

Boston Wardrobes

Wardrobe Creation Design Guide

Wardrobe Creation Design Guide

A custom-built wardrobe will provide a separate space for the storage of clothing so you won't need furniture such as drawers in your bedroom. It will make your clothes easily accessible and help you maintain and care for your garments.

This guide has been created to give you the information you need when planning your new wardrobe solution.

Boston Wardrobes is a NZ owned company with more than 35 years experience designing and installing wardrobes, giving you peace of mind that your project will be completed to the highest standard. We are proud of producing quality, durable products that improve your life and elevate your space.

Wardrobe Creation

When you don't have any built-in wardrobe spaces

A Creation can help to solve storage problems where no allowance has been made for a built-in solution. For example, if you have a bare wall in a bedroom, garage or laundry.

In these instances, a Creation can be built out from the existing walls. The new Creation can be built to suit the unique dimensions, storage requirements and age of the home.

The Creation will be the 'container' for your new wardrobe organiser, which can then be finished with your choice of doors.

Wardrobe Creation

Steps to your new wardrobe

4.

Our process

This is the typical process you can expect from first contact to wardrobe and doors.

- We strongly recommend a visit to the showroom as a first step, especially when a Creation is needed
- After our initial consultation, we will provide a detailed design with drawings and renders, as well as specific measurements for the Creation, which you can share with your builder
- We are always available to liaise directly with the builder for any questions or troubleshooting
- Building work is completed separately, at an agreed time and date. Once this process is complete, Boston can carry out a final measure and an order can be placed for your organisers and doors
- Your new Boston wardrobes and doors are installed by our friendly team of tradespeople
- *Please note, the building work is a separate project to be completed between the client and the builder, excludes any wardrobe organisers or doors from Boston, and will be billed direct to client by the builder*

1. **Blank wall:** This is where the wardrobe will be
2. **Creation built:** The builder has completed the Creation to your specific requirements
3. **Creation painted:** The Creation is plastered and painted
4. **Creation ready for carpet:** The final touch, carpet or polished floors will finish the room
5. **Complete:** Doors and organisers can now be installed

Next steps

Visit the showroom

Boston Wardrobes offers the largest range of wardrobe systems in New Zealand.

No Creation is the same, so Boston will work with you and either your chosen builder or our suggested supplier to complete your new Creation solution.

Our showroom is a great place to see examples of Creations and how they could work in your space. At the same time, you can view and decide on which of our many organiser systems and door styles will suit your project.

During your showroom consultation, you can also work with the sales consultant on a design based on rough measurements.

A site visit will then be required to make sure the design and doors will work in your space.
