## Historical Reinstatement

Due to an unfortunate mishap this historical façade was damaged beyond repair. Accumen was invited to reproduce the balustrade which was done with great pride.

Accumen Ltd can perform miracles with lightweight Accumen® Shapes and robust KickIt® Plaster. The recreation of the balustrade has been blended into the historical façade without compromising the original structure.

With the professional effort of skilled tradesmen, who installed the product and also made repairs on other areas, this beautiful building is now a show piece that will provide visual pleasure for many years to come.
