*We don't just deliver products, we **CREATE** them*

## ALL SHOOK UP

### 6.8 on the richter scale

This old building in Gladstone Road, Gisborne, was almost ruined by an earthquake in 2007 and then caught fire

The majestic building was restored by chipping loose material away from the structure and then rebuilding it.

The skilful restoration was carried out by a local plastering company, including the installation of **ShapeCrete®** lightweight concrete mouldings and signage supplied by **Accumen Shapes Ltd.**
