

Opulent terrace
home in Woollahra

This traditional Colonial terrace home renovation spared no expense. The result is a home that exemplifies luxury – from the brass rangehood cover and the solid brass handles, to the marble and stainless-steel bench-tops, and the custom-built rolling ladder that was designed specifically for the kitchen. Joinery was created for the kitchen, bathrooms, bedrooms and the office. Unique joinery features in this home include the colour-matching of veneer to existing joinery, rebated wallpaper finish on wardrobes in the bedroom, and integration of brass elements and a custom-designed rolling ladder.
