

SWEDIA®

PROFESSIONAL STAINLESS STEEL KITCHENWARE

SWEDIA Stainless Steel

the hygienic choice

Sanitary

grade stainless steel is internally smooth to resist debris buildup, and is 100% lead (Pb) free

Precision

engineered for enhanced reliability

Technology

delivers flow and temperature control from the latest ceramic cartridges

Perfection

from hand-finished surfaces and intense quality checks

Quality

components such as Swiss Neoperl aerator to ensure consistent water flow

Eco-friendly

by avoiding the harsh chroming process typical for brass tapware

Stainless Steel is demanded in premium and commercial kitchens for its aesthetic appeal, superior hygienic and sanitary properties, and high resistance to corrosion.

Family health: Unlike brass taps, stainless steel contains no lead (Pb).

Hygienic Water: Stainless Steel is non-porous so a highly sanitary metal - no debris buildup inside.

Temperature Tolerance: Stainless steel can tolerate much higher temperatures than other metals.

Outdoors proof: Premium stainless steels boast natural anti-corrosion and anti-oxidation properties.

Long-life Finish: No coating that can peel or scratch off - and it can be brushed or polished.

Eco-friendly: The harsh chroming process is avoided - a big positive for the environment.

Not all stainless steel kitchenware is high quality. Swedia balances the brightness, hardness and anti-corrosiveness qualities of stainless steel and spectrometer tests all raw materials for purity. Swedia only partners with the World's best manufacturers of materials and components.

SWEDIA
specialises in
professional grade
stainless steel
kitchen tapware
and sinks.

stainless steel tapware

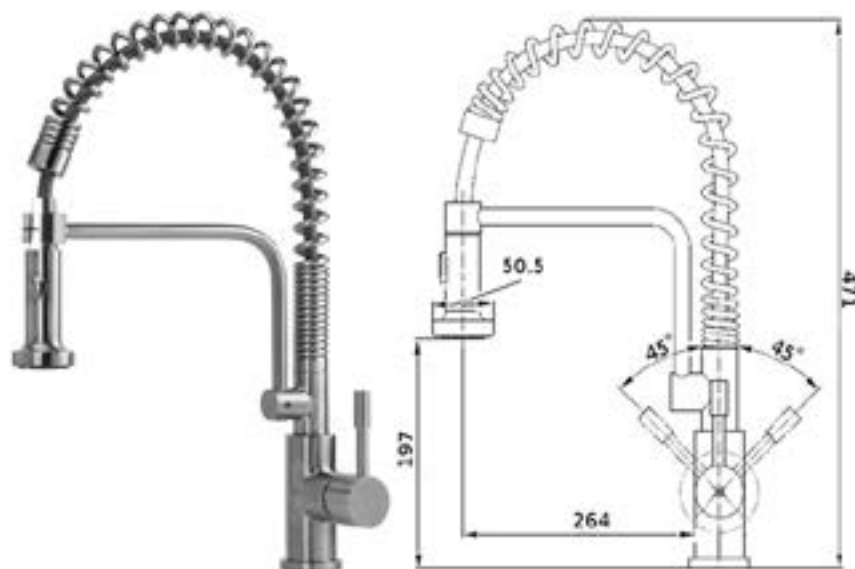

*architectural designer tapware
to perfect your kitchen*

*solid stainless steel for durability
and outdoor installation*

*highly sanitary surfaces -

Finish: Brushed Satin or Polished
Spout: 360° swivel spring goose neck
Flow: Fitted with 4 star Wels rated flow restrictor (7.5 lpm)
Nozzle: Pull-out retractable hose. Dual spray switch for aerator and shower

KLAAS

Traditional goose neck with optional pull-out hose

Finish: Brushed Satin or Polished
Spout: 360° swivel goose neck
Flow: Fitted with 4 star Wels rated flow restrictor (7.5 lpm)
Nozzle: Optional discrete pull-out retractable hose. Neoperl aerator.

PRIMA

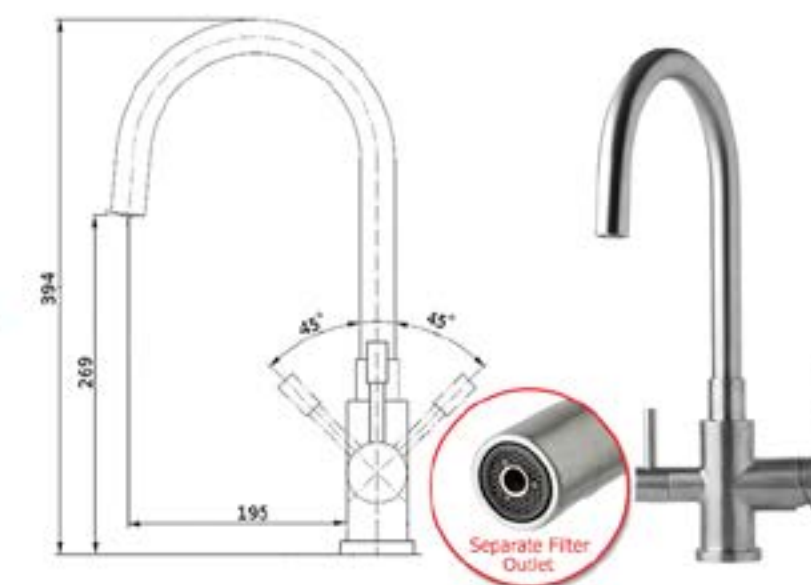

Spring goose neck with flexi-hose and dual spray

Finish: Brushed Satin or Polished
Spout: 360° swivel spring goose neck
Flow: Fitted with 4 star Wels rated flow restrictor (7.5 lpm)
Nozzle: Flexi-hose. Dual spray switch for aerator and shower

OTTO

Traditional goose neck with filtered water outlet

Finish: Brushed Satin or Polished
Spout: 360° swivel goose neck
Flow: Fitted with 4 star Wels rated flow restrictor (7.5 lpm)
Nozzle: Neoperl aerator. Separate discrete outlet for drinking water
Filter: Separate input for filtered water with independent flow control

OPTIMUS

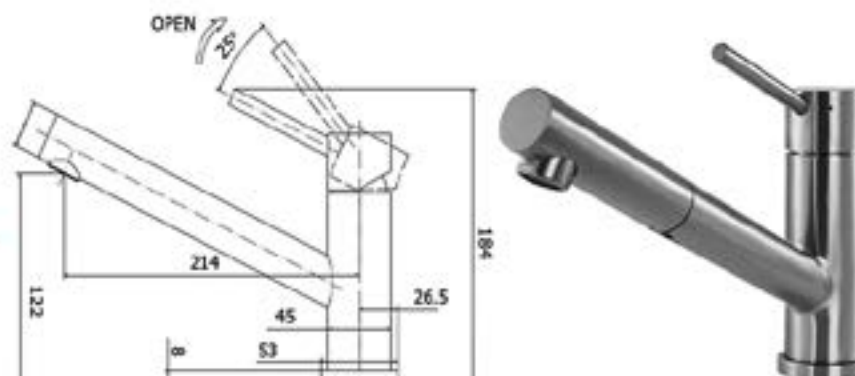

Spring goose neck with flexi-hose, dual spray & pot filler

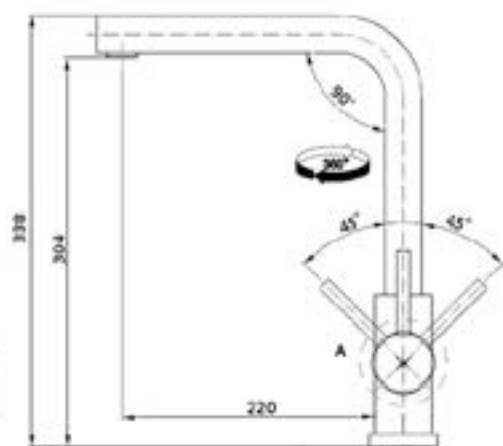

Finish: Brushed Satin or Polished
Spout: 360° swivel spring goose neck
Flow: Fitted with 4 star Wels rated flow restrictor (7.5 lpm)
Nozzle: Flexi-hose. Dual spray switch for aerator and shower
Filler: Independent swivel arm with flow control

OSKAR

Low height spout with optional pull-out hose

Finish: Brushed Satin & Polished
Swivel: 360° swivel low height spout
Flow: Fitted with 4 star Wels rated flow restrictor (7.5 lpm)
Nozzle: Optional discrete pull-out retractable hose. Neoperl aerator.

KLARA

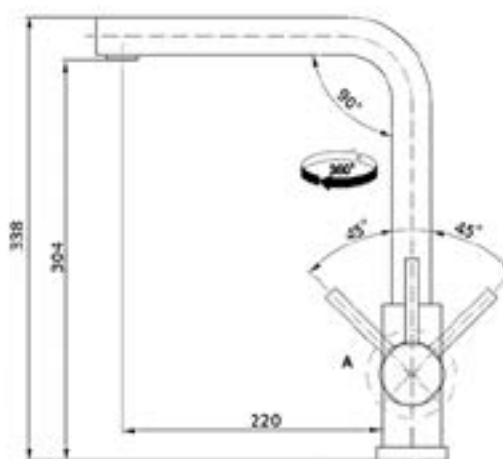

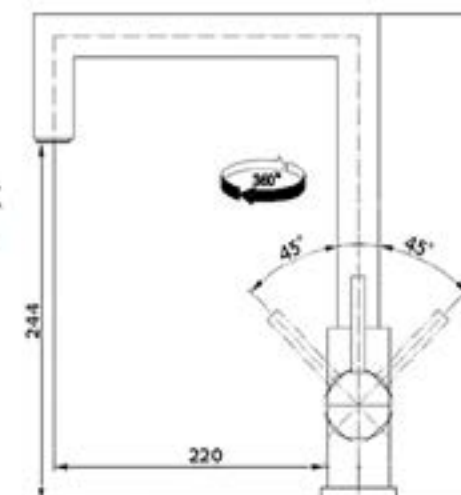

Contemporary mixer
Rounded right angle neck

Finish: Brushed Satin or Polished
Spout: 360° swivel
Flow: Fitted with 4 star Wels rated
flow restrictor (7.5 lpm)
Nozzle: Neoperl aerator

ISAK

Contemporary mixer
Rounded double square neck

Finish: Brushed Satin or Polished
Swivel: 360° swivel
Flow: Fitted with 4 star Wels rated
flow restrictor (7.5 lpm)
Nozzle: Neoperl aerator

CUBEX

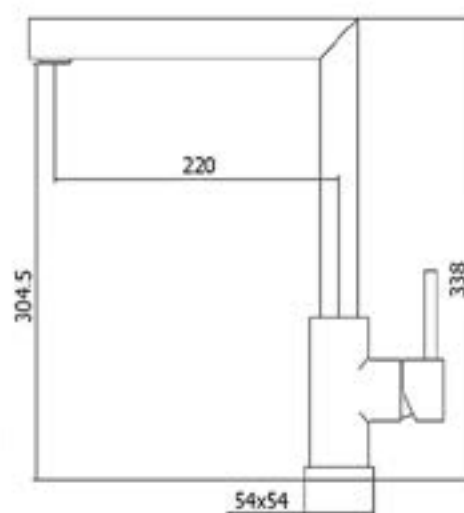

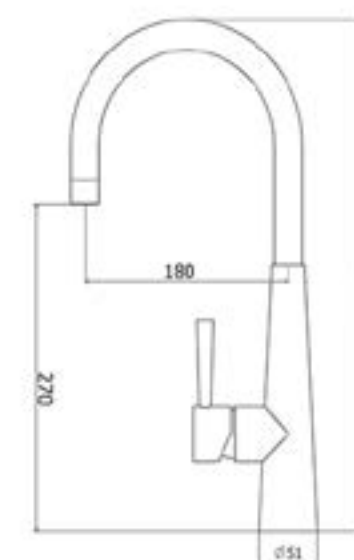

Contemporary mixer
Chisel edge right angle neck

Finish: Brushed Satin or Polished
Spout: 360° swivel
Flow: Fitted with 4 star Wels rated
flow restrictor (7.5 lpm)
Nozzle: Neoperl aerator

GRETAL

Traditional goose neck
with tapered base

Finish: Brushed Satin or Polished
Swivel: 360° swivel
Flow: Fitted with 4 star Wels rated
flow restrictor (7.5 lpm)
Nozzle: Neoperl aerator

ISAR

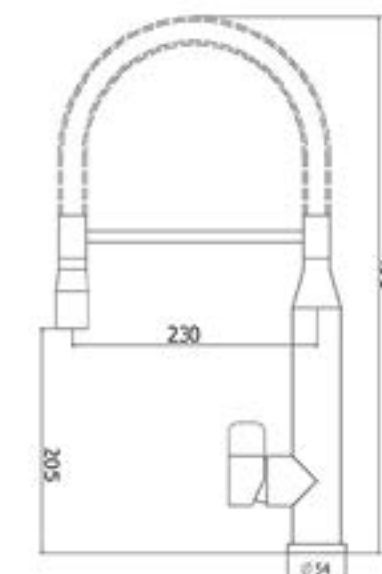

Contemporary mixer
Rounded square neck

Finish: Brushed Satin or Polished
Spout: 360° swivel
Flow: Fitted with 4 star Wels rated
flow restrictor (7.5 lpm)
Nozzle: Neoperl aerator

GOSTA

Spring goose neck with
detachable flexi hose

Finish: Brushed Satin or Polished
Swivel: 360° swivel with detachable flexi-hose
Flow: Fitted with 4 star Wels rated
flow restrictor (7.5 lpm)
Nozzle: Neoperl aerator

BOLD.

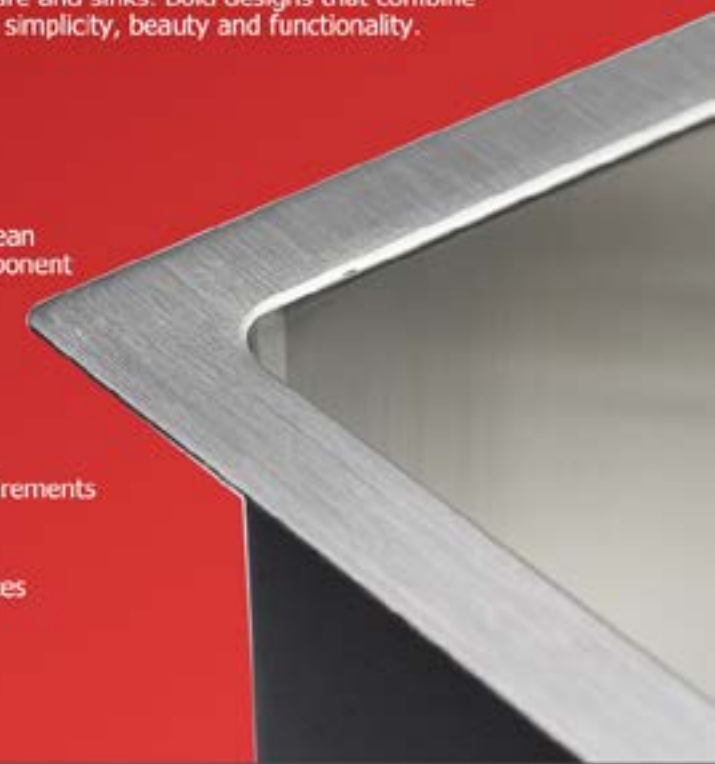

architectural designs
that impress

Swedia® is a 100% Australian group specialising in architectural stainless steel kitchenware. Created with select European design houses and manufactured specifically to meet the strict Australian and New Zealand requirements and standards.

Swedia® provides the Australian and New Zealand markets with a new premium choice in kitchen tapware and sinks. Bold designs that combine clean simplicity, beauty and functionality.

Swedia has partnered with a combination of specialist European manufacturers and premium quality rated factories and component suppliers to produce their professional tapware and sinks:

- Swiss stainless steel tapware engineers and designers
- Leading ceramic cartridges for precision water control
- Spanish input hoses made for Australia's Watermark requirements
- German specialist anti-fray hoses designed to last
- Swiss aerators and nozzles for perfect water flow
- Master steel finishers and welders to hand finish all surfaces
