Vitreous china is a natural product, produced and hand finished from a fine clay that is then kiln fired and treated with a durable porcelain glaze.

SQUARE POLYMARBLE

Being mechanically engineered from a mix of resin and marble powder, man-made Polymarble has a more precise, perfectly flat finish which makes it preferred for situations where tiles are placed up to the edge of the vanity top.

POLYMARBLE RAISED REAR PROFILE

A raised rear profile has been designed for additional waterproofing, as well as providing an ideal flat top surface for tiling up to.

VANITY TOP OPTIONS

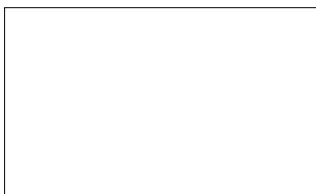

EVOSTONE FLAT TOP

Putting a vessel basin on the innovative EvoStone 20mm solid acrylic flat top adds a real focal point to your bathroom. The non-porous and hygienic properties of EvoStone make it easy to maintain and extremely durable.

FEATURES

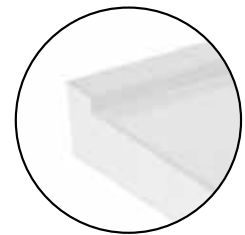

PERFECT FOR SMALLER SPACES

Today, living space is the ultimate luxury. And it's often in the bathroom that space becomes a real issue. In a small bathroom, the Slim II vanity proves a real space saver. The shorter projection (370MM) of the vanity leaves a larger area in the middle of the room to turn around and use all the facilities with ease.

RAISED REAR PROFILE

The Polymer marble basin features a raised rear profile designed for additional waterproofing, as well as providing an ideal flat top surface for tiling up to.

HANDLES:

An Urban handle in Brushed Nickel finish will be provided as default with alternative finishes available on request.

FEATURE

CURVED VITREOUS CHINA

A distinctive curved bowl profile results in a deep and generous basin. Vitreous china is a natural product, produced and hand finished from a fine clay that is then kiln fired and treated with a durable porcelain glaze.

HANDLE: Verona furniture is available with standard supplied handle option only.

FINISHES: Select finish code below (e.g. 750 Verona Wall Vanity with Curved Vitreous China - Black Timberland: 86801.82).

A SPA-STYLED CENTREPIECE

The opulent Taizu circular bath by Victoria + Albert has been inspired by the fine porcelain designs of the Song Dynasty.

BATHS

VOLCANIC LIMESTONE. A SUPERIOR LONG-LASTING ALTERNATIVE TO CAST IRON AND ACRYLIC

A naturally superior bath: It may sound obvious, but not all baths are created equal. British brand Victoria + Albert are passionate about their unique Quarrycast® material, made from a finely ground volcanic limestone and resin mix.

Volcanic Limestone™ is Victoria + Albert's name for the very special white rock that is perfect for making baths and basins.

This is formed when the elemental forces associated with liquid magma act upon surrounding soft, chalky limestone. The immense heat and pressure from the magma transforms the neighbouring rock into a new material made up of incredibly hard strands.

Victoria + Albert blends milled Volcanic Limestone™ with high quality resins to bind these strands into a complex 3D matrix. The finished result is Quarrycast® - a world-class composite with an exceptional strength-to-weight ratio.

victoria ⊕ albert®

ADDING A SOFT TOUCH WITH NEW MATT WHITE FINISH

Victoria + Albert has recently revealed a softer side to selected baths and basins in their Quarrycast® collection with the inclusion of a Matt White finish. The new sophisticated finish is luxuriously soft to touch, easy to clean and less prone to smudges and marks from fingerprints.

Matt White Quarrycast has been initially released in the Vetralla II and Barcelona 1700mm bath and Barcelona 550mm basin.

BARCELONA 550 BASIN

BARCELONA BATH

VETRALLA II BATH

FEATURE

TAIZU
COMING
FULL CIRCLE

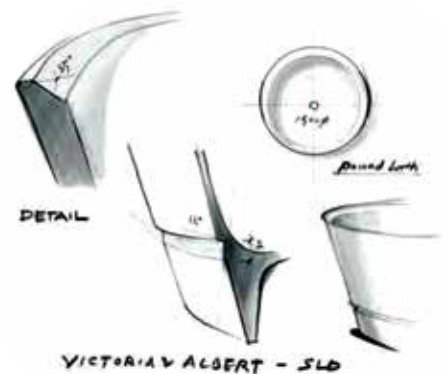

BATHING IS A RELAXING EXPERIENCE, REINVIGORATING THE BODY AND MIND. DAILY LIFE IS INCREASINGLY INTENSE; THIS MOMENT OF TRANQUILLITY IS A PRECIOUS INDULGENCE. I WANTED TO CREATE AN ICONIC BATH THAT DRAWS A CONNECTION BETWEEN EAST AND WEST, REFERENCING THE PAST WITH A VIEW TO THE FUTURE.”

STEVE LEUNG

Taizu is Victoria + Alberts first collaboration with renowned Hong Kong based designer Steve Leung, who is known for using Asian influences in his designs.

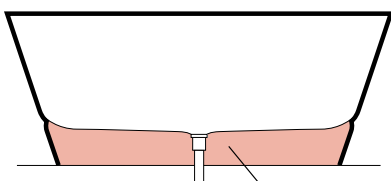

The opulent circular bath has been inspired by the fine porcelain designs of the Song Dynasty. The gently sloping sides are softened by a chamfered edge and sculpted detail at the base. With a diameter of 1500mm and cast in Victoria + Alberts signature Quarrycast™ material, Taizu is a spa-style centrepiece that is at home in the most luxurious bathrooms.

TAIZU BATH

WARNDON

With its classically ribbed rim, the Warndon bath's form adopts the detailing originally found in classic stonework and embodies a rich history suitable for a range of interiors. Following the traditional design rules of strict symmetry, this double-ended freestanding bath makes a perfect visual centrepiece for balance in the bathroom. The design falls gracefully to the floor allowing all waste pipe work to be hidden, maintaining a sleek bathroom finish.

FEATURES

A DESIGN ICON REIMAGINED

The Barcelona's new patented intelligently chamfered rim provides improved neck and arm comfort.

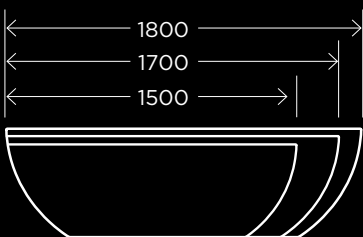

The Victoria + Albert design lab has refined the ergonomics and improved aesthetics by developing a varying radius on the rim of the bath to better support the lower back and neck without compromising the organic shape.

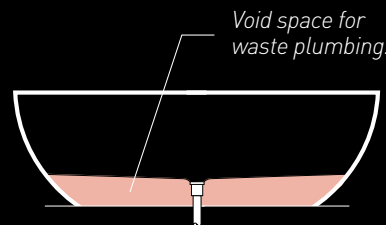

AN INTELLIGENTLY CHAMFERED RIM PROVIDES IMPROVED NECK AND ARM COMFORT + AESTHETICS ”

A SIZE TO SUIT EVERY SPACE

AVAILABLE IN 3 SIZES

VOID SPACE

A new feature of the Barcelona is a void space underneath the bath for waste plumbing and P-Trap installation (depending on trap height). A reduced internal depth also allows for easier transfer in and out of the bath, makes bathing children effortless, and requires less water to fill.

SOFT TOUCH

The Barcelona 1700 bath is available in a Matt White finish. The new sophisticated finish is luxuriously soft to touch, easy to clean and less prone to smudges and marks from fingerprints.

VETRALLA

A modern bath for a modern bathroom. Vetralla is deep and double-ended with generous volume.

FEATURE

MODERN
YET TIMELESS

Modern yet timeless, the cylindrical forms of the Uno collection unite to create a modern range of minimalist tapware, available in five popular finishes.

The addition of the Uno Etch handle offers an industrial aesthetic, with the cross cut texture providing additional grip for easier operation.

FEATURES

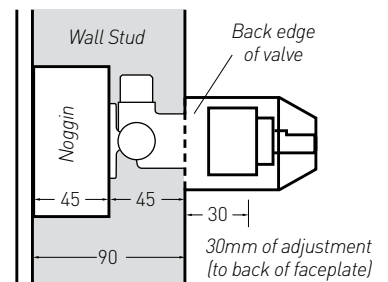

MULTI-PRESSURE SHOWER VALVE

The Uno, Ion, Neo, Orza and Verona shower mixers also feature a multi-pressure valve that has been designed for New Zealand water pressures. It can easily be adjusted to balance your hot or cold flow rates, making the most of all your water flow to improve your showering experience.

30MM ADJUSTMENT RANGE

The Mains Pressure shower mixer features a 30mm adjustment range allowing for different installation requirements and thickness of wall/cladding materials.

OPTIONAL 13MM EXTENSION KIT

43mm of adjustment (to the back of faceplate) can be achieved using the 13mm extension kit. Code: 43472.00

FEATURES

PULL OUT SPRAY

A pull-out spray increases operating radius of the mixer and offers different sprays. Uno kitchen mixers feature 2 spray options: Standard and Vege.

FORWARD ROTATING LEVER

Clever handle temperature control rotates from upright to forward where the mixer is placed against a wall with limited space, ensuring the handle does not hit splash back.

FEATURED PRODUCT:
UNO KITCHEN MIXER BRUSHED BRASS

FEATURES

USER FRIENDLY 

The Uno Square kitchen mixer is designed for efficiency in the kitchen environment with an ergonomic spout height of 237mm and 15 degree operating angle allowing ease of use for tasks like filling or washing large pans.

FORWARD ROTATING LEVER 

Clever handle temperature control rotates from upright to forward where the mixer is placed against a wall with limited space, ensuring the handle does not hit the splash back.

FORM AND FUNCTION

The American Standard Signature toilet suite embodies the essence of functionality and simplicity of form.

TOILETS

FEATURE

NO DIRT.
NO STAINS.
NO BACTERIA.
NO WORRIES.

American Standard HygieneClean System is the new standard of safety in the bathroom - delivered by powerful flushing technology plus cutting-edge innovations of Aqua Ceramic and ComfortClean.

American Standard provides you with not just beautiful and purposeful bathroom solutions, but also safe, clean and hygienic.

American Standard

HygieneClean
SYSTEM

DOUBLE VORTEX

Unlike other toilets, the Double Vortex system flushes 100% of the water at once through two water openings positioned at the top of the bowl, creating two powerful whirlpools that flush waste away while cleaning the entire surface of the ceramic bowl leaving nothing behind. The improved flush also uses less water with 4.5 litres for full flush and only 3 litres for half flush.

AQUA CERAMIC*

Aqua Ceramic material is a milestone in the history of ceramics. Stubborn soil washes away with a simple flush. The smooth, stainrepellant surface prevents unsightly hard water build-up and spots, so the bowl stays fresh and gleams like new after cleaning. Aqua Ceramic technology allows water to adhere to the ceramic surface so that during a flush, water is able to penetrate beneath any waste that is attached to the ceramic. Waste will then be easily lifted and carried away by the water.

PROGUARD*

Proguard, which is applied to the ceramic, prevents silica in the water from adhering to the surface, inhibiting the build-up of water stains.

TRADITIONAL TOILET

Stains adhering to bowl surface

PROGUARD TOILET

Ceramic free from water stains.

*All guarantees are subject to terms and conditions and available on request or can be viewed at: www.robertson.co.nz/warranties

COMFORTCLEAN

ComfortClean provides long-lasting protection against bacteria and germs. A revolutionary ceramic glaze with zinc oxide that effectively eliminates E. coli and inhibits the growth of odor-causing bacteria, mould and mildew.

ComfortClean Antibacterial glaze is fired into the ceramic at more than 1000°C, ensuring long lasting effectiveness.

HYGIENE RIM

There are no hard-to-reach areas with the new rimless design allowing easy cleaning with a single wipe.

NORMAL RIM

Rim traps germs and bacteria.

HYGIENE RIM

No hard to reach surfaces.

ANTIBACTERIAL PROTECTION

An anti-bacterial resin covers all the essential touch points including push button, seat and cover to provide the ultimate hygienic environment.

HygieneClean SYSTEM

The American Standard HygieneClean System is the new standard of safety in the bathroom - delivered by powerful flushing technology plus cutting-edge innovations of Aqua Ceramic and ComfortClean.

FEATURED PRODUCT:
CYGNET NEU BTW CC TOILET SUITE

FEATURES

CLEAN AND SIMPLE WITH A CONCEALED CISTERN

The back to wall toilet pan has an in wall cistern and a fully concealed waste which hides exposed pipes. The back-to-wall pan runs all the way to the wall and is easy to clean with smooth, seamless lines.

The wall hung toilet is mounted to a bracket in the wall. It takes up less space than a traditional unit and with an in-wall cistern, provides a clean, uncluttered appearance.

Both options can be paired with either a back to wall or wall hung bidet.

RIMLESS PAN

Get better performance and more efficient cleaning thanks to the rimless pan feature on File pans.

FEATURED PRODUCT:
FILE WALL HUNG PAN AND BIDET

FILE

Inspired by the Italian Studio Meneghello Paoletti, File toilet pans and bidets continue Artceram's tradition of contemporary iconic bathware.

FEATURE

A SEAT ABOVE THE REST

Discover refreshing comfort and a feeling of clean like never before. Unlike other e-bidets in the market, Spalet features two separate nozzles that provide independent front and rear cleansing with five adjustable positions. These nozzles clean themselves before and after every use, and are protected by a cover that prevents waste from contaminating them for a reassuring feeling of clean.

You will also appreciate the antibacterial protection that is applied on the seat, cover, nozzles and control panel for a truly relaxing feeling of clean.

MASSAGE

The spray alternates between strong and mild sprays, creating a massaging effect that indulges the user.

QUICK-DETACH SEAT COVER

The design of the seat cover allows it to be easily detached for convenient cleaning of hard-to-reach areas.

DUAL NOZZLES

Equipped with dedicated front and rear cleansing nozzles. Nozzles are also self cleaning with rinsing action.

DRYER

Temperature adjusted for comfort with computer-memorized settings to retain user preferences.

ONE-TOUCH CLEANSING

Suitable for both elderly and children, one-touch cleansing activates the posterior/feminine cleansing/dryer functions.

NOZZLE SHUTTER

A nozzle shutter prevents waste materials from getting to the nozzle tips, thus ensuring better hygiene.

DEODORIZER

Gets rid of odours and maintains freshness.

FEMININE AIR BUBBLE SOFT CLEANSING

A gentle flow of warm aerated water with air bubbles provide a soothing shower that's gentle enough for a women's delicate areas.

SELF-CLEANING NOZZLES

Nozzle tips are rinsed with water before and after every use.

HEATED SEAT

Temperature can easily be adjusted for comfort.

**OVER HEIGHT (OH)
BACK TO WALL (BTW)
CC TOILET SUITE**

With a pan and seat up to 40mm higher than standard toilets, the overheight toilet allows for easy transfer on and off the seat. This not only makes life easier as we increase in age, but is ideal for the elderly and those with restricted movement.

**BACK TO WALL (BTW)
CC TOILET SUITE**

The back to wall close coupled toilet suite adds a streamlined, modern look to any bathroom. Positioned flush with the wall, there is no gap behind and all waste and inlet pipes are concealed, with the cistern then positioned above the bowl.

**CLOSE COUPLED (CC)
TOILET SUITE**

The close coupled suite has the cistern fitted against the wall and the pan is positioned away from the wall. The gap between the wall and the pan varies according to the model.

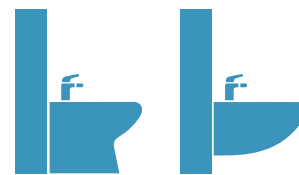

**BACK TO WALL (BTW)
TOILET PAN**

The back-to-wall toilet pan has an in-wall cistern and a fully concealed waste which hides exposed pipes. The back-to-wall pan runs all the way to the wall and is easy to clean with smooth, seamless lines.

**WALL HUNG (WH)
TOILET PAN**

The wall hung toilet is mounted to a bracket in the wall. It takes up less space than a traditional unit and with an in-wall cistern, provides a clean, uncluttered appearance.

BACK TO WALL (BTW) AND WALL HUNG (WH) BIDETS

The wall hung bidet fixes to the wall unobtrusively, while the back to wall bidet takes a more conventional floor mounted form.

E-BIDET

An E-bidet (electronic bidet seat) requires an electrical point and comes with additional comfort features such as massage cleansing, warm water cleansing, heated seat and dryer, and is operated via a side control panel or a remote control.

URINAL

The wall hung urinal is available with automatic or manual flushing options.

S TRAP OR P TRAP?

P Trap

The term P trap indicates that the outlet (waste) pipe goes through the wall.

S Trap

The term S trap indicates that the outlet (waste) pipe goes through the floor.

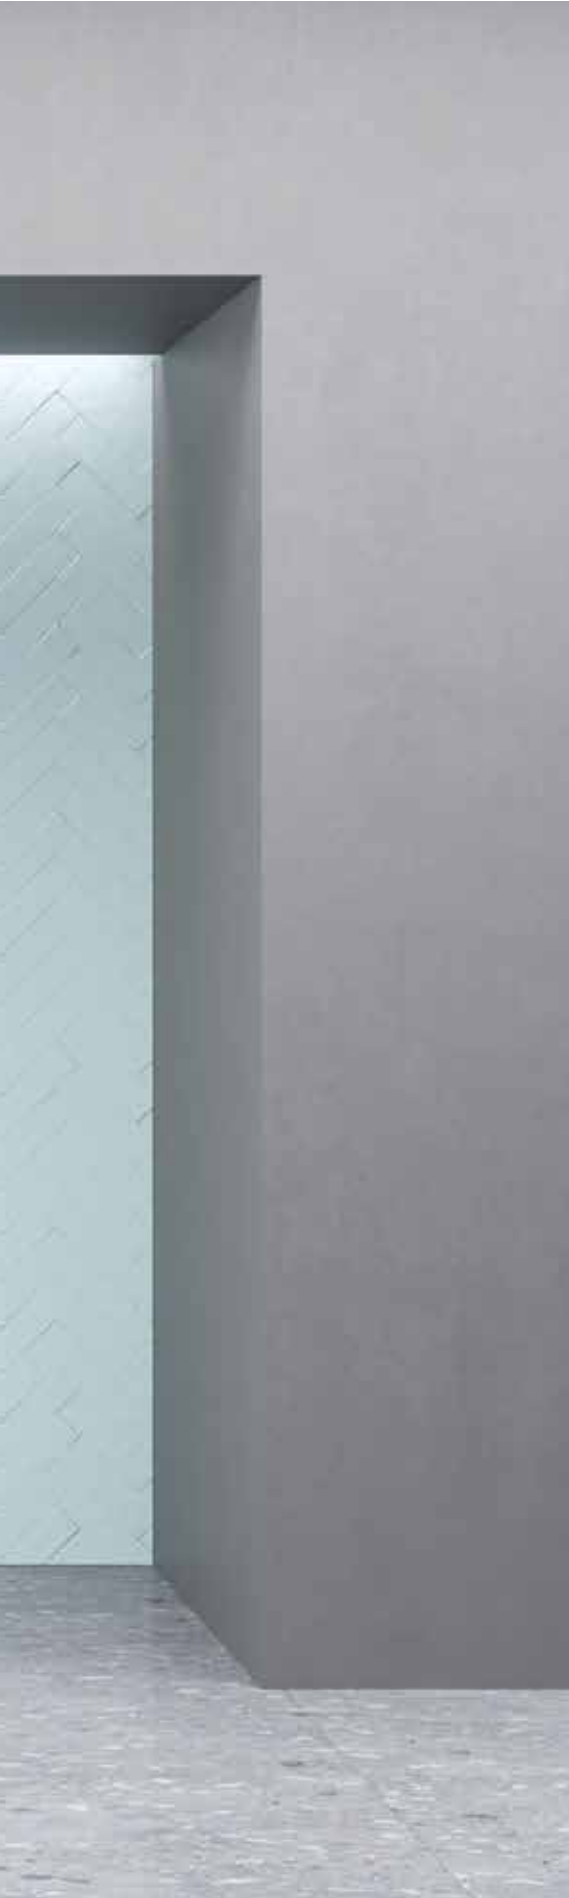

NOTE: Your choice of S or P trap will depend on availability of access through the floor or wall.

MORE PLEASURE IN YOUR SHOWER

Enjoy a luxurious and invigorating experience with a customised shower setup.

FEATURE

COLUMN EXTENSION

Rear inlet too low? Here is the perfect solution if the water inlet or the overhead shower is too low.

The column rail is secured into the diverter valve with a grub screw. Loosen screw, lift column rail and insert extension piece into diverter valve. Refit column rail into extension piece and tighten two grub screws.

ELEMENTI SHOWER SHELF

TO FIT 25MM OR 30MM RAIL

FEATURE

HANDY STORAGE

A handy storage shelf features an edge lip for securing items, plus side drainage holes to remove excess water.

SHOWER FEATURES

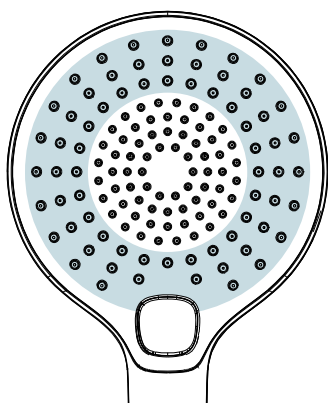

ELEMENTI SHOWER SPRAYS

SPLASH LUX

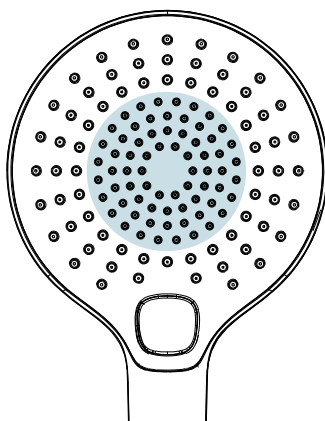

RAIN

Outside 3 rings of large nozzles

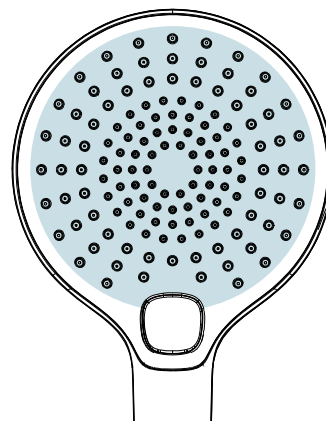

SOOTHE

Inside 4 rings of small nozzles

RAIN + SOOTHE

Both at once

SPLASH PLUS SQUARE/ROUND

MASSAGE SPRAY

A refreshing burst of water delivered from the centre of the shower head that is ideal for stimulating the skin.

HARD RAIN

A central circular spray delivers a tension-relieving spray pattern for a more invigorating shower.

SOFT RAIN

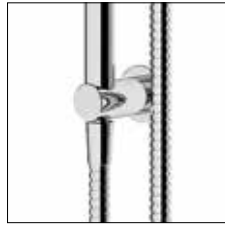

A outside spray delivers an all-encompassing soft spray pattern to soothe the skin.

WATER INLETS

TOP:
Water fed directly into top fixing.

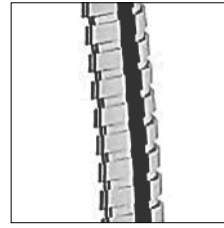

REAR:
Water fed directly into the shower rail.

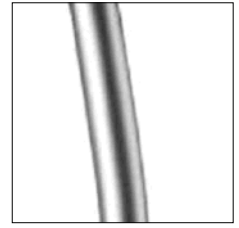

WALL ELBOW:
Water fed from separate elbow.

HOSE TYPES

FLEXI METAL HOSE
Flexible ribbed hose in chrome or black finish.

SMOOTH HOSE
Smooth easy-clean hose with anti-twist feature.

HAND PIECE SLIDERS

PUSH BUTTON ROTATING SLIDER
Push button to adjust hand piece height that also features sideways rotation.

LEVER SLIDER
Move lever to adjust slider to adjust hand piece height.

CENTRE SLIDER
Push button adjustment slider with hand piece positioned centre of the rail (not offset). Perfect for over-the-bath applications.

COLUMN SHOWER DIVERTERS

1+2 SHOWERING EXPERIENCES

Choose from 2 functions with the diverter push button.

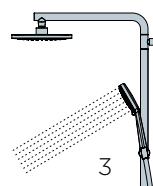

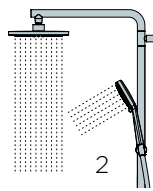

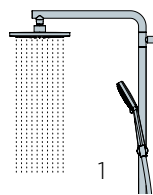

- 1) Shower head only
- 3) Hand shower only

1+2+3 SHOWERING EXPERIENCES

Choose from 3 functions with the diverter handle.

- 1) Shower head only
- 2) Both shower head and hand shower at the same time
- 3) Hand shower only

ADJUSTABLE FIXATION

Ideal for renovations, many of our slide rails have adjustable fixings allowing you to fit existing fixings of the slide shower you are replacing.

A SUPERIOR SHOWERING SOLUTION

Elementi shower enclosures are strong, durable and stylish. From the premium detailing to invisible fixings, design has been considered down to the very last detail. Our products are made from the highest quality materials, with added design features and installation benefits to make sure that once you have chosen your product, it is easy to install and reliable in its use.

**FEATURE****SPECIFICALLY DESIGNED**

The Assist shower tracks have been specifically designed for use in accessible bathrooms in resthomes, hospitals, retirement villages and residential homes. Manufactured in NZ from premium powder coated aluminium, these superior tracks showcase a sleek, minimalistic profile.

The tracks are provided as a kit-set complete with:

- Required screws and wall fittings
- Nylon glides
- Heavy duty stainless steel curtain hooks
- Adjustable length ceiling hanger/s as required
- 2 different lengths available depending on ceiling height and track installation height

Custom sizes available:

Being manufactured here in New Zealand, it's no problem at all to do custom sizes. Contact us for more information and we will work with you to find a solution.

FEATURES

ABSOLUTE ELEGANCE

An overall balanced, weightless design, dressed in an elegant minimal guise destined to retain its timeless charm. Iconic elements and refined details, enhanced by the Velvet black finish, underline the linearity of the slender shape.

COLD START CONTROL

Opening the supply directly to cold water eliminates the carbon dioxide emissions resulting from unintentionally switching to hot water: to activate the hot water, you must make a conscious and voluntary gesture by turning the knob to the right.

MAGNETIC DOCKING

Heron's adjustable hand spray with two jets (spray and rain jet) can be easily attached to the mixer's support bridge thanks to a small magnet, even with one hand, greatly enhancing the user experience.

AMERICAN STANDARD

TAPWARE

CLICK TECHNOLOGY

A midway resistance for better control and water saving.

PATENTED CERAMIC DISC VALVE TECHNOLOGY

Drip-free tapware with smooth handle performance for a lifetime.

ECO HANDLE TAPWARE

Provides up to 30% energy savings.

ADJUSTABLE AERATOR

Provides an adjustable aerated water stream.

COMFORT SPACE

Ample space between spout and handle for ease of use.

COMFORT MOVE

Smooth handle performance for optimal precision and comfort.

DURASHINE

Shiny chrome finishing gives an enduring brilliance.

LOW LEAD

Minimal lead content provides better health protection without compensating on aesthetics.

SHOWERS

AIRNERGIZE SHOWERING

Technology that infuses water droplets with air.

PUSH AND TURN

Dial adjusts water volume easily and offers push button convenience.

TWIST FREE

Prevents shower hose from tangling.

DURASHINE

Shiny chrome finishing gives an enduring brilliance.

TOILETS

COMFORT PUSH BUTTON

A larger surface area for ease of use.

RIMLESS CLEAN

Hygienic and easy to clean.

AQUA CERAMIC*

Smooth, stain-repellant glaze.

PROGUARD*

Guards against water stains.

SOFT CLOSING SEAT AND COVER

Gentle and quiet closing action.

COMFORT CURVE SEAT

An ergonomic fit that contours to the body.

EASY RELEASE

Easy removal for thorough cleaning.

COMFORTCLEAN

Effectively Kills E Coli Bacteria.

ANTIBACTERIAL PROTECTION

Sanitary resin on all essential touch points.

DOUBLE VORTEX

Maximum flush, minimum water usage.

SKIRTED DESIGN

Designed for easy exterior cleaning.

HYGIENE RIM

New rimless design allowing easy cleaning.

CRYSTASLEEK

Double injection molding process for enhanced seat durability.

E-BIDET

ONE-TOUCH CLEANSING

One-touch cleansing and dryer functions.

FEMININE AIR BUBBLE SOFT CLEANSING

A gentle flow of warm aerated water.

MASSAGE

Alternating strong or mild massage sprays.

DUAL NOZZLES

Front and rear self cleaning nozzles.

HEATED SEAT

Adjustable temperature control.

QUICK-DETACH SEAT COVER

Easily detached for convenient cleaning.

NOZZLE SHUTTER

A nozzle shutter ensures better hygiene.

DEODORIZER

Gets rid of odors and maintains freshness.

SELF-CLEANING NOZZLES

Nozzle tips are rinsed with water.

DRYER

Temperature adjusted memorized settings.

BASINS

THINEDGE TECHNOLOGY

5mm thin basin edge ceramic technology.

PROGUARD*

Guards against water stains.

ARTCERAM

MADE IN ITALY
Fine European craftsmanship that also displays the Latin flair of its heritage.

RIMLESS PAN
Better performance and more efficient cleaning with rimless pan.

HIDRA

MADE IN ITALY
Worldwide Italian trendsetters in iconic design.

ELEMENTI

BASINS

DURABLE POLYMARBLE
A durable man-made polyurethane resin and marble powder mix.

VITREOUS CHINA
Extremely smooth hand finished china with scratch-resistant porcelain glaze.

CONCRETE

REINFORCED CONCRETE
Glass fibre reinforced concrete.

HAND CRAFTED AND UNIQUE
Handcrafted and designed to embrace the natural properties of concrete.

HEAT & STAIN RESISTANT
Durable concrete finish is heat and stain resistant.

TAPWARE

FLAWLESS FINISH
Advanced plating produces a durable surface with a long-lasting finish.

EFFORTLESS CONTROL
Leading edge cartridge technology with a wide and smooth operating angle.

FORWARD ROTATING LEVER
Movement from upright to forward ensures handle does not hit splash back.

ERGONOMIC SPOUT HEIGHT
An ergonomic spout height and operating angle allowing ease of use.

ETCH HANDLE
Cross cut texture for an industrial aesthetic and additional grip for easier operation.

MULTI-PRESSURE VALVE
Easily accessible valve housing for water flow rate adjustment.

INTELLIGENT VALVE TECHNOLOGY
Water temperature and flow is adjusted by one rotational motion for precise control.

PULL-OUT SPRAY
The pull-out spray increases operating radius of the mixer.

SWIVEL SPOUT
The smooth movement of swivel spouts offers easy handling.

ADJUSTABLE AERATOR
To control water flow.

BATHS

HIGH GRADE ACRYLIC
100% cross-linked nonporous casted pure acrylic.

ABOVE-FLOOR WASTE
Above-floor waste in freestanding bath allows for ease of installation.

WEIGHT TESTED
Cross-linked acrylic ensures extra strength, tested to 350kg weight limit.

ADJUSTABLE FEET
The bath can easily be raised or lowered to make level.

ACCESSORIES

FLAWLESS FINISH
Advanced plating produces a durable surface with a long-lasting finish.

MADE IN SPAIN
Fine European craftsmanship that also displays the Latin flair of its heritage.

FURNITURE

MANUFACTURED IN NZ
Combining high quality components with superior craftsmanship.

MOISTURE RESISTANT BOARD
Designed to withstand bathroom moisture and humidity.

SOFT CLOSE DRAWER SLIDER
German made full-extension soft close drawer systems.

DRAWER ORGANISER
De-clutter your bathroom with built in drawer organisers.

EVOSTONE
An extra-strength hygienic man-made stone top with superior durability.

EUROPEAN HARDWARE
Top quality systems.

TOILETS

COMPLIES WITH NZS 4121:2001
Designed for wheelchair access and mobility.

SOFT CLOSE SEAT SYSTEM
Gentle and quiet closing action.

SHOWERS

FLAWLESS FINISH

SWISS INSPIRED
Influenced by Swiss design styles of modernism and precision.

VICTORIA + ALBERT

RICH IN VOLCANIC LIMESTONE
A stone-rich alternative packed with naturally desirable properties.

SUITABLE FOR OUTDOOR USE
Can be installed inside or outdoors.

BRITISH OWNED AND OPERATED
Quality design and manufacturing.

EXTERIOR PAINTING
Exterior of bath or basin can be painted or personalised.

NOBILI

GRADE 316 STAINLESS STEEL
European 316 tough-grade stainless steel, offers durability and resistance to corrosion.

LOW FRICTION CERAMIC DISC SYSTEM
Reduces friction between the ceramic discs when mixing, making it more comfortable to use.

INDOOR & OUTDOOR USE
Suitable for both indoor/outdoor use.

COLD START
Eliminates the carbon dioxide emissions from unintentionally switching to hot water.

MAGNETIC DOCKING
Hand spray can be easily attached to the mixer's support bridge with magnet.

MADE IN ITALY
Environmentally-friendly, cutting-edge technology and Italian style.

PARISI

ENGINEERED SOLID SURFACE
A highly durable man made material resistant to scratching, heat, and stains.

MOISTURE RESISTANT
Made from premium multi-wood marine ply.

FINGER PULL DRAWERS
Soft-function drawers with sleek finger pull functionality.

ITALIAN MARBLE
Carrara marble with unique natural beauty.

DRAWER ORGANISER
De-clutter your bathroom with built in drawer organisers.

SIDE PROJECTION
Open-rim flushing system for maximum performance.

ANTI-BACTERIAL
Easy clean hygienic protection.

SOFT CLOSE SYSTEM
Gentle and quiet closing action.

WHAT'S MY WATER PRESSURE?

When you're choosing a tap or mixer, the most important thing to know is that it's the right one for you and your home, whether yours is a high or low pressure hot water system. Check your water cylinder to see whether it indicates it is low or mains pressure.

MAINS PRESSURE

Mains Pressure Water system means that the cold water and the hot water pressure is high (generally 350-500KPA). When the hot water is fed through a mains pressure hot water cylinder, a Mains Pressure only tap or Multi Pressure tapware can be used. If you are on gas it will be Mains Pressure.

MULTI PRESSURE

An unequal water pressure system means that the cold water pressure is higher than the hot water pressure. In most cases the hot water could be as low as 35-120 KPA and fed through a low pressure hot water cylinder, while the cold water pressure may be 500KPA. This type of pressure system requires a tap suited to Multi Pressure.

HOW DO I KNOW WHICH PRODUCTS ARE MORE WATER EFFICIENT?

The New Zealand Water Efficiency Labelling Scheme (WELS) was introduced on 1 April 2010 and is a government initiative that provides information to help consumers make informed decisions. WELS labels are intended to assist your purchasing decisions, to save you money, and promote water conservation. The WELS rating is indicated by the number of stars displayed; the more stars shown, the more water efficient the product is. The WELS rating also provides information on the average flow rate for products when tested at various pressures.

WELS RATING SYSTEM FOR:

TAPWARE AND SHOWERHEADS

- 0 Stars**
More than 16 litres per minute or failing the performance requirements.
- 1 Star ★**
More than 12 but not more than 16 litres per minute.
- 2 Stars ★★**
More than 9 but not more than 12 litres per minute.
- 3 Stars ★★★**
More than 7.5 but not more than 9 litres per minute.

TAPWARE ONLY

- 4 Stars ★★★★**
More than 6.0 but not more than 7.5 litres per minute.
- 5 Stars ★★★★★**
More than 4.5 but not more than 6 litres per minute.
- 6 Stars ★★★★★★**
More than 3 but not more than 4.5 litres per minute.

TOILETS ONLY

- 3 Stars ★★★**
Allows for a 6 litre large flush and 3 litre half flush.
- 4 Stars ★★★★**
Allows for a 4.5 litre large flush and 3 litre half flush.

SUSTAINABILITY

At Robertson Bathware we care deeply about the planet and about safeguarding our precious natural resources. While we strive to create beautiful, high-quality bathroom products, we also take our responsibility for protecting our environment very seriously. That's why we pledge an ongoing commitment to limit the impact of our activities on the environment, and to provide a safe and healthy workplace for our employees.

Our goal is to integrate sustainable practices into every aspect of our operations; from the design and development of our products, to their production, packaging and distribution. We also educate our employees about sustainable practices they can implement, and seek to work with suppliers and partners who share our environmentally responsible values.

PRODUCT DESIGN

Our product innovations favour not just performance, but the use of clean technologies and features that reduce water consumption, minimise the need for detergents that damage our waterways, and cut down on energy use. We also consider the lifecycle of our products to ensure they incorporate the economic use of resources, are safe and efficient, and are designed to last.

OUR PARTNERS

As far as possible, we look to partner with businesses and source our product range from organisations that share our sustainability values and practices.

PRODUCTION

We carefully consider the efficient use of resources during the manufacture of our products and work to minimise toxic emissions from our plant, and the fleet we use to distribute our products. Robertson Bathware works to minimise waste by continuously evaluating our operations and ensuring that they are as efficient as possible. We participate in recycling to reduce our impact on landfills and promote recovery of valuable resources.

EMPLOYEES

Our staff are trained and informed about the role they play in environmental protection, and in meeting occupational health and safety requirements. We encourage them to recycle, reuse and reduce their waste, both in the workplace and at home.

PRINTING

This item is printed using sustainable paper stock supplied by paper merchants with PEFC™ and FSC® chain of custody accreditation. We use H-UV inks which are environmentally friendly. They contain 0% mineral oils or Volatile Organic compounds.

WITHOUT EXCEPTION ROBERTSON PRODUCTS ARE GUARANTEED TO MEET OR EXCEED THE STANDARD REQUIREMENTS FOR THE NEW ZEALAND BUILDING CODE.

RESIDENTIAL

In addition to specific guarantees provided, all products imported and or sold by Robertson are, to the extent applicable, guaranteed in accordance with the Durability Clauses of the New Zealand Building regulations and Consumer Guarantees Act.

Our guarantees apply only to products imported and sold by Robertson. These guarantees do not cover products sold by Robertson under any other agency, company or brand name. As part of our ongoing commitment to continuous improvement, Robertson NZ Ltd reserves the right to make changes to its products at any time.

All guarantees are subject to terms and conditions and available on request or can be viewed at: <https://www.robertson.co.nz/warranties>

The warranty period starts from the purchase date, not the installation date.

The guarantee is against manufacturing defects only.

As this guarantee may not cover the cost of removal or installation, all products must be checked to see they are in good order and condition and fit for the intended purpose prior to installation.

This guarantee does not cover products that have been damaged by misuse, accident or neglect.

This guarantee is applicable to all products installed in domestic residential situations and or light commercial situations such as kitchens, bathrooms and laundries in motels, hotels and retirement villages.

This guarantee does not include commercial situations such as public washrooms and or kitchens and laundries in public buildings, schools, sports centres, gymnasiums and hospitals.

Bathroom vanities installed in commercial situations are not covered under guarantee.

This guarantee does not cover normal wear and tear.

For all Robertson products it is imperative that you only clean with non-aggressive cleaning products and wash off any residue, if your product has a care guide as part of the instructions of use it is important to follow those cleaning instructions, if you are unsure that your household cleaner is appropriate, please contact the After Sales Service Team for advice.

The use of any cleaning products that are not in the instruction care guide or approved by Robertson could void your products warranty.

This warranty is personal to the first end user and is not transferable unless explicitly stated in writing by Robertson to a specific entity.

Each and every warranty claim must be applied for online using the Service Request form and be accompanied by the original proof of purchase and a photo or video showing the defect.

Products must have been installed in accordance with the manufacture instructions and in accordance with local City or Council Standards requirements.

Products must have been maintained in good order and condition and serviced in accordance with manufacturers' recommendations.

Robertson reserves the right to determine any issue or uncertainty in connection with the warranty.

Robertson reserves the right to repair and or replace the defective product and or component at its discretion or nearest equivalent if a product needs to be replaced.

All Warranty covered repair work is to be performed by a Robertson representative and or authorised service agent or plumber who has received an authorisation number to attend the job.

This guarantee does not purport to exclude or limit your rights under the Consumer Guarantees Act which applies to consumers acquiring goods other than "in trade". If you acquired the products "in trade" you agree that the Consumer Guarantees Act does not apply.

When we exchange a product under warranty with a new replacement product then the original warranty period remains as per the original product.

Please contact us for information on product suitable for commercial spaces and our commercial warranty statement.

COMMERCIAL

If any Robertson product is purchased for commercial use or for the purposes of a business, then all of the guarantees and remedies in the Consumer Guarantees Act 1993 are excluded.

For the purposes of this warranty 'Commercial Use' means anything other than Domestic Use, including use in commercial applications in commercial or non-residential premises, public buildings such as schools and sports centres, and in other commercial establishments such as hospitals and restaurants.

The Commercial Use warranty covers this product against manufacturing faults in the construction, material, and assembly of both the finished products and any spare parts. Products and spare parts which are found upon inspection by an authorised Robertson representative to be defective in construction, material or assembly will be repaired or exchanged free of charge.

Replaced items become Robertson's property. The labour for the replacement of products and spare parts to which this warranty applies will be supplied by authorized representative using a licensed plumber.

COMMERCIAL WARRANTY CONDITIONS

This warranty will apply only under all the following conditions:

- The item has been installed by a licensed plumber*
- Failure is due to a fault in the manufacture of the product*
- Proof of purchase is provided*
- The installation of the product is in accordance with the instructions provided This warranty does not cover products purchased as an ex-display without being fully checked and tested for sale by the manufacturer.*

This warranty does not include faults caused by:

- Unsuitable or improper use*
- Incorrect installation or installation not in accordance with the instructions provided*
- Installation or part installation by the purchaser or any person other than a LICENSED PLUMBER*
- Normal wear and tear*
- Inadequate or complete lack of maintenance*
- Chemical, electrochemical, or electrical influences*
- Harsh detergents or abrasive cleaners used on product finishes*

EXCLUSIONS

To the fullest extent permitted by law, Robertson excludes all liability for damage or injury to any person, damage to any property, and any indirect consequential or other loss or damage.

With respect to the Australian/New Zealand Standard for Water Supply Tapware (AS/NZS 3718:2005 reconfirmed in 2016), Robertson tapware products comply with the Copper Alloy (i.e. Brass) requirements in paragraph 2.2.4 of the Standard. The Lead Content in our tapware is well below the maximum Lead content as defined in the Standard.

Note: *All guarantees are subject to terms and conditions and available on request or can be viewed at: www.robertson.co.nz/warranties
