BATHROOMS

WARDROBES

TILES

Vol 2

Showerwell Home Products are designed and manufactured for New Zealand homes with style, quality and performance in mind.

At Showerwell, we provide a broad range of quality solutions for showers, bathrooms, wardrobes and tiles. We also offer installation services and have showrooms throughout Auckland plus Hamilton, Tauranga, Wellington, Christchurch and Queenstown.

Showerwell is a NZ owned business operating for over 35 years manufacturing locally and installing showers and wardrobes for Kiwi homes.

# TILE SAFE SHOWER SYSTEM

Showerwell designed the Tile Safe Shower System so you can get all the waterproofing safety of an acrylic shower but with the premium look of a stylish tiled shower.

In the 12 years of we've been installing Showerwell's Tile Safe System, not one has experienced any leaks. With a completely sealed shower system behind your choice of tiles, Showerwell have designed this robust system supported with a 15-year durability guarantee\*.

To be installed by trained and authorised Tile Safe installers only  
\*Guarantee conditions apply

**Complete the system with your choice of Showerwell shower door, tapware and accessories.**

## TILE SAFE COMPONENTS

### Tile Safe Shower Liner

Robust Tile Safe shower liners are sealed securely behind the tiles down inside the Tile Safe tray to ensure any moisture making it through the tiles will be directed safely down to the waste.

Showerwell shower doors are also part of the Tile Safe system to ensure a completely sealed and safe shower enclosure to last for many years to come.

### Niches

Keep your shower tidy and organised with a tile-over shower niche to hold accessories.

A single-piece, recessed niche unit that's watertight, giving you the Tile Safe peace of mind.

### Tile Safe Drain Cover

Tile Safe Shower drain covers are reversible, providing the option for a stainless steel plate or insert a tile for a seamless finish. This drain cover is also height adjustable to compensate for various tile thicknesses.

Components not available separately

### Tile Safe Shower Tray

Showerwell's Tile Safe System utilises the latest technology to produce high-quality, high-performance tile-over shower trays and waste systems. Each Tile Safe tray is designed and manufactured to safely hold water and is tank tested in our factory prior to dispatch.

Tile Safe Showers are available in square, rectangular and a 45° corner option.

- Standard sizes:
- 900mm x 900mm
  - 1000mm X 1000mm
  - 1000mm X 1000mm - 45°
  - 1200mm X 900mm
  - 1400mm X 1000mm
  - 1600mm x 1000mm
  - 1800mm x 1000mm
  - 2000mm x 1000mm

Also shown: GLX Vanity Top | Geo Basin Mixer

Showerwell Quartz motion activated LED mirror cabinets offer a great space-saving storage solution with modern designer built-in lighting. The LED side lights offer energy efficiency and a soft, diffused light that's great for makeup application. Additional LEDs along the bottom of the cabinet add a cool glow for your vanity top. All the lighting is motion activated so you don't have to turn on bright overhead lights at night and for safety with wet hands.

This wall-mounted cabinet should be hard-wired by an electrician.

## INFINITY BATHROOM LINE

If a walk-in, level entry, tiled shower is what you're looking for, then Showerwell can assist with the Infinity Line. These products must be installed by a professional tiler. Infinity tile-over shower trays are made of environmentally friendly XPS foam board coated with a pre-waterproofing for added strength and performance. They easily form a walk-in shower tray which falls towards the drainage area, saving labour costs. These high-quality trays are available with several configurations such as centre waste, linear waste, or wedge sloped shape which will fall into a full-length linear waste. Add a hob to ensure absolute water catchment if desired. Ensure the perfect fall, look and performance with this range.

NICHES are also available in a range of sizes from small to large, adding an elegant finish to any shower. Designed for the NZ market, they are lightweight, easy to work with and feature a natural fall on the bottom sill to ensure essential water drainage.

Showers, baths, vanities, mirrors, tapware, toilets, wardrobe doors, shelving and tiles. All our products are designed with quality, performance and function in mind.
