Bristle Roofing Concrete Tiles

—

Start on Top

Your Home Elevated

–

There's a good reason why our concrete roof tiles remain one of the most enduring roofing materials in Australia; they're designed to be visually powerful and last a lifetime. Committed to sustainability, Bristile Roofing uses environmentally friendly non-solvent based coatings on our roof tiles.

Whatever the shape and scale of your project, we guarantee our concrete roofing tiles will elevate your home from the everyday to the exceptional.

Discover your tile style

Roofing material isn't something most homeowners think about – until, of course, you need a quality roof that will last a lifetime. Developed through years of experience in the harshest of Australia's weather conditions, our concrete roof tiles are made with naturally inspired colours from world-class materials, ready to adapt to your personal style.

For more information visit bristilerroofing.com.au

To get you started, here's what you'll need to know:

What to look for in a tile.

In a word, quality. Your roof is going to be there for a long time – and our high-quality concrete tiles offer a fantastic way to protect your home for decades.

Why colour is important.

Colour can instantly add visual appeal to any project. So it's not only important to see what suits the design of your home – but also the surrounding landscape. Our colour range is designed to work beautifully in any environment.

Profiles and ridges explained.

A tile profile is the shape of the individual tile – which when laid together forms a distinctive pattern. Each has its own distinctive look and feel. Ridges are made to 'cap' the tiles when they come to a point on the roofline.

Benefits

A good concrete or terracotta tile lasts a long time, reduces energy consumption, offers fire resistance, and all-year-round insulation and protection for you and your loved ones. Every Bristile tile created is also made from environmentally friendly materials, promoting a sustainable future.

Every tile we create is:

Warranty assured

Bristile Roofing products are offered with industry leading warranties including our 10 year Total Roof and 50 year product warranty.

More affordable

Concrete roof tiles are one of the most affordable roofing products on the Australian market.

Rust-proof

Roof tiles are ideal for use in coastal areas as they are impervious to rust and corrosion.

Greater variety

Roof tiles are available in more colour and profile combinations than any other commonly used roofing product in Australia.

Stronger

Roof tiles must comply with strict standards in strength, and concrete roof tiles actually increase in strength as they age.

Quieter

Roof tiles can reduce noise by 30 decibels, more than twice the reduction achieved by other commonly used roofing materials.

Fire-resistant

Roof tiles are ideal for bushfire prone areas as they are non-combustible.

Low embodied energy

Roof tiles are the lowest embodied energy product of the three most commonly used roofing materials in Australia.

Water safe

Water run-off from tiled roofs is as safe to use as that from any other roofing material.

Long-lasting

When it comes to longevity, concrete and terracotta roof tiles both outperform the leading competing alternative.

Heat-reflective

Testing shows roof tiles will reflect more heat away from the home than other commonly used roofing materials.

Temperature efficient

Testing of similarly coloured roofing products shows roof tiles transfer less heat and reduce cooling costs.

Warranties

Products that last at least 50 years. And some that the next generation will be thankful for in 100 years' time. When it comes to roofing, the rule is do it once – but do it well.

Our concrete products are warranted for 50 years, and any roof installed by Bristle Roofing comes with a 10 Year Total Roof Warranty

Our concrete roof tile warranties

10 Year Total Roof Warranty*

Guarantees our workmanship and roof accessories we install for a 10 year period.

50 Year Product Warranty*

Guarantees all concrete products will remain structurally sound for 50 years.

Colour Collections

–
From beach and rainforest, to mountain and sea – our colour range is inspired by the land and seascapes found throughout our vast country. From the gentle mist-coloured tones of early winter mornings to baked red desert earth, we have a colour to match all styles and environments.

Choose from:

- Light p¹²
- Mid Tone p¹⁴
- Dark p¹⁶
- Matte Colour Through p¹⁸
- Duo p²⁰

Light Collection

Our elegantly light range of appealing natural tones work well in beach, rural or urban settings. These tiles bring a 'floating' or light appearance to your project with their appealing, calming hues.

Profiles

A tile profile is the shape of the individual tile – which when laid together forms a distinctive pattern. Each has its own distinctive look tailored to you.

Designer

Sleek, minimalist and quietly undulating, our Designer profile works well in contemporary house designs.

Dimensions	Length: 440mm Width: 335mm Height: 53mm
Watercourse Width	36mm
Average Weight	per tile: 4.9kg per m ² : 45.37kg (tile only)
Units per m²	9.26 tiles
Head Lap	Minimum: 75mm Maximum: 110mm
Minimum Pitch	With Sarking: 15° Without Sarking: 20°
Bonding Method	Cross / Straight Bond
Manufactured	QLD & VIC

Artisan

Timeless and enduring, these tiles are influenced by Australia's historic federation homes.

Dimensions	Length: 440mm Width: 335mm Height: 53mm
Watercourse Width	36mm
Average Weight	per tile: 4.96kg per m ² : 45.93kg
Units per m²	9.26 tiles
Head Lap	Minimum: 75mm Maximum: 110mm
Minimum Pitch	With Sarking: 15° Without Sarking: 20°
Bonding Method	Cross / Straight Bond
Manufactured	QLD & VIC

Classic

Modern and simple, the smooth linear finish works well in city or coastal environments.

Dimensions	Length: 440mm Width: 335mm Height: 35mm
Watercourse Width	36mm
Average Weight	per tile: 5.35kg per m ² : 49.54kg (tile only)
Units per m²	9.26 tiles
Head Lap	Minimum: 75mm Maximum: 110mm
Minimum Pitch	With Sarking: 15° Without Sarking: 20° (QLD 22.5°)
Bonding Method	Straight Bond
Manufactured	QLD & VIC

Prestige

Understated and simple, the Prestige profile is eye-catchingly elegant and timelessly refined.

Dimensions	Length: 440mm Width: 335mm Height: 32mm
Watercourse Width	36mm
Average Weight	per tile: 5.4kg per m ² : 50.00kg (tile only)
Units per m²	9.26 tiles
Head Lap	Minimum: 75mm Maximum: 110mm
Minimum Pitch	With Sarking: 20° Without Sarking: N/A
Bonding Method	Cross Bond
Manufactured	QLD & VIC

Eton

The textured surface of this profile makes for a creatively different and prestigious look.

Dimensions	Length: 440mm Width: 335mm Height: 32mm
Watercourse Width	36mm
Average Weight	per tile: 5.4kg per m ² : 50.00kg (tile only)
Units per m²	9.26 tiles
Head Lap	Minimum: 75mm Maximum: 110mm
Minimum Pitch	With Sarking: 20° Without Sarking: N/A

Units per m²	9.26 tiles
Head Lap	Minimum: 75mm Maximum: 110mm
Minimum Pitch	With Sarking: 20° Without Sarking: N/A
Bonding Method	½ Bond
Manufactured	VIC

Ridge Options

—

Customise your roof with our ridge capping options. From contemporary to traditional, make a statement with the finishing touch of your designer roofline.

Standard Ridge

—

A simple stepped finish gives a playful series of visual notes to any roofline.

Smoothline Ridge

—

This ridge is all about clean lines, and a smooth, seamless finish.

Provincial Ridge

—

A modern finish using a crafted metal to integrate into just about any roof line.

Accessories

Bring extra comfort and protection to your home with insulation, ventilation and sarking.

Sarking

A secondary barrier that sits under your roof tiles, providing a reflective barrier which reduces heat transfer and also acts as a weatherproof barrier protecting your home.

Ventilation

Roof ventilation systems provide continual airflow through the roof cavity, removing overheated air and moisture hence reducing the effects of changing temperatures inside and out.

The Benefits

- + Reflects as much as 95% of heat away from the home
- + Is a secondary barrier to water run-off
- + Provides additional storm protection
- + Acts as a barrier to dust
- + Provides bushfire protection
- + Reduces the need for heating and cooling devices

The Benefits

- + Expels hot air from the roof space in summer, and damp air in winter
- + An inexpensive way to further improve your home's comfort
- + Decreases the heat load on ceiling ducted air-conditioning
- + Reduced energy costs

Australia's Best Quality Integrated Solar Tiles

Available in terracotta or concrete tile profiles, you'll be enjoying solar power from a roof that has the ability to generate power for at least 25 years – guaranteed.*

Here's what makes Bristile Solar so appealing:

Sustainable

An approved Clean Energy Council supplier and accredited by the Smart Energy Council.

More affordable

Reduce the impact of increasing energy bills.

Warranty assured

You'll be getting solar power from a roof that will generate power for 25 years – guaranteed*, and the solar components will be incorporated into your 'whole of roof' 10-year installation warranty.

Attractive design

Your sleek and stunning roof profile won't be spoilt by large format panels, giving a streamlined look to your entire home.

La Escandella

Discover the difference with La Escandella European terracotta roof tiles, the pinnacle in roofing style and class. Originating in Spain, La Escandella has developed a solid reputation as a world leader in quality terracotta roof tiles, offering the highest quality colours and finishes in the Australian market. Available in a variety of profiles and contemporary hues, Bristle Roofing offers a wide range of exciting options designed to suit every style and budget.
