## ORIGINAL RESTORATION

For nearly a century this once beautiful fence and hinged gate have protected this property.

Unfortunately time and weather have ravaged the original concept.

Note the chamfering to soften the harsh edges.

Accumen® Shapes are proud to be involved in this restoration.

The posts and fence were removed and a new foundation poured with solid block and concrete posts. Accumen® Shapes supplied the top caps (A) with cornices (B) and the dado mouldings (C). These were coated with our robust KickIt® Plaster.
