

Grand Soleil

The first, the original, mattress made from renewable resources such as sunflower oil and water.

To regenerate and finally sleep well a flower is all that is needed. Grand Soleil is a truly revolutionary material and the result is the mattress that you have always dreamed of, highly breathable, hygienic and with extreme comfort. Incomparable for 10 reasons.

4

The only mattress with three different cell compositions: **Mono Cell**®, **Duo Cell**® and the excellence of **Trio Cell**®, for a personalised comfort.

3

Thermo-recyclable product made with **eco-compatible** (CFC-free) processes.

2

Only **Grand Soleil** has been approved by **C.A.R.M.E.N.**, the important Coordinating Office for Renewable Resources in Bavaria (Germany).

1

Grand Soleil is the first mattress made from renewable natural sources.

Unlike standard foam, derived from petroleum (crude oil), Grand Soleil by Dorsal is made from vegetable oils.

5

Every mattress is customised with **multi-zone contouring**, carried out in Dorsal factories with cutting-edge technology.

6

Grand Soleil offers two other exclusive products made from sunflower oil and water: **Natur Memory**, the first visco-elastic material of its kind, and **Soft Care**, the revolutionary padding providing balanced support.

7

All **Grand Soleil** mattresses undergo a crushing process twice to improve **stabilization**. The result is an **ideal product** without **sagging or deformation to ensure superlative rest**.

8

Grand Soleil is odourless, antiallergenic, anti-bacterial and breathable. Its top quality is proved **by years of sales on World markets**.

9

It uses the expertise and know-how of **German** technologies and quality production processes.

10

In Italy all Grand Soleil products are recommended by the Italian Association of Physiotherapists.
