# RECYCLED PLASTIC

# ABOUT RESOURCEFUL LIVING

*100% Recycled Plastic*

## OUR PRINCIPLES

- Passion for our environment is at the heart of our company. We are continuously looking for innovative ways to reduce our footprint.
- Integrity for our staff, customers and community to know that we are honest and transparent in the way we operate.
- Quality of our products is continually evaluated and enhanced, so you know when you buy from Resourceful Living, you are getting excellence.

Let us inspire the next generation to see plastic as a reusable product that can help save our planet.

# WHY CHOOSE US?

## OUR MISSION

Produce an environmentally friendly, sustainable, bespoke product that is a unique, functional feature of Australian homes and offices and a solution to the plastic environmental crisis affecting our planet.

Our aim is to change consumer ideas on recycled plastic. We are going to transform preconceived beliefs and develop recycled plastic as a quality material that can be used in a myriad of ways many times over.

All of our table tops are handmade with 100% post-consumer waste.

We will work with you to complete the following:

1. Provide examples of colours to suit.
2. Provide easy installation for legs at your end.
3. Provide details on what types of plastic went into the marking of the tables.
4. Handcraft the finish on all tables to give an upper market feel.

**Be part of the change.** Share with your customers your commitment to saving plastic from our oceans and landfill.

# AWARD WINNING

## RECYCLING 1 BOTTLE AT A TIME

We are proud to be recognised for our commitment to sustainability and recycling.

Through our local manufacturing we have already processed over 10 tonnes of waste into new products.

By working with businesses we continue to reuse plastic waste in a variety of products.

# YOUR IMPACT

We provide you with an exact amount of plastic used and how that has helped the environment based exclusively on your project.

We can share where your plastic came from and what it use to be so that you as a business can share that with your employees, stakeholders and customers.

## HOW USING RECYCLED PLASTIC HELPS THE ENVIRONMENT

Below is an example:

### **14.4 Tonnes of Recycled Plastic Saves**

- 83,145Kwh of energy (average NSW house uses 5000 - 6400kwh per year)
- 243.72 barrels of oil or 38748.38 litres of oil
- 1411.2 BTU of energy required to raise the temperature
- 432 cubic metres of landfill

**The earth** is what we all have **in common.**
