LINEN

## About us.

Here at Home Lab, we believe in finding enjoyment in the things we use most frequently. From bed linen to throws, cushions and furniture, we strive to create homewares that rest effortlessly together and work seamlessly throughout your home, allowing you the ability to experiment and style your home without the designer price tag. As a New Zealand owned and operated business we love the fact that we understand our customers needs & wants, driving us to create the best products possible for you to take home & enjoy as much as we do.

Experiment at home with  
Home Lab.

## WHY INVEST IN PURE LINEN?

Our Linen is the ideal transeasonal fabric suitable for all year round use, adding warmth and cosiness in winter and lightness and breathability in the heat of summer. It is an investment worth every. single. dollar.

## HOW TO CARE FOR YOUR LINEN

Our linen is extremely simple to love and care for, in fact, the more you wash and use your linen the softer and more luxurious it becomes.

We recommend cool machine wash and tumble dry if needed. Don't hang in direct sunlight as linen being a natural fibre may fade. Iron if needed but the beauty of linen is that relaxed, slept in look which we love.

## HOW DO I PICK THE RIGHT COLOUR?

Easy! you can order a set of colour swatches so you can ensure you are choosing the perfect colour...or we are happy to exchange or refund if you are not completely happy!
