## NEW AGE.

*Goman proposes a new bathroom furniture concept, which is the result of a search for comfort and accessibility. Bathroom becomes "easy" for a diversified use that aims to be easy on the users. For those who need special colours and are looking not only for a comfortable bathroom furniture, but also versatile and elegant, New Age collection, with integrated pull-out chair, is the best choice for the whole family. A single stylish furniture, usable by anyone, from children to adults, suitable to disable people.*

**NEW AGE 01**

Go man®

## **ELAGANCE**

*Thanks to the large drawer at the chair base and to the wheels very easy to move, the New Age furniture is practical and functional, giving elegance to any ambience.*

NEW AGE 02

**COMFORT & ADAPTABILITY**

*The New Age furniture is adaptable in any context, even in bathrooms which are equipped for people with reduced mobility.*

**NEW AGE 02**

**NEW AGE 03**

**Go**man®

**SPACIAL DESIGN**

*The 60 cm collection, with pull-out chair, seems to be tailor made for extremely small bathrooms and is always elegant and comfortable.*

## CONSIDERED DESIGN

*Each element is studied and designed to have optimal ergonomic and technical performances. Its high quality details make it a fine and comfortable element. An optional handle for chair and drawers is available for those who want to have a better grip.*

**YOUR COLOUR,  
YOUR BATHROOM**

*Taking advantage of the wide range of finishes and colours, you can customize any room with elegance and style.*

Dark walnut

**TECHNICAL DETAILS**

A melamine wood particle panel on a E1 / V70 class poplar chipboard base with polyurethane edging. A specific manufacturing process allows the surface to feel smooth and polished, while still looking distinctly tridimensional. Light reflexes emphasize its dynamic features, the natural look of wood grains and the interplay of touch and sight. A technologically advanced product, the result of sophisticated research and development, of a handcraft care for detail and an industrial evolution in high tech, the ideal component for the most demanding requirements in design.

**LACQUERED TECHNICAL DETAILS**

The lacquered version is made of Medium Density Fiber board. The lacquered version is available in all of the colours of BMT colour chart. The mat lacquering is done using polyurethane paint, while for glossy and metallic lacquering or the well-established method of not directly applying the glossy paint is used, rather, after applying the mat lacquer, two layers of clear glossy paint are applied and then brushed. In this way, the surface hardness increases, creating a special insulation and giving the furniture an extremely shiny appearance. For interior lacquered in the same color increase 15%.

**FASCIA 2: LACCATI OPACO** • painted matt •  
**FASCIA 3: LACCATI LUCIDO** • painted glossy
