VIOLET

Minimal separation way for exteriors...

Violet is a glass balustrade system that can be applied in various application areas with its modern and minimalistic design. System provides the simplicity and elegance demanded by today's world at the same time and creates an effective solution with its straight lines. It is both a safety barrier and protects your living space against wind and various other elements.

When the clean lines of the glass balustrade match with the modern finish it will enable you to have experience of the glass elegance by providing the optimum result as an architectural solution.

Thanks to its transparent appearance, it does not create an obstacle between inside and outside and protects you against external influences with its strong protection effect.

Multiple modules that come side by side with sandwich panel structure and optional handrail preference give you the choice to cover a wider area. With a maximum width of 6 m and a height of 1 m, it can be used comfortably in many different areas such as balcony, terrace, pool side, patio, garden, restaurant and cafe.

Violet is an ideal option for structural glass solutions that creates no obstruction insight through a space with a minimal contemporary finish throughout for use as frameless balustrades.

The stylish lighting solution that can be integrated into the system creates distinguished features.

It enables you to design a minimal, aesthetically neat and functional glass barrier between levels with no visible fixings.

Led Stripe Dimmer Lighting illuminates all around the system and creates a warm atmosphere. Dimmable Soft Led Stripe lighting on sides within the structure provides intensity of day light or cool white options.

■ Led Stripe Dimmer Lighting

Installation & Base Options

Compact & Easy Assembly

The system reaches its compact outlook with simple and quick installation steps.

Smooth Edge Connection

Clean appearance in the corner points.
