

# DESIGNER SERIES RESIDENTIAL GARAGE DOORS

INNOVATION QUALITY INTEGRITY

 **glideaway**  
Providing Door Solutions

The garage door is often the largest and most prominent frontal feature of your home. For this reason, choosing the right garage door is a crucial decision that can influence the value and aesthetics of your prized asset.

A *Glideaway Designer Door* is guaranteed to complement most architectural styles, thus creating an exceptional overall street appeal.

*Glideaways Designer garage doors* are excellent value for money and allow you the freedom to design a garage door that truly reflects the style of your home at a price that suits your budget.

Be it a traditional timber or contemporary style. *Glideaway Designer Garage Doors* express individuality.

At the same time they deliver quality and longevity unmatched by any other garage door.

### **Your Vision, Our Expertise**

The expert team at Glideaway have been partnering with clients since 1985 to significantly enhance the value their homes. Glideaways custom designed garage doors allow you to capture the essence of your home and complement its architectural style.

IN addition to designing and manufacturing unique garage doors to suit most applications, Glideaway also have over 20 standard designs to choose from. This is unquestionably the largest range in New Zealand and is complemented by many finish options to suit every home.

We have built our business on quality, reliability, integrity and unrelenting innovation offering designers, architects, builders and home owners an affordable alternative.

Being the leading manufacture of custom garage doors with a national presence, we have the knowledge, experience, people and technology to deliver what we promise.

### **Glideaway Natural Timber Collection**

Complement your home with the timeless beauty, warmth and versatility of natural timber offering unlimited design potential.

### **Glideaway Contemporary Designs**

Our extensive range of custom aluminium & steel designs have become increasingly popular with customers looking for something more contemporary. Modern designs incorporating aluminium mesh, acrylic, polycarbonate and glass options combine security and style whilst filling your garage with light.

### **Glideaway Custom Designs**

Share your vision with our experts and we will create it for you. The design options are truly endless.

# Custom Designs

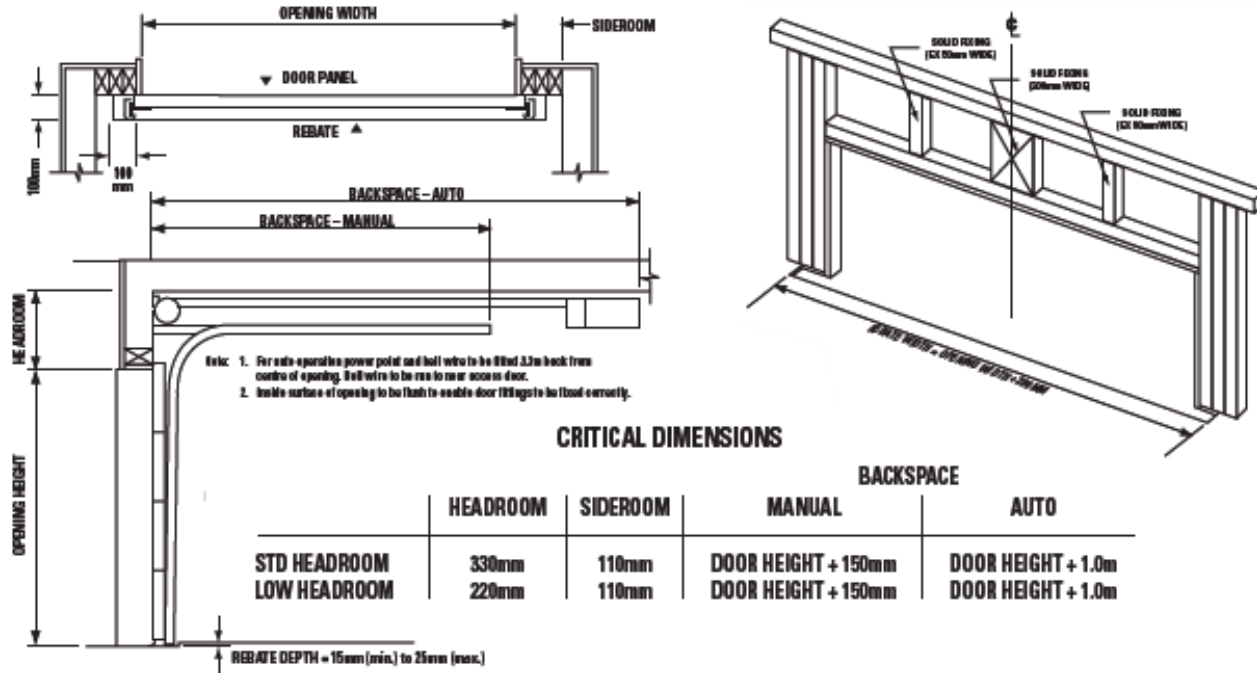

The following garage doors are a range of various custom design garage doors that Glideaway is able to supply. These are shown to illustrate that at Glideaway we will work with our customers to design and manufacture the right garage door to suit any home. You design, we Build.

(Pictures are Examples only)

# Technical Specifications

In addition to reducing the product costs, eliminating pelmets or jambs will also reduce installation costs. To eliminate the need for pelmets or door jambs it is preferred that the clearances outlined are taken into consideration during the design and construction process.

## Warranty

Glideaway warrants that the doors will be free from structural defects for a period of up to 3 years. Natural features contained within the timber will however not be accepted as defects. The structural warranty does not apply to the longevity of the paint finish.

All warranty claims are subject to the customer producing a satisfactory service history.

With New Zealand's largest range, widest options, custom designs, value you for money and quality, **Glideaway** is a Leader in Designer Garage Door Systems.

Contact **Glideaway** or your Nearest Glideaway Distributor for advice on how **Glideaway** can help you design your door.
