Lime based plaster made in Italy

Non-toxic and environmentally friendly, our lime plasters are ideal for interiors and exteriors.

A breathable system, our lime plasters allow moisture to permeate freely so it can evaporate quickly.

The most amazing thing is the fact that by adding natural mineral powders to natural plaster, it's possible to create stunning effects, ranging from marble to concrete.

Choose your favourite color and enjoy the texture you prefer.

Let unfold the wings of your imagination .

Crazy stone

“Crazy Stone” is a wall covering plaster made from seasoned lime, marble powder of various sizes and natural minerals. It creates a smooth or coarse textures and it is the only Venetian Plaster worldwide that has the ability to cover minor imperfections in walls (scratches, dents and also poor stopping work in the plasterboard joints) with only a SINGLE COAT! “Crazy Stone” plaster is ideal where speed of application is needed, typical of any commercial job. A huge range of finishes are achievable including: polished stone, marble, aged stone, metal, industrial concrete, travertine, engraved stone, split stone, worn stone, rusted tin and many more, making this "liquid marble" the trendiest and most versatile Venetian Plaster ever. Excellent for professionals and great for beginners due to its easy application on all surfaces.

Concrete finish

Concrete Finish is an Italian product specifically designed from Advanced Spirito Libero to cope with New Zealand's weather conditions. Due to the easy application it's also saves time and labour. Concrete Finish is lime-based satin material (cement free) with a high concentration of marble powder which enables it to dry hard over time whilst maintaining the benefits from the slaked lime of mending itself which is ideal in case of capillarity.

Concrete Finish has been designed to deliver one of the highest yields in its field. In fact, just one bucket used inside on a flat/even surface can cover up to 14sqm (2 coats) and up to 28sqm (1 coat). Suitable for interior and exterior use. No need to add colour or mixing powder and mostly important there is no wastage of product as is typical of the powder/cement bags. It comes in a paste, already tinted (concrete) and therefore ready to apply!

Venetian Plaster

Marmorino Classic

Venetian Polished plaster is a blade-applied wall coating based on slaked lime putty finely filtered and seasoned for at least 6 months and on natural inert charges.

It's environmentally friendly formula and it is solvent free (0% VOC). Easy to apply, it has excellent filling power and resists aggression by moulds and bacteria.

Venetian Polished plaster is suitable for decorative indoor wall surfaces. Perfectly stable over time, it ensures outstanding breathability through surfaces thanks to its excellent permeability to water vapour. Venetian Polished plaster is offered in white colour.

Note: Italian Eco Style recommends that our entire range of lime based natural materials is used only by highly skilled or licensed tradespeople with extensive experience in this field.

It is the responsibility of the applicator to understand the application method and the procedure involved, in order to obtain a satisfactory outcome.

Italian Eco Style recommends that architects, builders and clients appoint only experienced applicators in the relevant lime-based materials to ensure they'll be able to deliver the same finish as per the sample shown.

As with any lime-based material this product may change the appearance over time due to the ageing process caused by weather conditions. To slow down this process the use of siloxane impregnating sealer is recommended over time.

Marmorino Classic is the ideal lime-based product for interiors and exteriors where an excellent filling power is required. Made from slaked lime putty, finely filtered and seasoned for at least 6 months, it produces a marble-like, semi-gloss finish.

Due to its thickness, it enables the application to obtain an even surface. Marmorino Classic is made in Italy using the best and original, centuries-old recipe giving the real look of an authentic subtle marble slab.

Marmorino Kitchen and Bathroom

Brushes

Create a wall to floor seamless finish to your project. Marmorino Resin is a specially designed product suitable for floors, steps, benches, walls, splashbacks and wherever high durability is needed.

It combines the ease of application typical of the Marmorino products with the durability of the two part resin. Great for bathrooms and suitable over underfloor heating.

It is a product that it can be compared to natural wood floor, and therefore it is intended for use in private areas that will not be subjected to heavy use. Please note that due to the complexity of such projects a qualified applicator is strongly recommended for this product.

All "feather touch" brushes have been crafted by using the latest technology in Europe.

The special extrusion method creates fine bristle to guarantee high elasticity and performance on every surface.

The " Feather Touch" technology allows smooth finishing reducing brush marks and enhancing flowing paint stroke.

It is one of the most durable and finest brush made in Italy.
