

Desejo

Lighting

Tell your story

Desejo means desire in Portuguese. As founder of Home Factor, creating beautiful homes in New Zealand that blend design influences from across the world, I was inspired to go further. To search the world for genuinely unique, superbly crafted and daringly designed homewares that would complement and elevate any space. My search was successful and we have formed some exclusive relationships with designers and manufacturers to bring you exquisite lighting designs, bold door furniture and distinctively original furnishings. Pieces with the power to transform an apartment, a home or villa, office or boutique hotel, from a fine restaurant to waterborne retreat. Whether you're creating a personal sanctuary, or expressing yourself as an architect or designer on behalf of a client, the pieces you choose reveal something deeper. Through their form and nature, they reveal a glimpse of who you are. What you choose tells a story. Your story.

Not all is revealed

Lighting is felt as much as seen. The right level of light, its positioning and its intensity make a space feel welcoming and warm. Contrasts create interest and ambience. Restraint tells a story through what is emphasised and what is allowed to remain subtle and discreet. The lighting you choose in a home, restaurant or office leads the eye. It directs to the story you want to be told. What you want to say, and what you are comfortable leaving unsaid. Tell your story with lighting from Desejo.

Priyanka Sareen

CHANDELIERS

Partner Brands - Luxxu & Loomiosa

Desejo grew out of the successful architectural, design-driven home building business Home Factor. In seeing the pleasure brought by beautiful homes, the founders, Priyanka and Rohit, decided to launch a complementary business that deepened the impact beautiful spaces have upon us, by making the most desirable and beautiful homewares available also. We understand the pleasure and comfort that unique furnishings, daringly original lighting and boldly imagined door furniture bring. How they transform a room. How they allow us to reflect our tastes and personal stories through what we choose.

That's why we've partnered with amazing Lighting brands that we are proud to invite you to discover:

LUXXU: LUXXU was born as a unique lighting brand. The brand philosophy is translated in handcrafted pieces of imposing and elegant lines and their quality, making any environment a symbol of sophistication and comfort.

Luxxu Modern Design & Living is a brand that creates daring designs, offering the best of both design and art, proving to be remarkable in the life history of those who acquire them. More than a brand, their purpose is to involve you in a unique experience, where luxe, design and elegance are combined to create a strong atmosphere.

Loomiosa: Loomiosa is a Hungarian interior lighting manufacturer, founded by Daniel Mato in 2017. With its distinctive, organic but still clear design, Loomiosa offers an alternative to give a truly unique atmosphere to any interior. The brand intended to create spectacular products that immediately caught everyone's attention, thanks to their individual design along with the alluring quality materials applied. Their mission is to make pendants designed with contemporary art and originality in mind.

The distinctive and common feature of all Loomiosa products is the innovative usage of coloured aluminum tubes, which give the lamps an elegant, sophisticated appearance at a surprisingly low weight. During the manufacturing process of each piece, the tubes are attached to a special 3D printed, and then surface-treated bracket, which defines the position of the tubes and thus the shape of the lamp.

The
LOOMIOSA
Lighting Collection

L E A F

As its name suggests, the shape of this pendant was mainly influenced by palm leaves. The special feature of the design is, that it creates a different impression from every point of view. The purpose of this unusual shape is to make this luminaire a captivating and outstanding element of any room on its own. Due to its elongated form, it best suits rooms with high interiors. The lamp itself creates a unique atmosphere in any room and it can also be emphasized by additional lighting (e.g. spot lights).

MATERIALS: Anodized aluminium poles with additional colouring
3D printed, painted polyamide
Fabric cable
E27 LED vintage bulb

Measurements, weight:
Leaf 72: 172 cm Ø27 cm 1,8 kg
Leaf 97: 197 cm Ø38 cm 2,5 kg

D I V A

The Diva model was inspired by the display of mother nature in modern statuary and contemporary architecture. As the name suggests, Diva's ethereal and curvy shape resembles a stylish and elegant lady who draws attention with her presence and stands out from the crowd. With its majestic and graceful design, the Diva is a great choice for a classical, and clean interior.

MATERIALS: Anodized aluminium poles with additional colouring
3D printed, painted polyamide
Fabric cable
Frosted glass shade

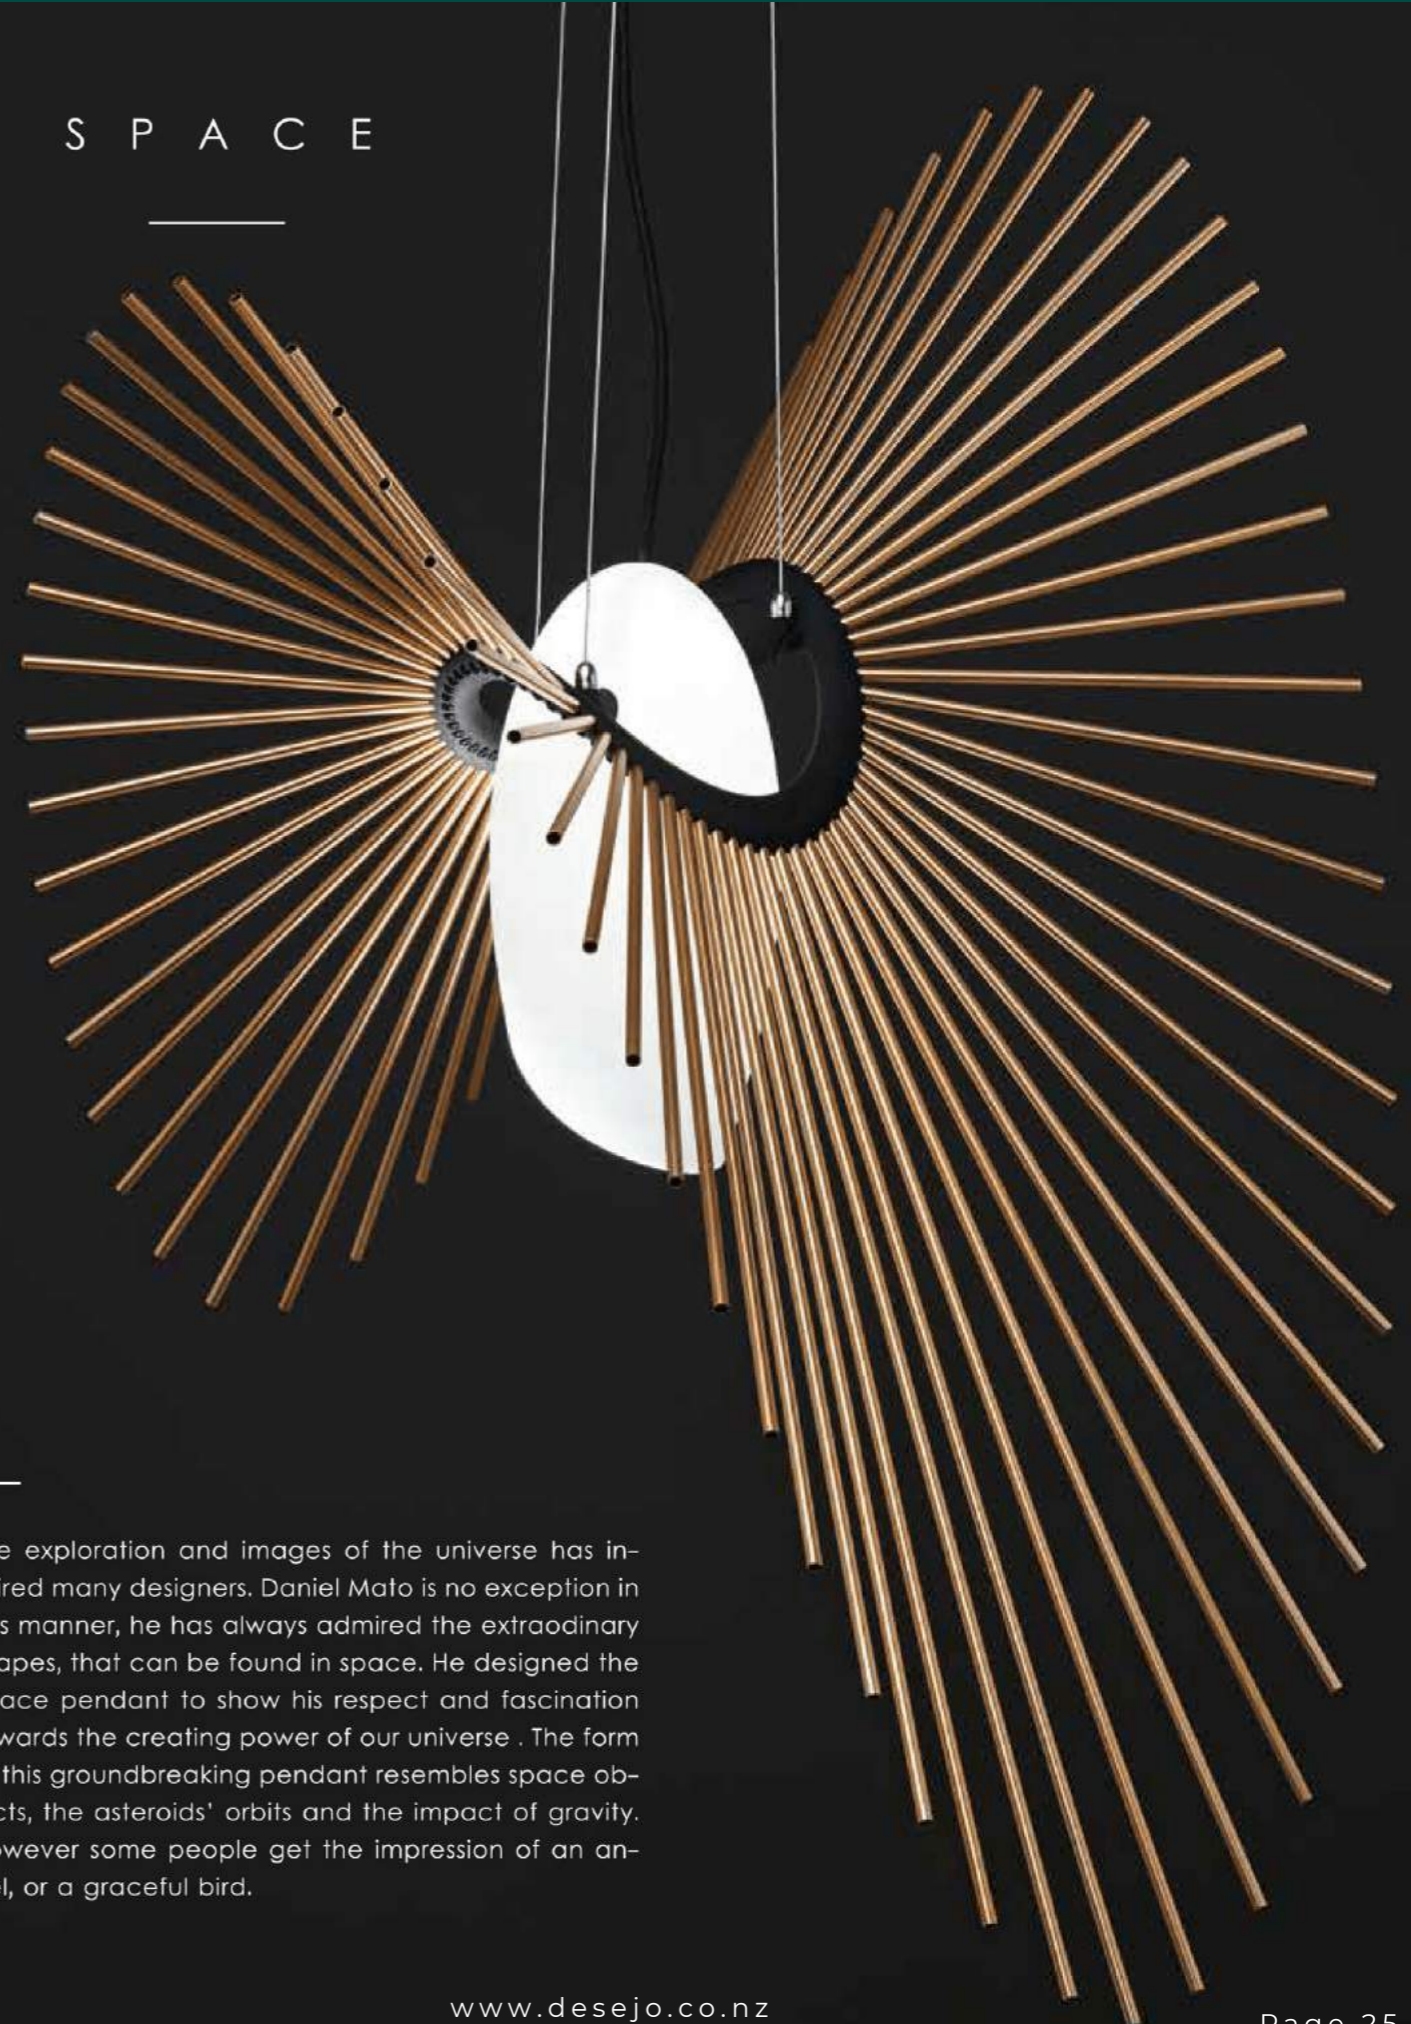

Measurements, weight:

Diva 55: ↑55 cm Ø33 cm 2,3 kg

Diva 74: ↑74 cm Ø44 cm 2,8 kg

S P A C E

The exploration and images of the universe has inspired many designers. Daniel Mato is no exception in this manner, he has always admired the extraordinary shapes, that can be found in space. He designed the Space pendant to show his respect and fascination towards the creating power of our universe . The form of this groundbreaking pendant resembles space objects, the asteroids' orbits and the impact of gravity. However some people get the impression of an angel, or a graceful bird.

MATERIALS: Anodized aluminium poles
with additional colouring
3D printed, painted polyamide
Fabric cable
Frosted glass shade

Measurements, weight:
Space 96: 196 cm Ø64 cm 3 kg

GALAXY

Galaxy has the most clean design out of all the models. Its simplicity itself creates harmony in any interior. The main inspiration of this design was how the designer and we all feel when we look at night sky. We can't help but wonder what it feels like to be up there amongst the stars and how small we are. The bulb, as the center of this design, resembles the Sun and how it is only a small part of something much greater, our galaxy. The Galaxy pendant was designed to be hung angularly to emphasise its shape. Due to the flat form, it fits well in spaces with low ceiling.

MATERIALS: Anodized aluminium poles with additional colouring
3D printed, painted polyamide
Fabric cable
E27 LED vintage bulb

Measurements, weight:
Galaxy 100: Ø100/89 cm 3 kg
Galaxy 135: Ø135/118 cm 2 kg
