## Brushed Gold PVD

**Tone:** Warm gold

**Finish:** Satin brushed

**Care:** Clean it regularly with a damp soft cloth

Brushed Gold PVD finish combines both durability and style, making it a great choice for any interior or exterior setting, whether residential or commercial.

Solid forged brass is finished with a Physical Vapour Deposition process, where it is coated in a thin layer of hard-wearing metal, resulting in a scratch and corrosion resistant finish.

Its resistance to coastal and moisture-rich environments ensures a long-lasting finish that will withstand the elements. This finish is covered by a lifetime guarantee against corrosion.
