

Modern living  
in spacious  
Woollahra home

The interior of this free-standing home in the exclusive Sydney suburb of Woollahra was completely demolished and reconstructed. Joinery was created for the kitchen, home office, bedrooms, bathrooms and stairwell. The modern joinery was constructed using European oak veneer to match the floorboards and two-pack polyurethane finish. Custom-designed HBH Joinery handles were used throughout the kitchen and home office.
