

Premier Bondi
sanctuary

This free-standing home is located in the exclusive Sydney suburb of Bondi. The joinery was made to create a modern beach chic feel. Joinery was created for the kitchen, living area, bedroom and ensuite. The joinery was designed to create even more openness in this open-plan home. The style was created using two-pack polyurethane finish and Carrara marble. Custom-designed HBH Joinery handles were used in the kitchen and living area.
