

SMART SOLUTIONS

Any home can become a smart home, whether you are building new, renovating or if you simply want to connect all of the technology you already have in your home. It is often the simple conveniences that can bring the most significant benefits.

Technology has revolutionised our world and is integral to many aspects of our life. The pace of technological advancement and the array of innovative products can be over-whelming but they are all designed to make your life easier. Automation is the smart way of operating all of your technology under a single system; giving you simple control and a personalised experience.

Entirely customised to the needs of your home or business, our systems are built with the future in mind; designed to evolve and scale as the requirements of your work or lifestyle do too. You can start with a single room and then grow your system over time.

ARE YOU READY TO BE IN CONTROL?

Imagine if your home managed itself. Your lights knew when to turn on and off. Your doors lock as you leave. Your heater warms the house as you head home from work.

From the time you wake up until the time you go to sleep, you're taken care of at every turn; and from your smartphone or tablet you can command virtually any system and device, from anywhere, at any time.

These are just some of the possibilities with a Control4® Smart Home.

- Stream music or video from any source
- Power up the PlayStation
- Integrate Netflix, Apple TV, Spotify and more
- Play different music in different rooms

- Dim and raise the lights
- Use motion sensors for 'hands free' lighting
- Lights turn on as the sun goes down
- Lights shut off when the room is empty

- Programme your favourite temperature setting
- Set the temperature in your spa
- Raise or lower window shades automatically
- Automate garden sprinklers

- Lock every door/set the alarm with one touch
- View video from security cameras
- Get a text when the system senses trouble
- Check on the kids from anywhere

WHAT'S IMPORTANT TO YOU?

Life gets busy — but when your home technology is connected into one simple-to-use system, it helps take away some of those daily little stresses. A true smart home makes your life more convenient and your home safer, more comfortable, and easy to enjoy. Simply choose what's most important to you, making your home uniquely your own.

TV & HOME THEATRE

Choose professional installation of your TV, to complement the aesthetics of your beautiful new home.

Hassle free set-up and connection of your TV and AV equipment. Discover the options for creating your ultimate home theatre set up.

WIRELESS NETWORK

Get the most out of your high-speed fibre broadband and embrace superior wireless performance.

Enjoy uninterrupted video and audio streaming and meet the performance demands of a smart home and modern living.

HOME AUTOMATION

Enable all of your devices to work together with a single remote or touch screen.

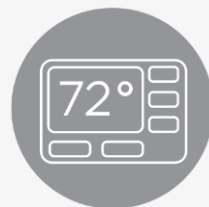

Working behind the scenes and blending seamlessly into your environment, an automation controller acts as the 'brain' for your home.

MULTI ROOM AUDIO

Imagine listening to pristine music throughout your home, streaming from your favourite service.

Enjoy great-sounding music at home with superior amplifiers and speakers engineered to deliver exceptional sound in one or more rooms.

HOME COMFORT

Take control of your home environment and deliver the right level of comfort in the easiest way.

Integrate air-con, automate your window blinds and program your entire home for maximum convenience and simplicity.

HOME SECURITY

Provide extraordinary peace of mind that your home and family is safe and secure with smart protection.

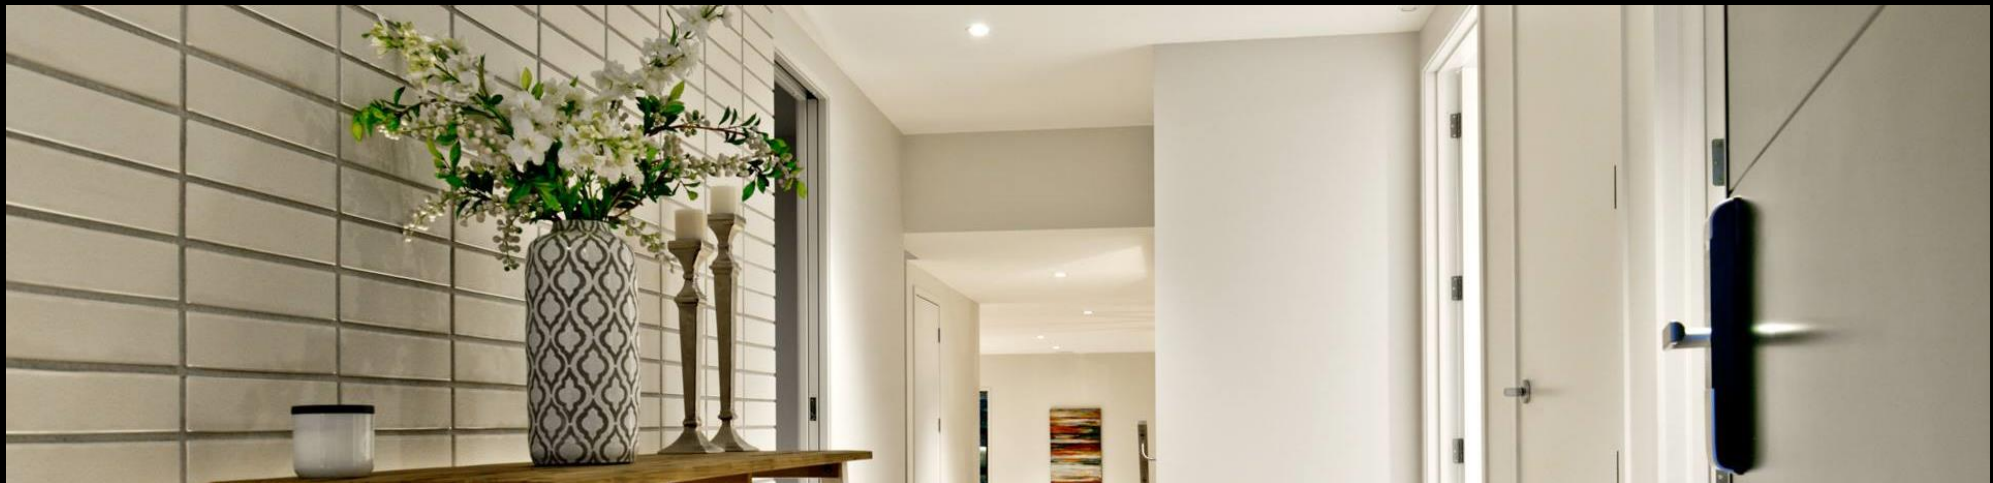

A smart external door lock can be opened with a code, key or remotely and integrated with a security alarm and camera system.

SMART LIGHTING

Create ambience with your lighting. Easily raise or dim lights in one room or your entire home.

Transform a standard light switch into a customisable keypad which complements your stunning fixtures and easily controls other technology.

1 TV INSTALL

Have your TV wall-mounted professionally to match the exacting standards of your home.

For a seamless and easy experience that results in a quality installation of your TV; with hidden cabling, connection and set-up to your devices, TV services and the internet.

If you're a movie buff, love watching live sport or just want a great space for the kids; talk to us about creating the ultimate home theatre set up.

2 SMART START

Are you ready to take the first step towards making your home smart?

With a single remote or your phone, you can control your TV and everything in your media cabinet.

The Control4 EA-1 starter bundle provides the foundation to build your automation system.

Control or add other devices now or when you are ready to expand. Start in any room, end with a fully automated home.

From

\$1,950 +GST

3 AUDIO

Indulge yourself with an exceptional listening experience at home. You can choose to have high-resolution music in one room or every room, easily accessing music from your favourite streaming services.

We have created a package for one zone of stunning high-definition audio; including a handcrafted soundbar and high-resolution amplifier for pristine music and TV sound connection that will take your movie experience to a new level.

From

\$2,100 +GST

4 CUSTOMISE

It is easy to add extra components to customise and simplify your home, your way. Add smart switches, shade control, thermostats or a security system; with fully integrated solutions to maximise your comfort, convenience and peace of mind.

Smart living can be personalised for any size home or budget. Prioritise what's important to you or design the ultimate smart home, the possibilities are only limited by your imagination.
