Preserved moss creative designers

Sustainable.  
Natural.  
Unique.

# Specifications

## Certificates

- Fire resistant per DIN EN ISO 13501-1:2010-01
- Sound absorption rate 0.40 (H) per DIN EN ISO 354

## Sustainability Statement

Moss production is performed sustainably, carefully & environmentally friendly. Every step of the process is pure handwork and can be traced at any time.

## Declaration of harmlessness

Our preserved moss products are harmless to health. There is no bacteriological, virological, chemical or toxic contamination; preparation is carried out using purely vegetable means. Colouring is done by means of cosmetic dye, which is classified harmless according to Regulation (EC) No. 1272/2008 [CLP]

## Installation

Hanging on the wall with screw(s) & plug(s), either by provided hanging hook, keyhole opening or screwing directly through the backboard.

## Hypoallergenic

Does not contain any common allergens.

## Humidity Protection

Contact with extreme humidity levels (water spray, prolonged direct sunlight, heat sources) can wash out the preservative and should be avoided. The moss dries and becomes brittle when the relative humidity of the air falls below 40% and softens again when it rises above 40%

## Warranty

5-year warranty covers colour brilliancy and freshness of moss, any defects in materials and manufacturing.

## Maintenance / Cleaning

Preserved moss repels dust and is completely maintenance free.
