INVESTA.

The Investa Project was a speculative fit-out in collaboration with Scope Projects and Wool + Hay to revolutionise their workspace environment. The challenge was to integrate functionality, style, and versatility. The solution? A meticulously crafted office furniture fit out. Our Motion Round, Height Adjustable workstations were used, finished in Polytec Parchment with a Pebble Stone Grey Powder Coated Base allowing this innovative design to not only provide ample workspace but also ensure adaptability to varying ergonomic needs. Complementing this, our Vine Task Chair offers optimal comfort and support, while the Chloe Visitor Chair Swivel, upholstered in Warwick Hawthorn and Taupe, adds a touch of sophistication.

Moreover, the incorporation of a Drum Bar Height Round table in Polytec Parchment with a Dulux Electro-Aged Brass Kinetic Powder-Coated Base transformed communal spaces into vibrant hubs for collaboration and creativity. By blending functionality with aesthetic appeal, this tailored furniture ensemble not only enhanced productivity but also fostered a conducive environment for innovation and teamwork.

CARTIER GROUP.

In collaboration with PMG Group, we successfully addressed the challenge of creating a sophisticated and contemporary office space for Cartier Group by meticulously curating a selection of furniture pieces that seamlessly blended modern aesthetics with functional design elements.

Infinity Commercial Furniture was tasked with providing the product and installation of all office furniture. For the office areas, the Orbit Workstation in Laminex Raw Birch Ply and Black Powder Coated Base, paired with the Black Barrett Task Chair with Arms, provided both sleekness and ergonomic support. In the reception areas, the Coco Three-Seater Low Back Lounge, Dove Armchairs, and the Carrie Round Ottoman, all gathered around the Black Piper Round Coffee Table, creating a welcoming and visually striking ambience.

This meticulously curated selection of furniture not only exceeded Cartier Group's expectations but also encapsulated their brand essence, fostering creativity, productivity, and a sense of luxury within their new office fitout.

CHARTER HALL.

Infinity Commercial Furniture recently undertook a noteworthy project in partnership with Charter Hall, collaborating closely with acclaimed designer Glasgow Heart and esteemed builder Alpha Nobis. The primary objective was to craft a workspace that not only exuded comfort and functionality but also prioritised the optimisation of employee engagement and productivity. Situated in the vibrant locale of Homebush, the resulting office space is a testament to innovative design thinking and meticulous attention to detail.

To cater to the diverse needs of modern work styles, Infinity's Motion Round Height Adjustable desks were selected, providing employees with the flexibility to seamlessly transition between sitting and standing positions, thereby promoting well-being and vitality throughout the workday.

Additionally, we were able to create conducive meeting environments with our Xena meeting chairs, paired harmoniously with Envy and Drum meeting tables. These meticulously curated spaces not only embody elegance and sophistication but also serve as dynamic hubs for collaborative discussions and decision-making.
