

Build Unlimited Guarantee

Your Peace of Mind During Your Build

CLEAN AND TIDY SITE

Build Unlimited takes health and safety seriously. We believe that a clean and tidy site is a safe site. We ensure there is a skip bin onsite for all trades, who are expected to clean up after themselves every day.

PROFESIONAL HAND OVER CLEAN

We complete a full project hand over clean using a professional cleaning company prior to handing you the keys to your dream home, one less thing for you to worry about and allows you to move into your new clean home, ready to get on with more important things.

LIVEABLE RENOVATIONS

We understand our clients will often be living in their home while work is happening. We have systems in place to separate the work space from your living space as well as dust barriers to ensure your renovation is dust free and as liveable as possible.

QUALITY CONTROL

We follow a 280+ Point quality control checklist that we have developed. Covering every detail from foundations, framing right down to ensuring power points and switches are all the same height. This ensures that your home is completed to the highest possible standards.

CONSTANT COMMUNICATION AND INSTANT PROJECT UPDATES

We believe client involvement is important throughout the project and communication is an important part of this. We also provide you with a client portal, where you can login and view all the important information about your project, providing you with updates at the click of a button.

PROJECT MANAGEMENT

Build Unlimited provides full project management for all our projects, from initial concepting to your finished home. This ensures everything runs smoothly and stress free for our clients, like you.

NZCB HALO 10-YEAR RESIDENTIAL GUARANTEE

Exclusive to NZCB members, we automatically include the Halo Guarantee with all qualifying projects, this gives you an additional peace of mind that you are in safe hands and your investment is protected for years to come.
