

WINE STORAGE SOLUTIONS

Who is **KingsBottle**?

Kingsbottle embodies a brand that seamlessly merges superior craftsmanship with a friendly, approachable style. Our products reflect meticulous attention to detail, ensuring both functionality and elegance. Beyond just premium quality, we prioritize thoughtful design that resonates with the needs and aspirations of our customers. At the heart of Kingsbottle lies a deep commitment to humanistic care, offering real value and considering the holistic satisfaction of every individual we serve.

At KingsBottle, we prioritise our customers' needs and believe that our products should seamlessly integrate into their lives. Understanding the wide array of choices available, we are committed to designing not only aesthetically pleasing and high-quality products but also ensuring they meet practical needs. Each KingsBottle product is crafted with careful consideration of functionality and user experience, ensuring reliability, efficiency and ease of use. This dedication to customer satisfaction is at the core of our innovation and design process.

Why **Refrigerate** with KingsBottle?

...tips your wine will love

LIGHT

UV rays can cause chemical reactions in wine, leading to premature aging. Use a wine fridge with UV-protected glass or store bottles in a dark place.

TEMPERATURE

Maintain a consistent temperature between (7°C to 18°C) to ensure proper aging and prevent spoilage. Fluctuations in temperature can cause the liquid to expand and contract, potentially damaging the cork and letting air in.

HUMIDITY

Ensure humidity levels are between 50% to 70% to keep corks from drying out and shrinking. This prevents air from entering the bottle and oxidizing the wine, which can spoil its taste and quality.

AIR POLUTION

Keep wine away from strong odors and pollutants, as wines can absorb external smells through the cork. Store bottles in a clean, odor-free environment to maintain their original flavor profile.

<u> Wine Fridges</u>

For over 20 years, KingsBottle has mastered the art of wine refrigeration, creating the perfect environment to preserve your collection. Wine requires stable temperatures, minimal vibration, and quiet, dark spaces, conditions once only achievable in a countryside cellar. Today, KingsBottle brings these ideal

conditions into your home, no matter where you live. Our innovative designs offer flexibility for any collection. If you prefer to store all your wine at a single temperature, a single-zone fridge is perfect for preserving your bottles over time. For those who enjoy having wines ready to serve at their ideal drinking temperatures,

a dual-zone fridge allows you to store reds and whites separately, each at their optimal temperature.

KingsBottle blends convenience, tradition and cutting-edge technology to ensure your wine is always at its best, whether it's for long-term storage or immediate enjoyment.

Wine Racking

At KingsBottle, we believe wine storage is more than just an efficient way to store your wine; it's about preserving experiences and passions. Each bottle carries memories of past trips, shared moments with friends, or the anticipation of future celebrations. Whether you're relaxing after a long week or hosting a gathering of friends with a great meal, your wine deserves to be treated with the utmost care. We understand that each bottle carries its own story, and our racks are crafted to honour those stories, preserving the essence of each wine for its occasion.

Catering to a variety of aesthetics from LED acrylics to elegant floor-to-ceiling displays. Whether you are housing a private collection in a dedicated wine room or showcasing a special selection on a dining room wall like art, our range fits seamlessly into your space and enhances its appeal.

Our wine racking solutions are divided into five distinct collections:

- Wine Cubes
- · Timber Wine
- Wall Mounted
- · Wine Peg
- · Floor to Ceiling

Each offers unique characteristics to suit diverse styles and needs. Whether installing below a stairwell, along a wall, inside an alcove, or as a room divider, KingsBottle's range fits seamlessly into any space.

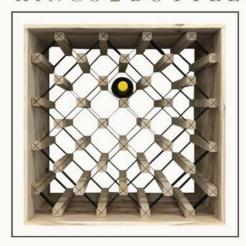

We have an expert team to assist with your design choices, ensuring your wine is stored both beautifully and practically.

Wine Cube Collection

The KingsBottle Wine Cubes are our most efficient and versatile modular collection. We have refined a classic design with thoughtful, incremental changes to enhance durability, stability, and aesthetics, ensuring that our Wine Cubes deliver on all fronts. Whether you're designing a compact storage solution or an expansive wine display, our Wine Cubes offer unparalleled flexibility and style. Their modular nature allows for endless configurations, making them perfect for any space or layout.

DIAMOND CUBE

Ideal for storing a wide selection of individual bottles with a stylish and minimalist aesthetic. Its thin connectors create a floating appearance, adding a modern and elegant touch to your wine display while keeping each bottle securely in place

LATTICE CUBE

Ideal for showcasing single bottles, the Lattice Cube offers easy access, making it perfect for a diverse wine collection. This design allows you to display each bottle individually, providing a stylish and organised solution for wine enthusiasts with a wide range of wines.

WWW.KINGSBOTTLE.COM.AU

CROSS CUBE

Perfect for the volume collector, the Cross Cube provides an efficient solution for storing multiple bottles of the same wine.

DISPLAY CUBE

Perfect for showcasing your special bottles, adding a standout feature to your Wine Cube arrangement. It highlights your most prized wines, creating a striking and eye-catching display within your collection.

HALF DISPLAY CUBE

Create a striking centerpiece in the middle of your Cube display. Perfect for highlighting your favorite bottles, these cubes add an eye-catching feature to showcase the wines that deserve special attention

BOX CUBE

Ideal for mixed storage, allowing for upright bottle placement, accommodating larger bottles, or storing wine crates. This versatile design provides flexible options for organizing a variety of wine storage needs within your collection

HALF BOX CUBE

Let your mix-and-match inspiration soar with the Half Box Cube. Use it upright to display a potted plant or horizontally to organize your wine book collection. Versatile and stylish, two Half Box Cubes combine to form a full Cube, offering endless possibilities for creative storage solutions.

CORNER CUBE

A must-have for extending your wine racking seamlessly around corners. Designed to integrate perfectly with all other KingsBottle Wine Cubes

Wine Peg Collection

Introducing the Wine Peg Collection—the ultimate in versatility for wine storage. Whether installed beneath stairs, in a cupboard, on a feature wall, or on a custom timber display, this collection caters to most design needs. From holding a single bottle to accommodating thousands, it's perfect for both small and large collections. By combining cork-facing and label-facing pegs, you can create stunning feature displays, ideal for showcasing special bottles in style.

THE PEG BOARD

The Peg Board, designed to fit seamlessly together, is a great option for replacing a piece of art on the wall, adding both function and aesthetic appeal to any space.

MONO PEGS CORK FACING

The Mono Pegs Cork Facing are perfect for higher-volume storage, with each peg shared by two bottles. In this collection the Mono Peg itself plays a visual role in the display due to its larger diameter

DUO PEGS CORK FACING

The Duo Peg Cork Facing is ideal for creating feature displays with light. Each bottle has its own set of pegs, allowing for larger gaps between bottles and enabling light to pass through for maximum visual impact.

LABEL FACING PEGS

The Label Facing Pegs are similar to the Duo Peg in that you can create space between the rows of bottles vertically for light. Being Label Facing this is the ideal Wine Peg to feature special bottles of wine.

Floor-to-Ceiling Collection

Introducing our Floor-to-Ceiling Collections, a sophisticated display family designed to make a bold statement. Perfect for various spaces, whether along long walls, in alcoves, or as room dividers, these free-standing displays offer flexibility with lighting, creating dynamic and impactful feature presentations. Elevate your space with our most refined collection yet.

WINE PEG

Floor to Ceiling Mounted Wine Peg (Single or Double Sided) is a top choice for its versatility, whether freestanding by a wall or used as a room divider with the double-sided option. Available in 1, 2, or 3 bottle lengths, it enhances capacity and fills spaces effectively. Add downlights or uplights to create a striking feature display.

LUXURY

Luxurious Floor to Ceiling
display is a versatile, multi-purpose
solution, offering options for a range
of displays. From volume bottles to
shelves for books, upright bottles like
whiskey, and even a cigar box option,
it covers all your needs. Its LED
lighting adds a beautiful highlight for
any collection on display

ACRYLIC LED

The Acrylic LED Display is a sophisticated feature display, that not only efficiently stores volumes of wine, it is a showcase of light and design, with its full colour spectrum RGB LED system, controlled by personal remote.

Wall Mounted Collection

The Wall-Mounted Collection features our C-Type, H-Type, and Peg Rail displays. Due to their varying lengths, this collection is ideal for those awkward spaces, like under the stairs, above a kitchen countertop, or simply stacked on a feature wall. These displays are designed to showcase wine labels facing outwards, making them perfect for spotlighting with a downlight offset from the front. By allowing some additional space between each row, light can filter through from the ceiling to the floor, creating a beautiful, cascading effect.

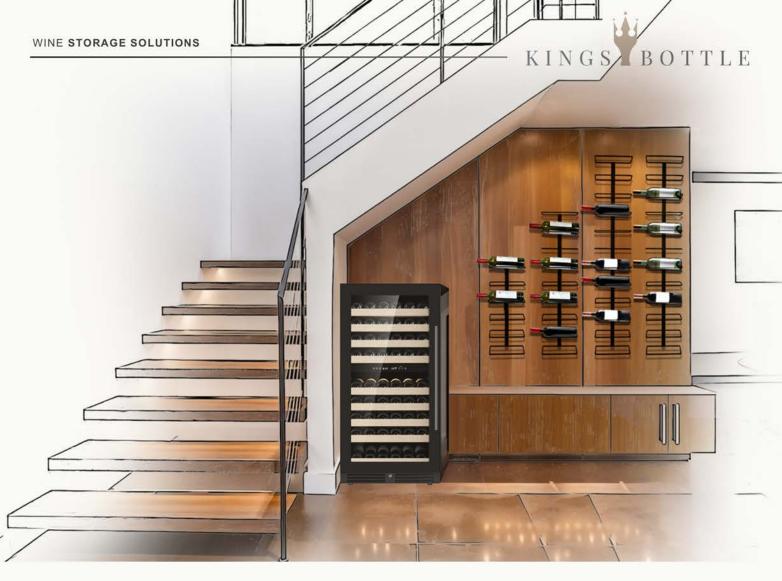

This setup is ideal for top-down lighting using ultra-low UV LED lights, which protect the wine while highlighting its beauty.

THE H-TYPE

With larger spacing between bottles allowing for a sophisticated minimalist aesthetic, this system is fully stackable, making it ideal for most spaces.

THE C-TYPE

With its offset bottle cradle, the C Type offers a beautiful volume aesthetic, accentuated by its 1,2 or 3 bottle depth. this system is fully stackable, making it ideal for larger collection or event upmarket Restaurants, Bars or Hotels

WINE PEG RAIL

Offering clean sophisticated look for a volume display. Available in 1,2 or 3 bottle depth. The Wine Pegs come with soft touch O-Rings for a premium experience with bottle and steel dont touch. this system is fully stackable, making it ideal for most spaces.

DISPLAY

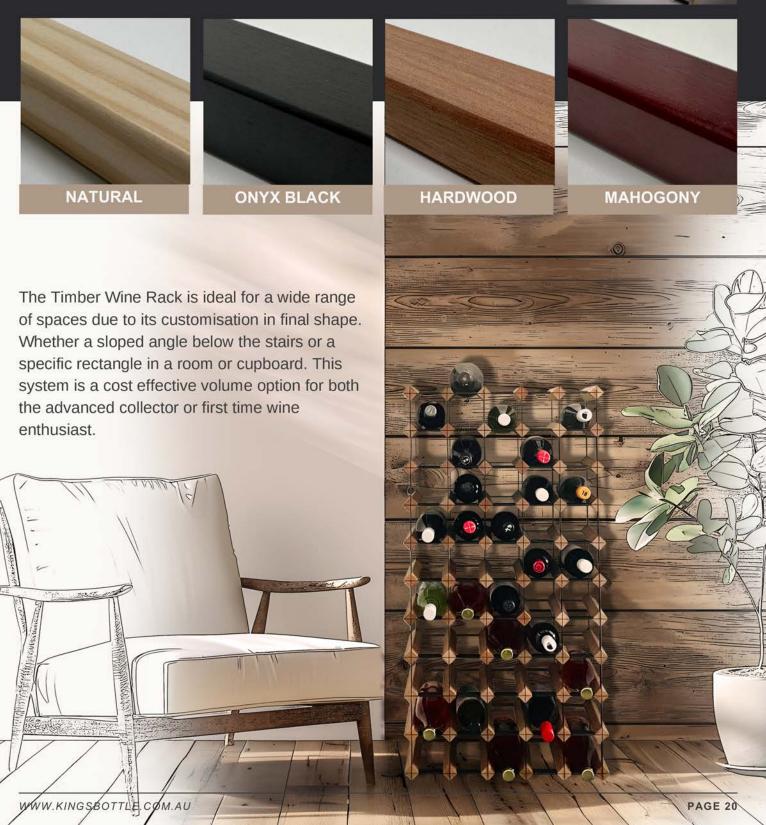

The Wall Mounted Display is ideal to showcase those special bottles and it is compatible with our C-Type and H-Type displays. This unique feature allows designers to seamlessly combine these racks, creating a cohesive and visually stunning wine storage solution

Timber Wine Rack Collection

The Timber Wine Rack Collection offers a beautifully scalable solution, from a 12-bottle display on a kitchen counter to thousands in a custom cellar. Available in various timber finishes, from Natural to Onyx Black, Hardwood, or Mahogany stain. You can also stain the natural wood to match your design vision. Ideal for below stairs or cupboard cavities, this collection can expand as your wine collection grows.
