EIKON EXÉ

The Essence of Material

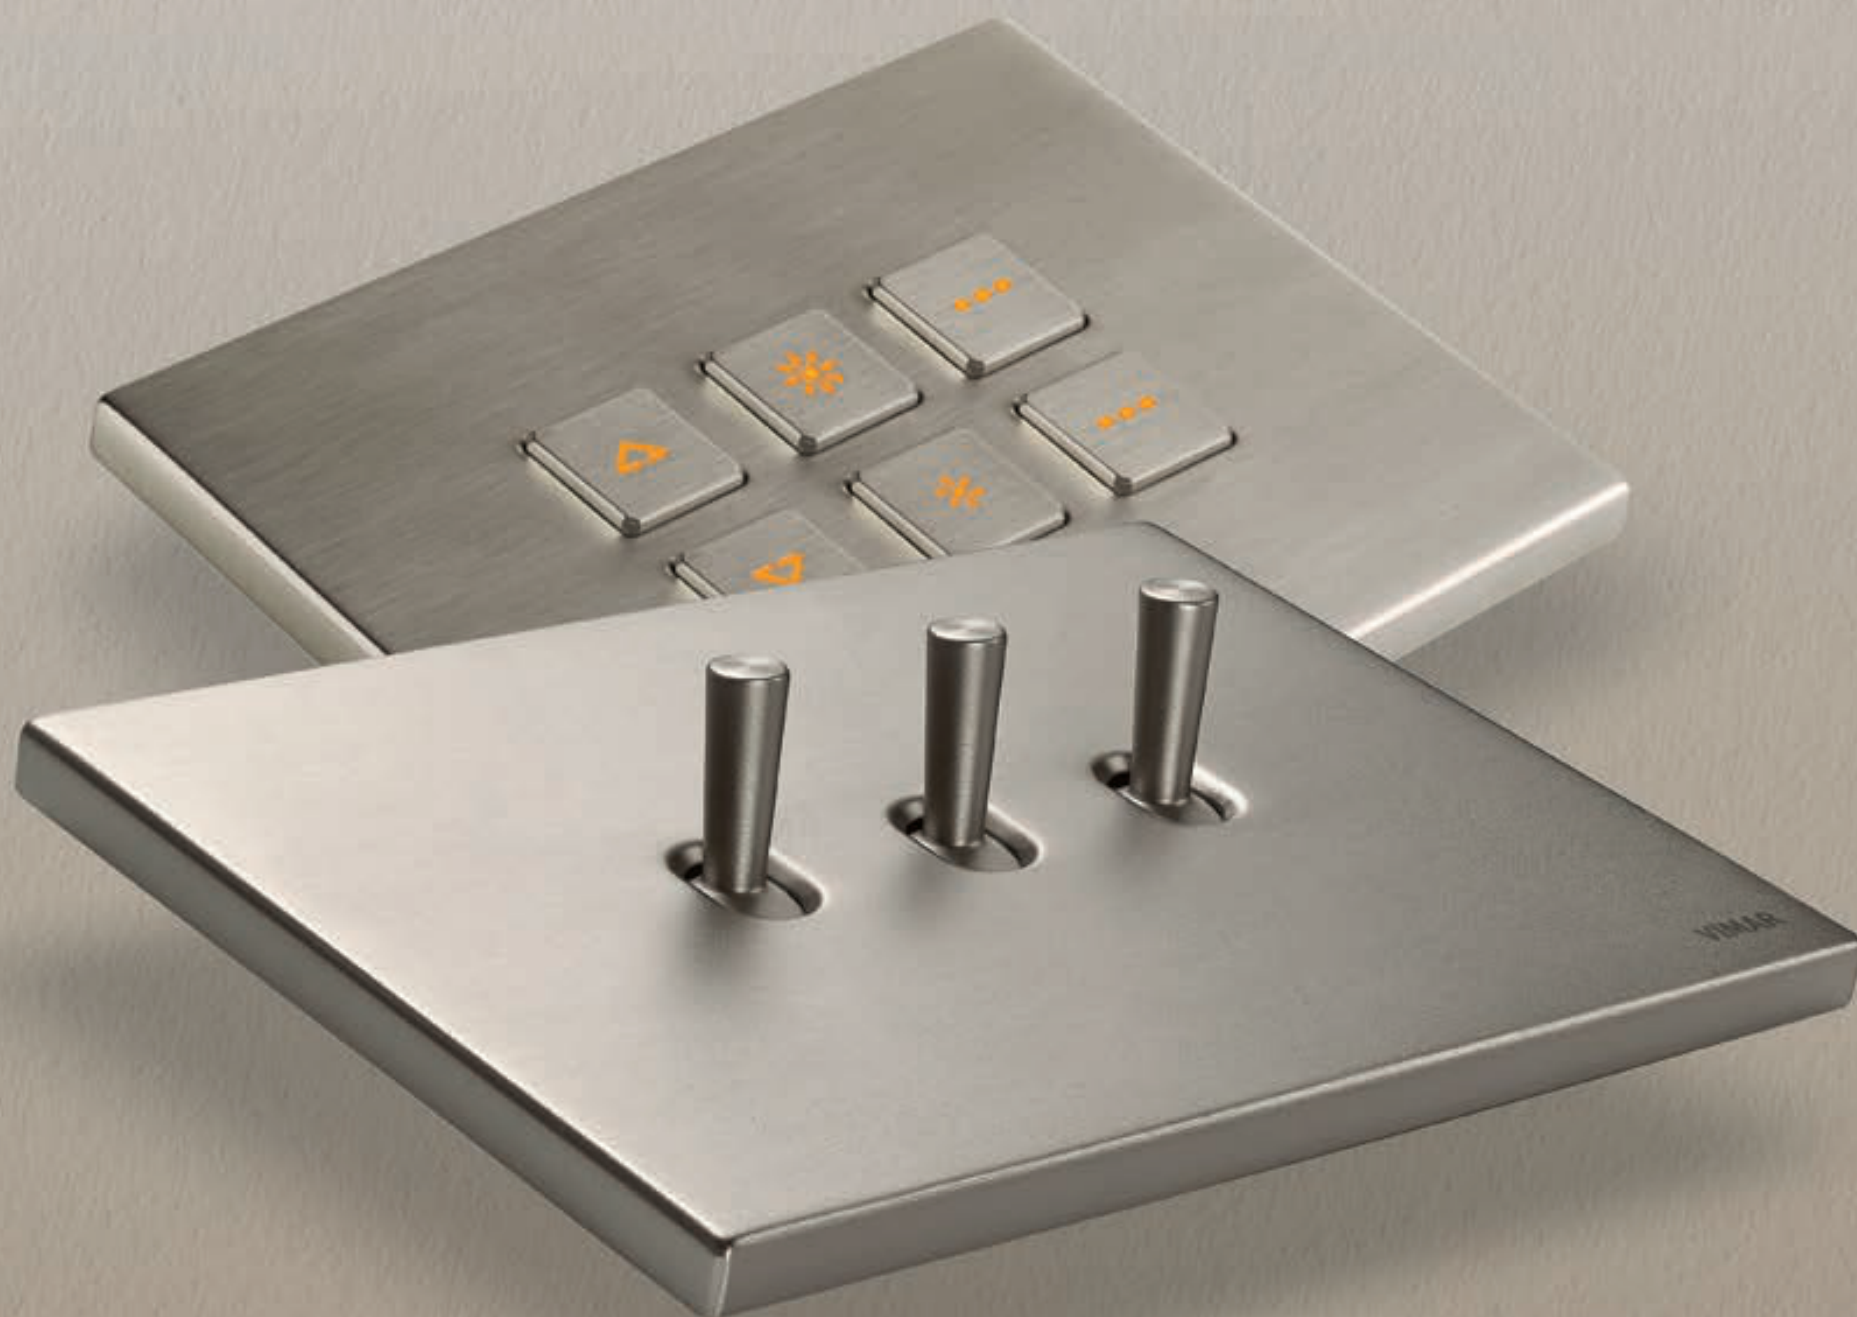

Fine natural materials provide an unmistakeable textured effect, defining the identity and personality of every finish

EIKON EXÉ

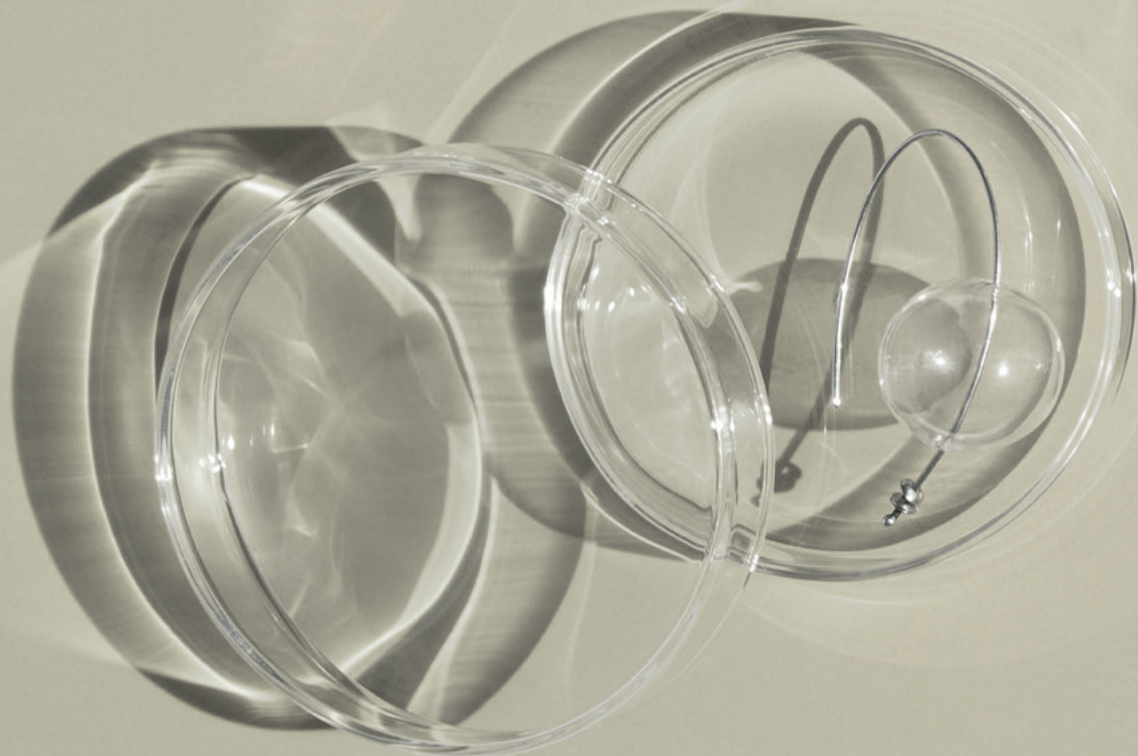

The Essence of Shape

Pure, minimal shapes underline the Eikon Exé look. Squared corners and striking silhouettes for a cover plate that blends in seamlessly with any environment.
Stylish details, 100% made in Italy

Flat and Vintage

Flat, the essence of minimalism: planar and square-shaped controls give a pleasant flush mounting effect. Vintage, the essence of retro: fascinating lines of the past reinterpreted in a modern way.

Glass

Transparencies and tricks of light. Unique details that appear with discretion

White Canvas 

 Satin Black

Milky White 

Back-painted surface and flush-ground polished edges are available in three designs. The classic appeal of **Milky White**, the warmth of **Canvas White**, the timeless elegance of **Satin Black**

Leather

A natural and live material, that is soft and sophisticated,
unique in its slight imperfections

Classic tones with a highly tactile appeal. **Savannah** with its natural look, the more matt and velvety **Steppe**, and the fine grained and sophisticated **Black Forest**

Black Forest 

 Steppe

Savannah 

Mirrors

A solution that lights up environments and created depth.
Reflections and lights that interact with the interiors

Opal Brown ⊕

⊕ Shiny Bronze

Ice Silver ⊕

Reflective surfaces emphasised by a polished edge flush-grinding process.
A splash of technology for the **Ice Silver** finish, an enveloping hue for **Shiny Bronze**,
and a warm tone and satin-finish for **Opal Brown**

Eucaliptus 

Oak 

EIKON EXÉ

The essence of minimalism

The quintessence of purity and linearity. Planar and square-shaped controls give a pleasant flush-mounting effect, highlighted by the chromatic uniformity between controls and cover plates, in accordance with current stylistic canons.

EIKON EXÉ

The modern essence of retro

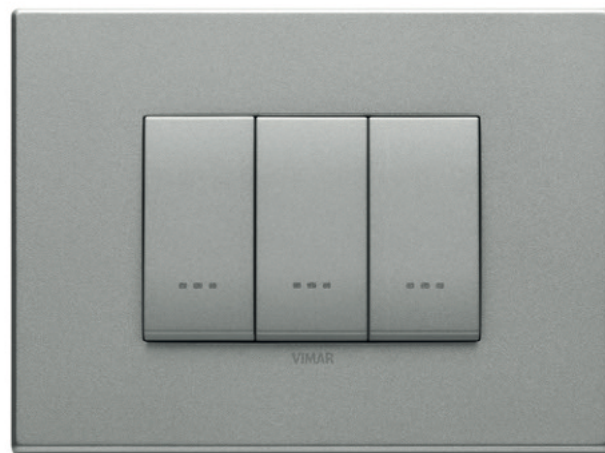

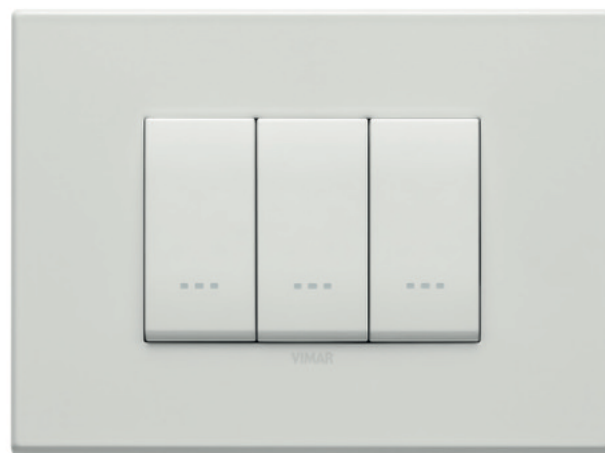

Fascinating lines of the past reinterpreted in a modern way providing an exclusive and a bit retro style to all spaces. The perfect chromatic coordination between controls and cover results in a captivating total look effect.

Matt White 

 Anthracite Grey

 Next

Three timeless colours: **Matt White**, **Next** and **Anthracite Grey** to match the buttons of the same colour. Simplicity in its purest form

Marbled Stoneware

Inspired by the textured strength of marble,
with elegant flaws and characteristic veining

Brushed Dark Bronze

The ultimate quality for a material that recalls the most exclusive stones. **White Calacatta** like the finest Carrara marble; **Coffee Brown**, a warm colour with golden vein patterns; **Black Marquía** just as powerful as the namesake Spanish stone

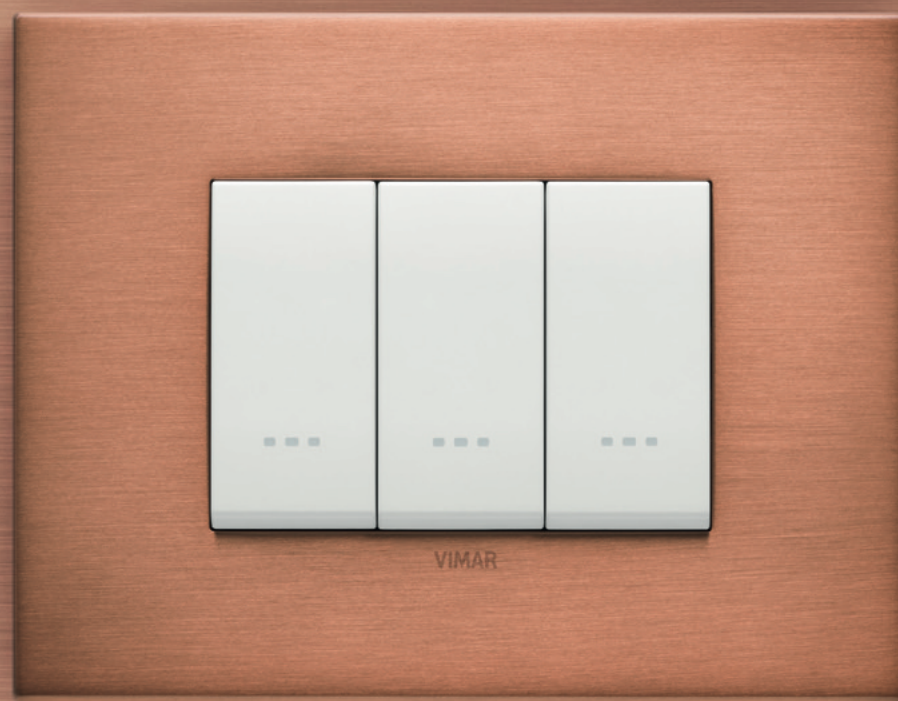

The image displays three distinct marble samples arranged diagonally. The top sample is a dark brown with subtle, light-colored veins. The middle sample is a dark, almost black, with prominent, light-colored veins. The bottom sample is a light cream or off-white color with delicate, light-colored veins. Each sample is labeled with a circled plus icon and its name.

Exclusive Metals and Brushed Metals

Sophisticated finishes refine a surface that is simple but flaunts
a charm that is always on trend

Antique Gold 

 Antique Brushed Bronze

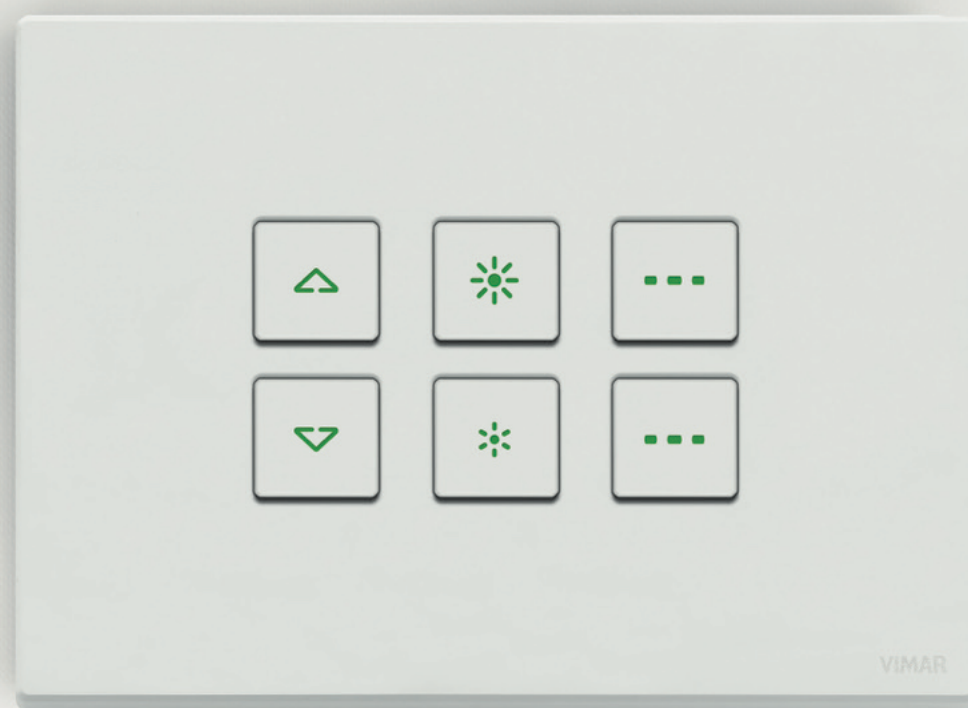

Brushed Copper 

The elegance of **Antique Gold**, the energy of **Brushed Copper** and the variegated shades of **Antique Brushed Bronze**. To reflect the elegance of the spaces

Materials and Finishes

The strength of metal in five elegant colours

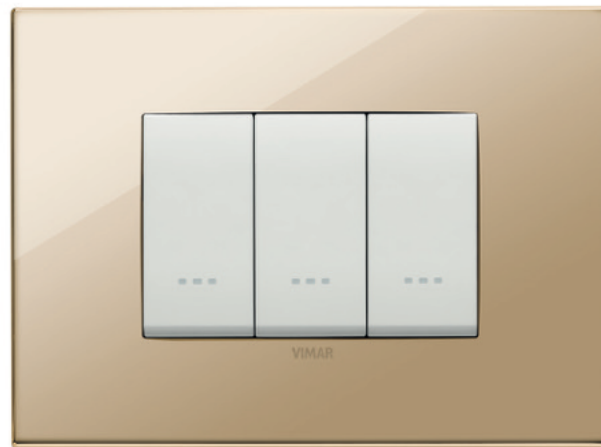

Polished Metals

Shiny glints to brighten up the environments.
The gaze loses itself in an alluring shiny surface

Nickel 

Gold 

Black Chrome 

A shiny finish lights up the modern appeal of **Nickel**, shows off the charm of gold and underscores the aesthetic accuracy of **Black Chrome**

Bespoke Design

Unique in its versatility, Eikon Exé lends itself to countless stylistic interpretations. Special materials for the cover plates and unusual colours for the switches provide infinite possibilities for customising the design (creating a tailor-made item), making it unique and meeting the wishes of customers and designers

CUSTOMIZATIONS

The Value of Identity

To add value to the identity of accommodation facilities, the cover plates can feature a specific logo provided by the customer, while the buttons and controls can be stylishly laser-engraved with icons and pictograms, with customisable RGB backlighting to identify an array of different functions

CONTROL DEVICES

Three Timeless Colours

The Eikon Exé cover plates can be completed with devices and electronic devices available in three different shades: White, Next and Anthracite Grey to create the perfect match. Thanks to the RGB LEDs, customers can also choose the colour of the backlighting

White

Next

Anthracite Grey

CONTROL DEVICES

High Performance, in Every Type

Silent rocker switches; flat, smooth axial switches; sensitive touch controls; wireless, battery-free radiofrequency controls, ideal for renovations; multitasking home automation switches. The technologies used to create the various types of switches always guarantee the highest of performances

Simplicity Gets Smart

The relationship which has always tied humans to their home is reinterpreted with simplicity and user-friendliness, to give rise to a smart building. Connected solutions with matching styling offer a total user experience that improves the quality of life, marked by energy efficiency, comfort and safety. View is all of this

SMART FUNCTIONS

Connectivity and Comfort

Connected solutions to boost comfort in the home environment.
Well-being on tap, activated by a single command

SMART FUNCTIONS

Safety and Energy Efficiency

Solutions that are high on performance and innovation to protect the user's spaces, optimise the energy produced on site and reduce the consumption of purchased energy

SMART FUNCTIONS

Full Range of Functions

Smart solutions for providing simple answers to the most varied requirements of modern living environments

INTERNATIONALITY

Universal Energy, International Standards

Eikon Exé meets the usage requirements of various countries thanks to an extensive range of devices in the most common international standards, distinguished by modular versatility that allows the flexible combination of the various functions
