

WARRANTY STATEMENT

Resourceful Living warrants that products supplied by it to you will be free of any manufacturing or raw material defects that significantly or adversely affect the ordinary or intended use of the product, under normal and proper conditions during the warranty period.

Any product deemed defective by Resourceful Living under normal use conditions, will be either repaired or replaced at Resourceful Living's discretion. If any condition or Warranty is implied in this agreement, it is limited to the following;

- Replacement of Goods
- Supply of Equivalent Goods
- Repair of Goods
- Payment of the cost of replacing the Goods
- Payment of the cost of having the Goods Repaired

Resourceful Living was established to convert Waste Plastic into useable and functional products. As such the nature of the input material being 100% Recycled Plastic, it inherently has high variability. Working with a material that is exceedingly complex can affect the efficiency of our machinery at times, leading to results that cannot be controlled.

This warranty is in addition to and does not detract from any statutory rights which may not be lawfully excluded.

Unless Otherwise stated in communication between Resourceful Living, Resourceful Living will not be responsible for the repair or replacement of damaged goods/products when the following arises;

- The defects have not come from faulty materials or workmanship.
- The goods have been damaged during transportation or mistreatment.
- Products not manufactured or approved by Resourceful Living being used with the goods.

As specified in this and all warranty statements, we are not responsible for physical or financial injury, loss or damage, or for significant loss or damage of any kind coming out of the application, supply, layout, assembly, installation or operation of the goods, except to the level that this loss or liability is directly caused by our neglect or fault.

Warranty General Information

Warranty Periods:

Tables: 5 Years.

Chairs: 5 Years.

Other General Products: 1 Year.

Input Material:

Post-Consumer Waste Plastic

Surface Finish:

Surface Finish will not have any major defects.

Size:

Sizes are dependent upon the batch of plastic waste utilised. Shrinkage during the process is not consistent and can vary by $\pm 2.5\%$.

Colour:

Colours are dependent upon the batch of plastic waste utilised. Colour variation occurs within batches and from batch to batch. For Example A Solid Black product when supplied in large quantities will have slight shade variations of the colour Black. Patterned products that utilise multiple colours will always be unique per product but fall within the same family of that patterned colour.

Finish:

Products produced are 100% recycled and will never look like the virgin material. Clients should expect the finished product to have some minor flaws compared to that of a new plastic product.

Air Holes or Bubbles:

Small bubbles/voids can occur when utilising recycled plastic and differs dependent upon the plastic input. These small bubbles result in aesthetic variances and do not affect the strength of the product.
