

Sun-filled
apartment nestled
in Queens Park

This two-bedroom apartment in the heart of Queens Park was renovated in a modern Shaker style. Joinery was created for the kitchen, living room, bedrooms and bathroom. The style was created using European oak veneer, marble and two-pack polyurethane finish. Shaker style invisible handles were created for the kitchen. Unique joinery features in this apartment include rebated wallpaper finish on the wardrobes in the bedrooms, drawers built into Carrara marble in the ensuite, and the curved European oak veneer island in the kitchen.
