Matte Grey

CARE AND USE

TAPWARE

All finishes are smooth, abrasion resistant, corrosion resistant, fade-proof and easy to clean. All finishes are super hard wearing surfaces that won't chip, peel or tarnish with normal use. All surfaces should be regularly wiped clean with non scouring, neutral wash solutions.

Never use an abrasive cleaner.

ACRYLIC BATHS

The glossy/matte acrylic finish should be regularly wiped clean with non scouring, neutral wash solutions. Avoid abrasive cleaners or use mild abrasives sparingly if absolutely necessary.

STONE RESIN BASINS AND BATHS

The gloss finish on these products is a generous layer of 'gel-coat' which should be regularly wiped clean with non scouring, neutral wash solutions. Lost luster can be returned using a similar range of products you might use to polish a car paint job. For severe scratching start with a cutting compound and only use wet and dry sand papers if absolutely necessary beginning with 1000 grit or 800 grit if required. Rub only very lightly with plenty of water to avoid scratching or penetrating the gel-coat surface layer.

The matte finish on these products should be regularly wiped clean with non scouring, neutral wash solutions or a mild abrasive as required. For severe scratching use wet and dry sand papers beginning with 1000 grit or 800 grit if required. Rub only very lightly with plenty of water to avoid scratching.

CABINETS

Wood veneers, laminates or lacquered finishes should be regularly wiped clean with non scouring, neutral wash solutions. Never use an abrasive cleaner or petroleum based products.

MIRRORS

For best results use a moistened microfibre cloth to remove dry dirt or grime, followed by cleaning with a dry microfibre cloth. Avoid using alkaline (ammonia) or acid (vinegar) based products you not only risk damaging the silvered backing of the mirror, but also tend to leave behind streaks and smears.

TOILETS

Vitreous china finishes are best cleaned with cream or mild abrasive toilet specific cleaners. Do not use harsh abrasives on the toilet seat surfaces.

LIMITED PRODUCT WARRANTIES

To be read in conjunction with and subject to all terms and conditions contained in the Waterware 'Producer Statement' available on-line (<http://www.waterware.co.nz>)

From date of purchase, Waterware Services warrants products from the following categories to be free from manufacturing defect subject to the exclusions listed below:

Basins	5 years parts and labour	1 year parts and labour	

A gold shower head is mounted on a wall with a rusted, industrial-style metal texture. The shower head is sleek and modern, with a textured gold ring at the top. The background is a dark, patterned surface with intricate, swirling designs.

WATERWARE 2020
BATHROOMS

designed with you in mind

A MESSAGE FROM THE TEAM

Waterware is a family business established in 1989 by Grey and Ellie Yearsley. We are a New Zealand owned and operated enterprise. Starting life with a small collection of tapware sourced from Italy and Israel, we have over the last 30 years, grown and expanded to include a collection of contemporary bathroom products, all carefully selected for their enduring qualities, clever design and innovation, while looking to offer outstanding value for money, technical backup and service.

Waterware have built strong relationships with like-minded suppliers, many of whom we still collaborate with today. Exclusive partnerships with our suppliers has meant we can work closely with each brand to curate products for the discerning and increasingly design-led New Zealand market, presenting unique designs, materials and finishes. Together with our own Tune collection, every item distributed by Waterware represents the same passion for quality and an uncompromising approach to design and innovation.

Our ultimate goal is to source product that shows our love for design while making luxury affordable for the New Zealand consumer. We believe in staying ahead of trends, to research, innovate, and bring our customers the best we can possibly offer.

This latest release catalogue features a new series of vessel bowls and furniture from i-Stone, Metal bowls from Verotti, and a new colour for the Liberty tapware range. We are also excited to be introducing our Smith family of baths featuring the new matte acrylic finish, and reflecting the passion with our new mirror cabinet models.

Keeping in touch - obsessed with design, style, enduring quality and creativity - join our inner circle.

walk the TORQUE

When developing this compact shower mixer and diverter duo, the underlying premise was to create something a little bit different, something that would fit into other tapware ranges adding a bespoke look. The technology built into this mixer includes a progressive cartridge, which allowed us to step away from the traditional lever handle and add the element of texture with a knurled dial detail, adding its push button on/off function makes it easy and quick to use. Just dial to set your favourite showering temperature - using the on/off function button to operate. We love the idea of layering shapes, finishes and colours, so with that in mind the Torque has two faceplate options and is available in three colour finishes.

THE TORQUE SHOWER MIXER | MATTE BLACK, BRUSHED STAINLESS & CHROME

THE TORQUE DIVERTOR | MATTE BLACK, BRUSHED STAINLESS & CHROME

ALSO AVAILABLE WITH SQUARE FACEPLATES

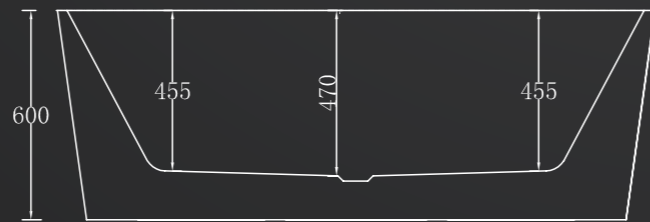

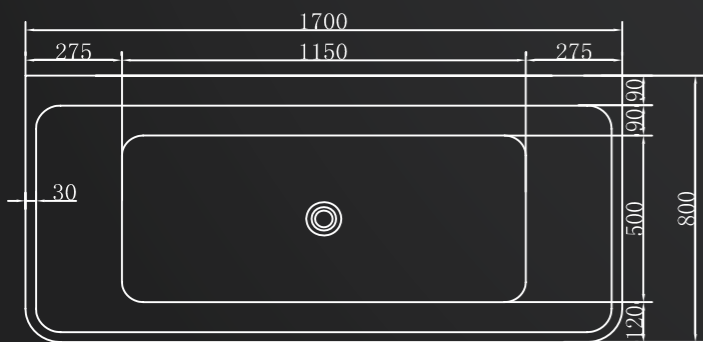

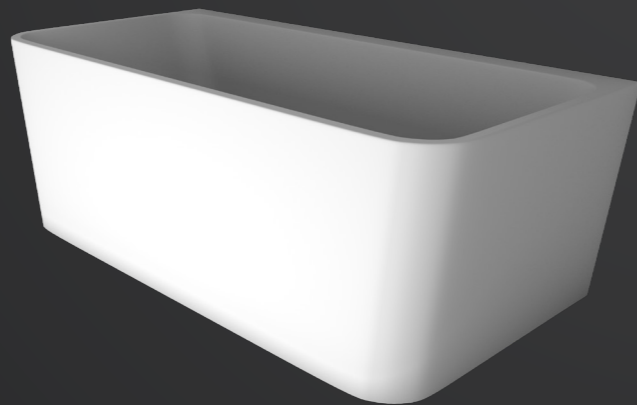

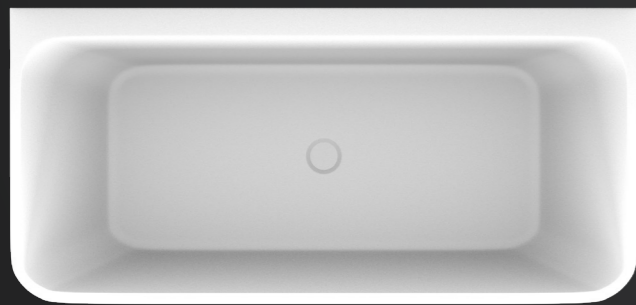

meet the SMITH'S

A family of four acrylic baths offering a familial aesthetic. Finding the right style and fit can be a challenge but not with the Smith family by Waterware. With free standing, back to wall or corner baths in a range of popular sizes. We have worked in collaboration with our suppliers to deliver innovation with a new matte acrylic finish giving the look of stone without the same weight and cost.

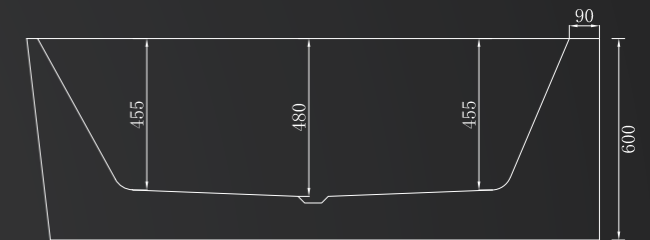

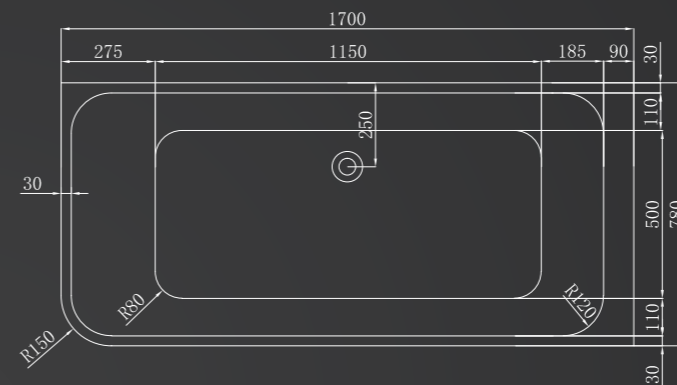

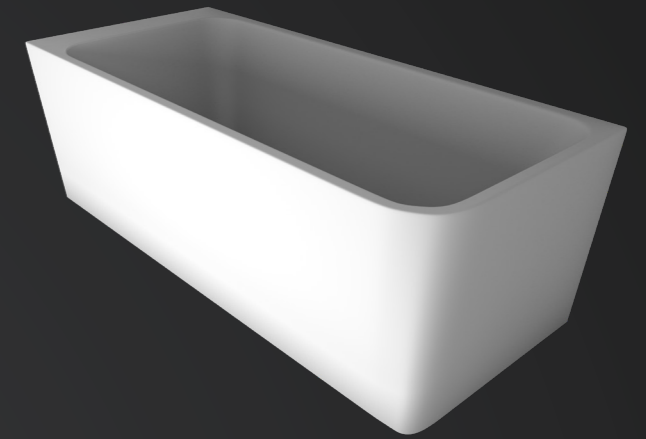

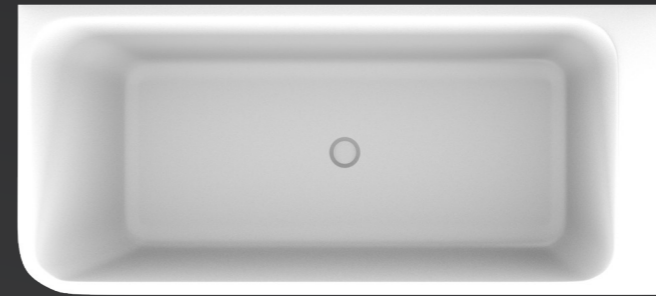

THE SMITH | BACK TO WALL

AVAILABLE IN 1500MM & 1700MM GLOSS OR MATTE WHITE FINISH

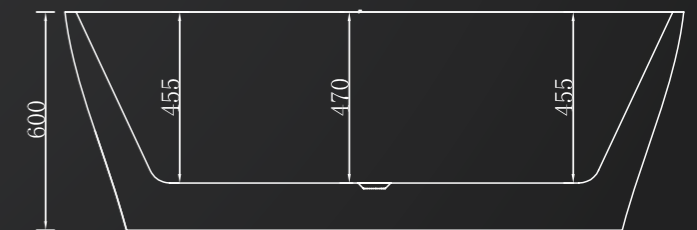

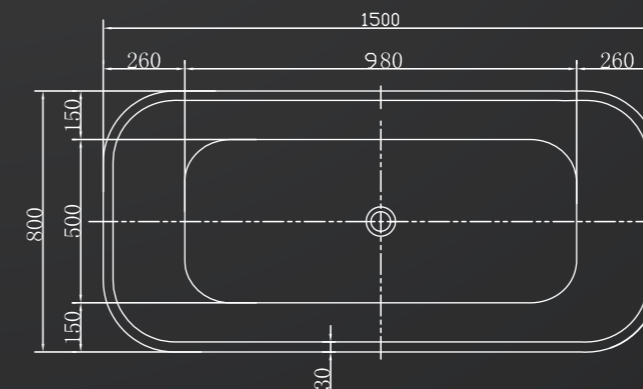

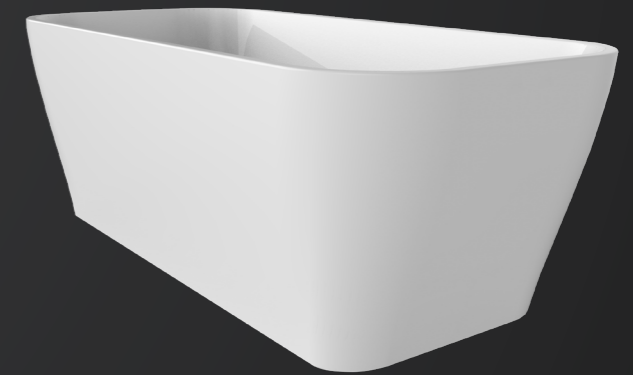

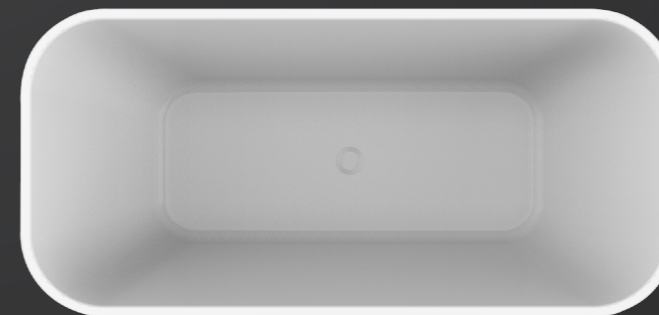

THE SMITH | BACK TO WALL CORNER (LEFT AND RIGHT)

AVAILABLE IN GLOSS WHITE FINISH

THE SMITH | FREESTANDING

AVAILABLE IN 1500MM & 1700MM GLOSS OR MATTE WHITE FINISH

be inspired by MUSE

The jewel of the kitchen is our new Muse extractable kitchen mixer. With its height, slim body, and ergonomic angled handle she is a beauty. Available in an on trend extended colour palette, adjustable spray button and durable braided hose. It is easy on the eye.

THE MUSE | KITCHEN MIXER

AVAILABLE IN MATTE BLACK, BRUSHED STAINLESS, CHROME, BRUSHED COPPER, GUN METAL AND BRUSHED GOLD

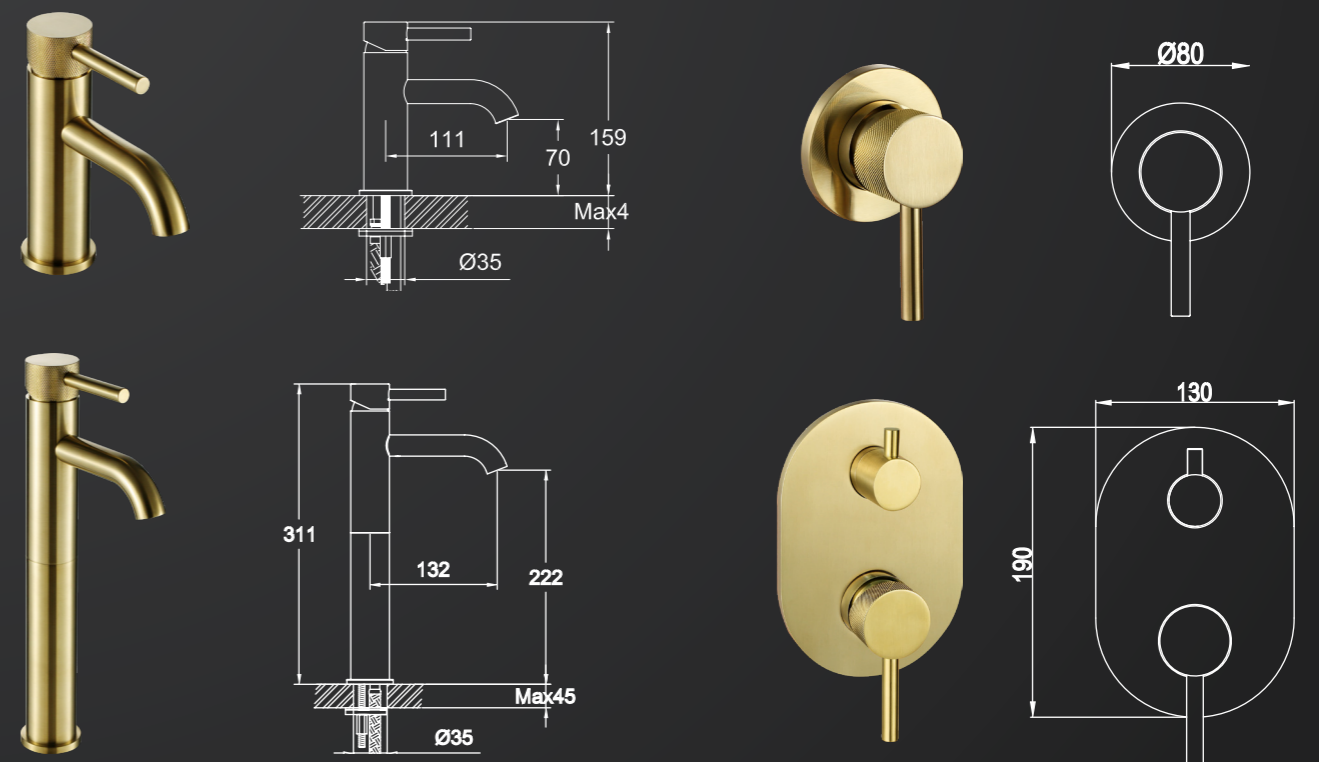

adding the midas touch with SCARAB

Understated and elegant is how we describe our Scarab range. With its soft colour hue and brushed finish, this range exudes timeless classic. Looking for something with an edge, then consider using the knurled handle option as featured below.

SCARAB | KNURLED HANDLE OPTION

AVAILABLE FOR THE STANDARD AND TALL BASIN MIXERS, THE BATH/SHOWER MIXER AND SHOWER DIVERTOR

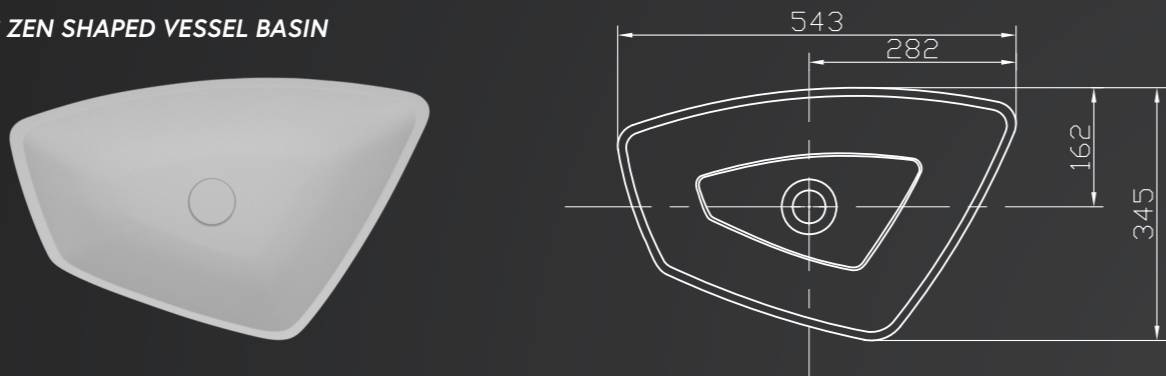

setting the trends with ISTONE

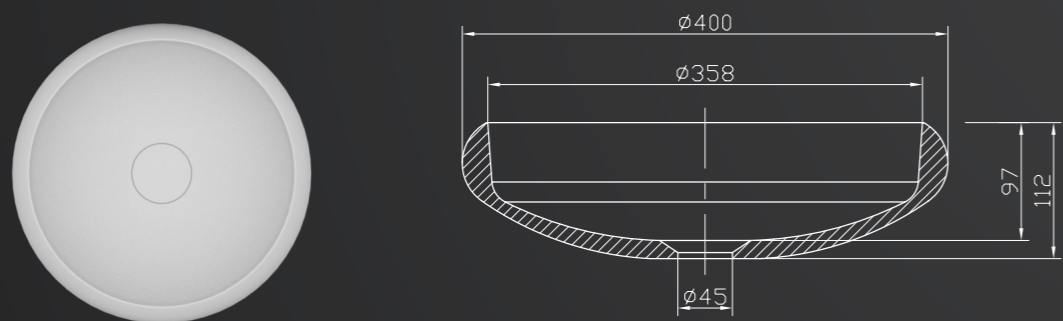

The latest vessel bowl release from istone -features organic shapes. with Forme's zen feel, the levitating Flotte bowl and the addition of removable basin shelves giving additional storage for compact spaces. iStone is leading the charge in solid surface manufacturing, this amazing material offers a stone like quality; it's strong allowing thin edges, beautiful shapes and volumes, it is durable and has an environmentally friendly production process.

Waterware tapware and bathroom accessories are manufactured to a high standard including premium quality ceramic disk internals ensuring years of trouble free service.

Finished to a high standard with smooth, easy to clean, corrosion resistant and fade-proof finishes.

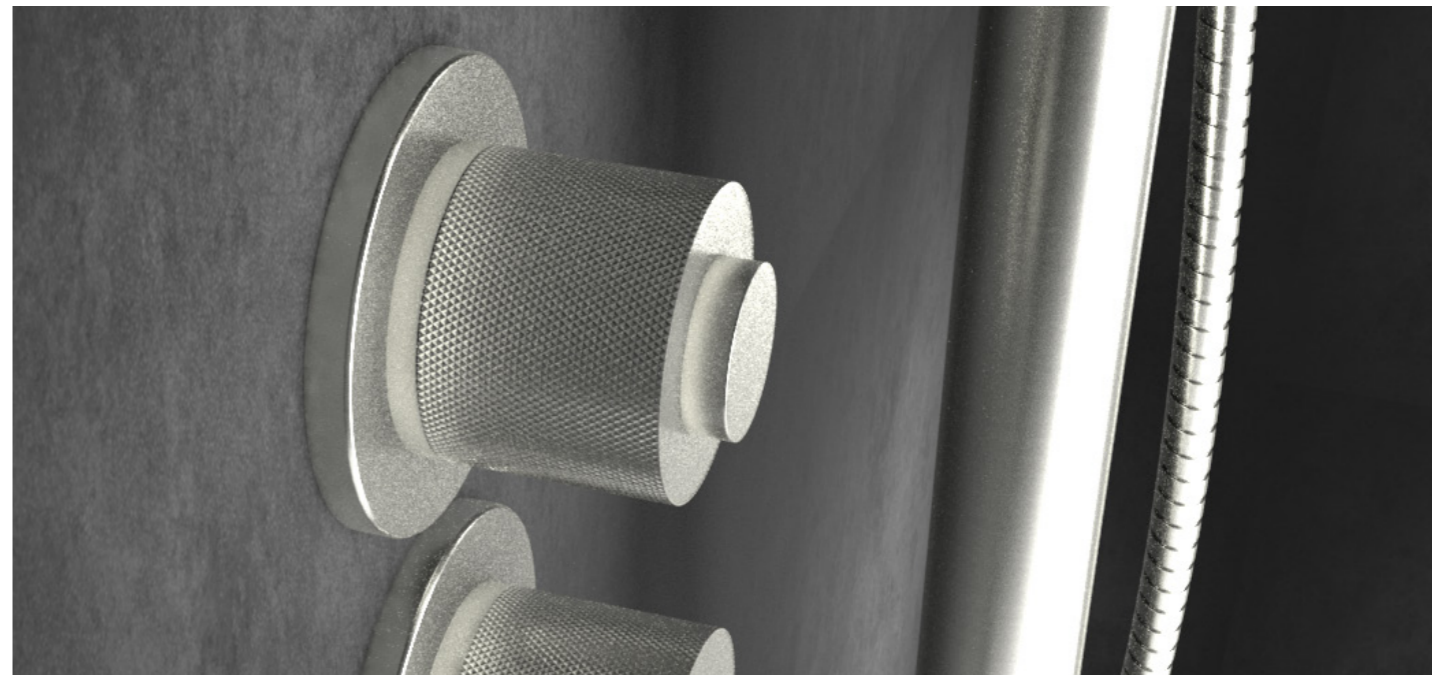

All models are designed to operate on a balanced high pressure hot and cold supply (mains pressure) between 200 - 500kPa.

Waterware tapware has been tested and approved in accordance with the NZ WELS testing standard.

TUNE

The Tune tapware and accessories are a collaboration of cutting edge bathroomware ranges. Sourced by our design team whose love for interior style and international fashion push the boundaries for creating the perfect living space.

Dare to be brave. Dare to have fun.
Dare to fine TUNE your pursuit of perfection.

ELECTRIC HEATED SINGLE BAR TOWEL RAILS SQUARE

Electric towel bar with square mounting posts offer a unique collection focused on contemporary, geometric lines. Their pure flexibility in the number and positioning of the rails, they can be installed in multiples (sold separately) and connected in parallel to a common low voltage transformer (also sold separately). Complementing any surrounding of square and round fixtures, making it adaptable to any bathroom setting.

The concealed electrical connection is IP45 rated, can be orientated left or right hand and is manufactured and tested to AS/NZS 60335.2.43.

500mm; 12V / 9.3Watts / Maximum of 10 towel bars per transformer
 650mm; 12V / 12.0Watts / Maximum of 7 towel bars per transformer
 850mm; 12V / 15.6Watts / Maximum of 6 towel bars per transformer

Waterware bathroomware is manufactured to a high standard using high quality raw materials.

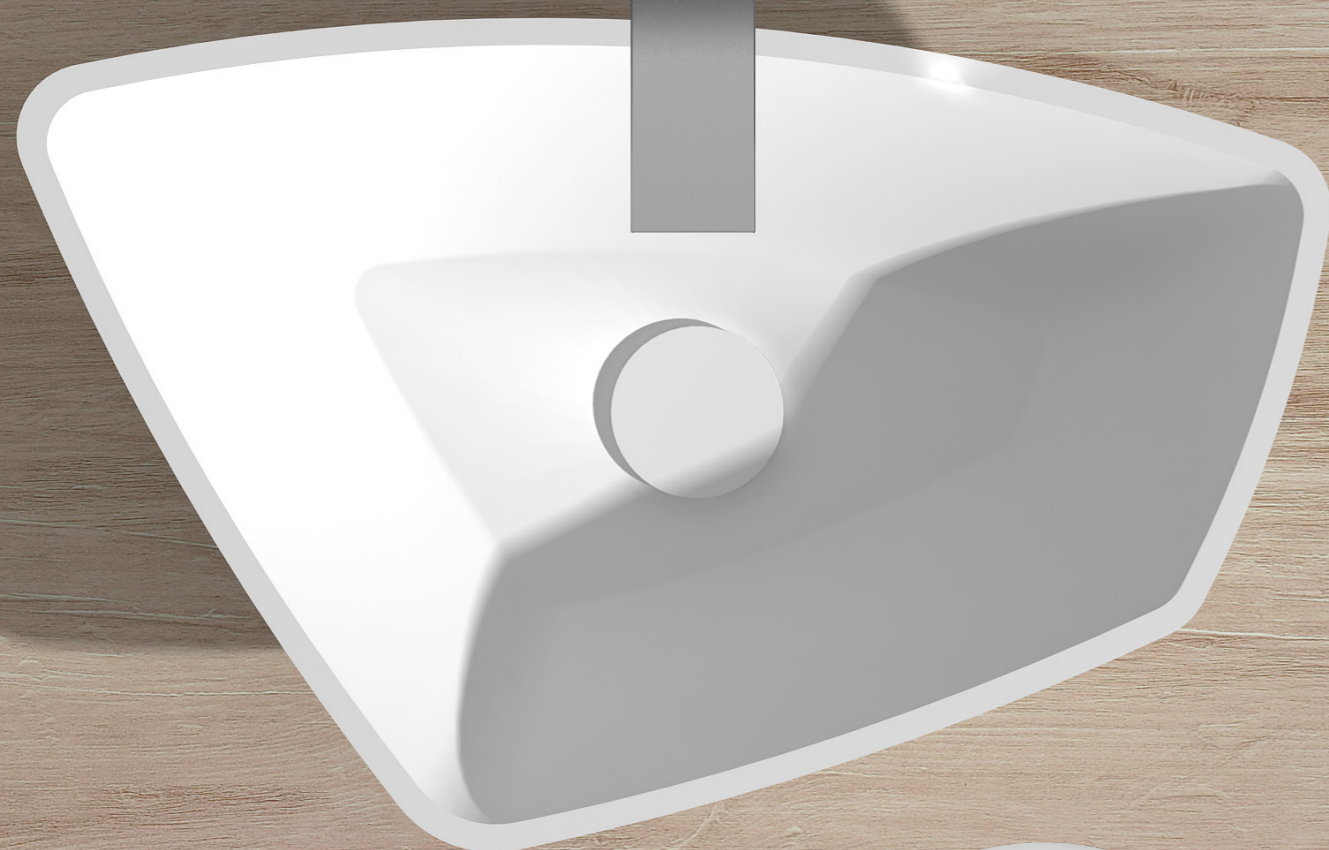

iStone basins, baths and tops have crisp sharp lines and are dimensionally perfect.

Cabinets are made from high quality low formaldehyde MDF, finished with real wood veneers or a glossy white lacquer paint. Drawers feature metal frame construction and Blum soft closing hardware.

Toilets feature heavy duty resin seats and quick release soft close stainless steel hinges.

TOILETS

by Verotti

Making luxury items out of
functional necessities

VIVO TOILET SUITES

A modern, straight, edgy design

- Compact 610mm deep design
- Durable molded resin seat
- Quick release soft close, stainless steel seat hinges
- Low profile flush button in chrome (white and black available on request)
- Steep sided unobstructed bowl
- 'P' trap with an adjustable 'S' trap waste adapter
- Back or bottom and side connection options which makes it easy to adapt to existing plumbing
- WELS rating: 4 star 4.5-3 L/min

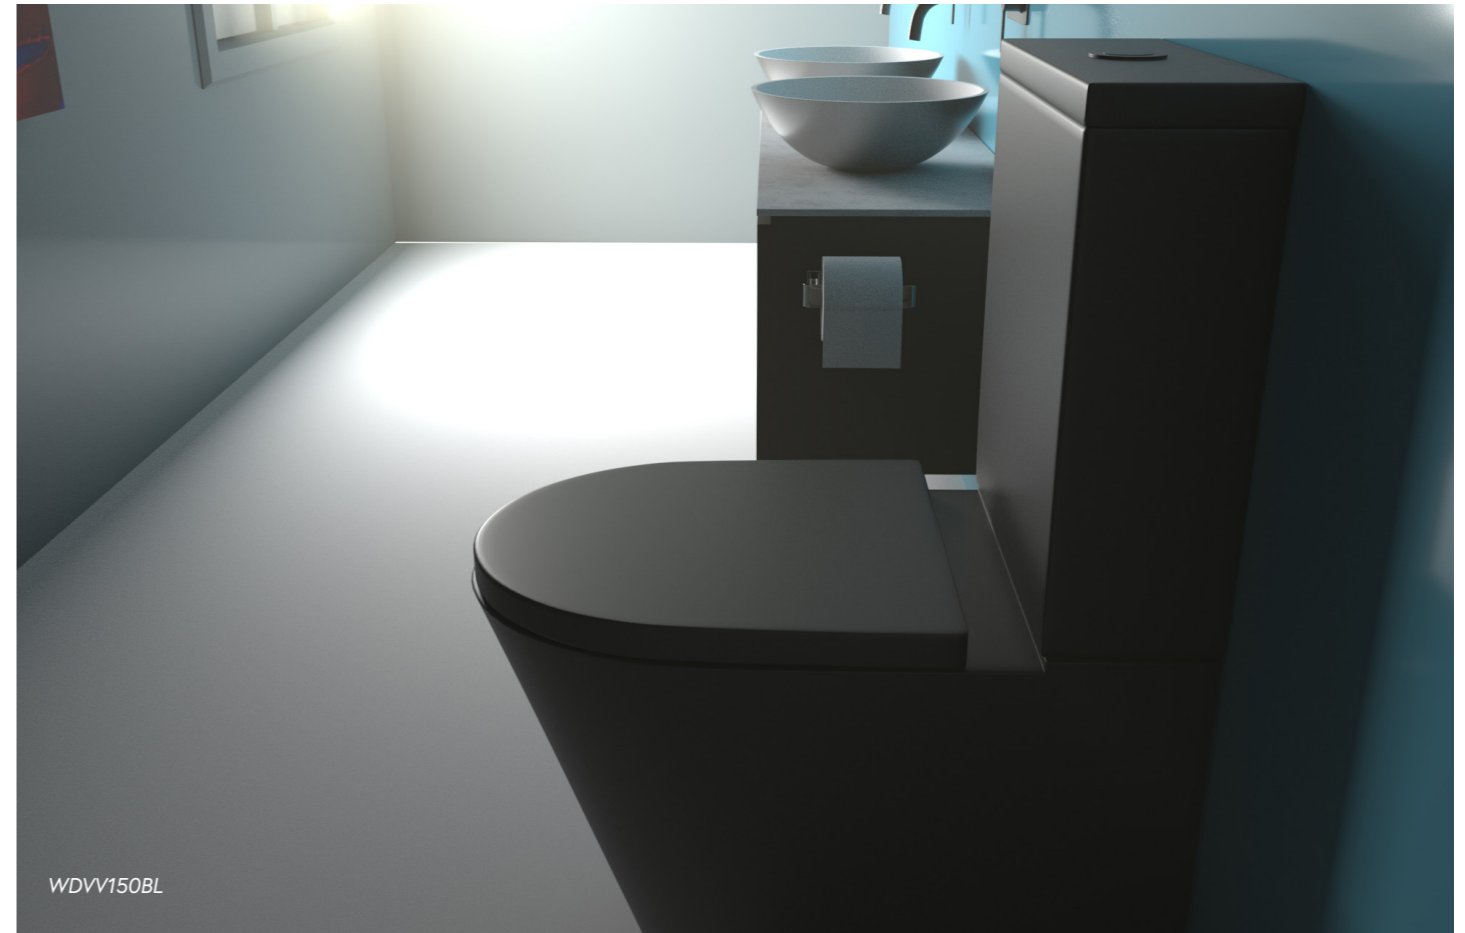

Latest rimless flush technology, which increases the flush velocity for excellent clearing capability.

CONCEALED CISTERN PANS

A minimalist design option to create space

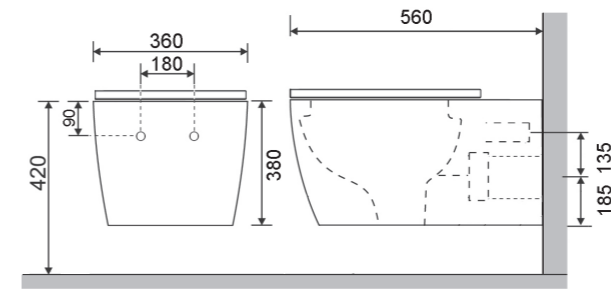

Luci and Vivo concealed cistern pans allow the cistern mechanism and tank to be concealed within the wall cavity which reduces the footprint of the pan and the distance it extends from the wall. The wall hung option further enhances the illusion of space.

- Durable molded resin seat
- Quick release soft close, stainless steel seat hinges
- Steep sided unobstructed bowl
- Rimless flush
- WELS rating: 4 star 4.5-3 L/min

Waterware tapware is manufactured to a high specification featuring world renowned 'sedal' ceramic disk internals to ensure years of trouble free service.

All models are designed to operate on a balanced high pressure hot and cold supply (mains pressure) between 200 - 500kpa.

*WELS 0 Star Unrestricted

In our own kitchens we prefer the maximum flow to be a matter of user choice and therefore do not fit flow restrictors resulting in a WELS 0 star rating. However, flow restrictors may be requested at time of order if that is your preference.

THE WATERWARE STORY

Waterware is a privately owned and family run business, established in 1989.

For over 30 years Waterware NZ has been a specialist importer and distributor of bathroom, plumbing and central heating products.

We are an established industry supplier who has built our reputation as being technical experts of what we sell. Our full time technical team are dedicated to trouble shooting and supporting the installer network to ensure our products meet or exceed your expectations.

We support the products we sell with market leading warranty terms and an inventory of spare parts for past and current product we sell.

We ensure our products are fully compliant with national regulatory requirements which are often overlooked by suppliers of discount products.
