MEN AT WORK (Christchurch)

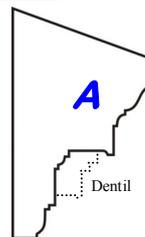

It’s all about attention to detail.

This exquisite entrance has been created using excellent design, moulding details from **Accumen Shapes** and a properly plastered professional effort by skilled tradespersons who installed the **Accumen®** products.

Accumen® shapes were also installed around the windows, doors and under the soffits.

This very expressive entrance has added considerable value and appeal to a much loved Christchurch home.

Could this be an example of what we are yet to see more of in Christchurch? We hope so.
