### All-In-One Infrared Heating

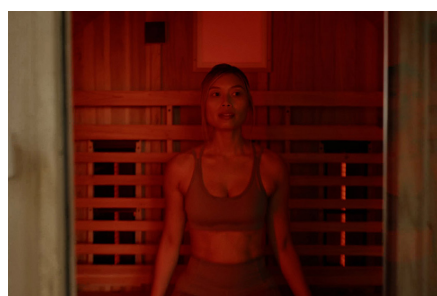

The Outdoor Barrel Infrared Sauna uses

- 5x Full spectrum heaters emitting 2100 watts of full spectrum infrared - near, mid and far infrared light 650m - 10,000m.
- 4x Carbon heaters emitting 1060 watts of far infrared light 7,000 - 10,000nm.

### Made For The Outdoors

The Outdoor Barrel is constructed from 32mm Japanese cedar wood staves. The barrel is weatherproofed with shingle roofing tiles and an 8mm toughened glass door.

### Meticulously Designed & Crafted

The Found--Space Outdoor Barrel combines rustic, traditional looks with modern infrared technology. Whether it's installed by the pool, on a terrace or in a garden setting, it will become a focal point of your health routine.
